NATURE NURTURES 2021

Workshop Summary:

In this Nature Nurtures workshop, attendees will visit a 10-acre working farm and forest in West Baltimore! You'll learn from the adults and youth of Malcolm House about how to use urban agriculture to build soil and ecosystems, as well as connections to community and the earth for young people.

Attendees will hear from youth and adults about Malcolm House's programming and community impacts, and will learn how and why to work with youth on agriculture in Baltimore City.
