# NATURE NURTURES 2021

## Workshop Summary:

Join BCRP's Carrie Murray Nature Center for a presentation and engaging hands-on activities that will provide the "what and why" of emergent curriculum, and how it can add value to any leader/guide/teacher's approach to learning outdoors. This session is for anyone who is curious about learning and play in nature!

The session will:

1. define what emergent curriculum is,
2. explain the approach and how it is different from traditional curriculum,
3. provide examples and interactive opportunities to engage with the approach.

Attendees will gain tools/online resources, knowledge and skills, and useful contacts.
