Flyers.....	42
Key Points About the DP3 Update.....	43
Appendix D: Summary Survey Results.....	44

## Purpose

---

The engagement strategy serves as a roadmap to guide and document stakeholder and community engagement during the development of the 2023 Baltimore City Disaster Preparedness and Planning Project (DP3). This engagement strategy is a living document that will be referenced and updated throughout the planning process to ensure it remains current and includes guidance and feedback received from the advisory teams responsible for overseeing the DP3 update.

## Goals for Engagement

---

- Inform stakeholders and community members about risks associated with natural and human-caused hazards.
- Foster a collaborative process to develop a mitigation strategy to reduce identified risks.
- Demonstrate how mitigation solutions support co-benefits that improve quality of life both now and in the future.
- Design community-informed mitigation solutions that align with other community and City priorities (or identify mitigation solutions that are community-informed).
- Develop a better sense of the demographics of individuals actively engaged and participating in the planning process.
- Increase engagement with diverse neighborhoods and communities.

## Participants

---

Many parties support the preparation of the DP3 update, including City officials and discipline leads, the planning support consultant (Tetra Tech, Inc.), stakeholders, neighboring jurisdictions, nonprofits, private businesses, and community members. The Baltimore Office of Sustainability (BoS) is the lead for developing and maintaining the DP3. The organizations and individuals involved in the development of the DP3 are described below.

### Core Planning Team (CPT)

The CPT is an advisory team that is responsible for making key decisions during the planning process, maintaining the schedule and timeline, reviewing deliverables and plan drafts, informing the development of content for outreach and engagement, providing information and data to inform the plan content, and assisting in identifying solutions for challenges or issues that may arise during the planning process. **Table 1** lists the CPT members along with their titles and organizations.

**Table 1. CPT Members**

Name	Title	Sector/Area of Expertise
<b>Baltimore City Office of Sustainability (BoS)</b>		
Bruna Attila	Coastal Resources Planner	Land Use and Development and Natural and Cultural Resources
Joanna Birch	Floodplain Manager	Land Use and Development and Floodplain Management
Aubrey Germ	Climate and Resilience Planner	Land Use and Development, Natural and Cultural Resources, Climate Change, and Sustainability
Quentin Klein-Alfano	Climate Outreach Intern	Land Use and Development, Natural and Cultural Resources, Climate Change, and Sustainability
Ava Richardson	Director	Land Use and Development, Natural and Cultural Resources, Climate Change, and Sustainability
Valerie Rupp	Climate and Resilience Program Manager	Land Use and Development, Natural and Cultural Resources, Climate Change, and Sustainability
<b>Department of Planning (DOP)</b>		
Nicholas O’Gara	GIS Analyst	Land Use and Development and GIS
Jamie Williams	City Planner Supervisor	Land Use and Development and GIS
<b>Office of Emergency Management (OEM)</b>		
Michelle Smith	Preparedness Section Chief	Emergency Management
Elise Whiteford	Planning Section Chief	Emergency Management
<b>Department of Public Works (DPW)</b>		
Kimberly Grove	Chief, Office of Compliance & Research	Infrastructure

## Hazard Mitigation Advisory Committee (HMAC)

The HMAC also serves as an advisory team and provides oversight of the planning process. The HMAC’s role is to advise the CPT on community needs and concerns and ensure community representation and inclusion in the planning process. The HMAC membership strives for inclusion of agencies and organizations that will serve as lead and supporting implementers of the Mitigation Strategy. The HMAC will operate under a set of ground rules that they established, and their meetings will be open to the public and advertised (see Community Rating System [CRS] Considerations for additional information). The list of HMAC members is included in **Appendix A**.

### Equity HMAC Subcommittee

This subcommittee prioritizes representation from socially vulnerable populations within the City as well as other key stakeholders identified through the planning process. This includes representatives from community organizations and Resilience Hub leaders. The 2018 DP3 included recommendations to broaden outreach and engagement efforts to include greater representation from all Baltimore

neighborhoods and communities. The list of subcommittee members is included in **Appendix A**.

## Stakeholders and Community Members

Stakeholders are the individuals, agencies, and jurisdictions that have a vested interest in the recommendations of the DP3, including all HMAC members and the general community. Diligent efforts are being made to ensure broad regional and local representation in this planning process. Stakeholder outreach was performed early in the planning process and will continue throughout the planning process. Below are highlights of stakeholder and community engagement.

- All HMAC meetings will be open to the public and advertised via the Baltimore Office of Sustainability's DP3 website. (<https://www.baltimoresustainability.org/plans/disaster-preparedness-plan/>).
- The HMAC will be provided outreach materials by Tetra Tech and BoS to post on their websites and social media platforms and distribute as hard copies.
- Stakeholder and neighboring jurisdiction surveys will be deployed to obtain input regarding vulnerabilities, capabilities, and mitigation projects.
- Drafts of the DP3 will be posted on the Baltimore Office of Sustainability's website and advertised using social media platforms, email, and other platforms.
- Continuous group and individual email correspondence will be sent to regional stakeholders and neighboring communities to encourage participation in the planning process.

The following stakeholders were invited to participate in the development of the DP3 update. Due to the considerable number of potential stakeholders that have a vested interest in the DP3, the list is not meant to serve as a comprehensive summary of all stakeholders but demonstrates the scope and breadth of stakeholder outreach efforts made during the DP3 update process.

### City Officials

City officials represent the decision-makers and policymakers in the City. These representatives are vital to successfully obtaining funding and identifying a legislative pathway to implement the DP3. In addition, their participation and engagement in the DP3 process aids in equipping them with risk information. City officials include:

- Mayor's Office
- Sustainability Commission
- Infrastructure Commission
- Planning Commission

## Federal and State Agencies

Federal and State agencies are a source of data and information for developing the plan's content and will ultimately review and approve the plan. The Maryland Department of Emergency Management (MDEM) is charged with providing technical assistance, as applicable, and reviewing the DP3. The Federal Emergency Management Agency (FEMA) is responsible for reviewing and approving the DP3. Representatives from MDEM and FEMA are invited to participate in the planning process through the HMAAC.

Information regarding hazard identification and the risk assessment for the DP3 update was requested and received or incorporated by reference from the following Federal agencies and organizations:

- National Climatic Data Center (NCDC)
- National Hurricane Center (NHC)
- National Oceanic and Atmospheric Administration (NOAA)
- National Weather Service (NWS)
- Storm Prediction Center (SPC)
- U.S. Army Corps of Engineers (USACE)
- U.S. Census Bureau
- U.S. Department of Agriculture (USDA)
- U.S. Department of Health and Human Services
- U.S. Environmental Protection Agency (USEPA)
- U.S. Geological Survey (USGS)

## Neighboring Jurisdictions

Hazard impacts occur across jurisdictional boundaries. Engaging neighboring jurisdictions in the planning process provides a pathway to identify regional-scale mitigation actions to reduce risk at a larger scale. The following neighboring jurisdictions are engaged in the planning process:

- Anne Arundel County
- Baltimore County
- Howard County

## Points of Engagement

The 2023 DP3 planning process prioritizes providing multiple opportunities for stakeholders and community members to participate in the process and provide feedback. **Table 2** lists the key engagement milestones and tentative dates.

**Table 2. Engagement Milestones and Dates**

Milestone	Tentative Date
Public Kickoff Workshop	April 2023
Hazard Profiles Posted for Public Review	June 2023
Public Risk Assessment Workshop	June 2023

Milestone	Tentative Date
Stakeholder Mitigation Action Workshop	July 2023
Draft available for Review by the Public, Baltimore City Planning Commission, and Maryland Department of Emergency Management	July 2023
Public Project Prioritization Workshop (to support development of Project Portfolio)	August 2023
Final Draft Submitted to FEMA Region III	September 2023
Final DP3 Adopted by City and Approved by FEMA	December 2023
Public Review Meeting of Adopted Plan	January 2024

## Public Engagement

- Public Comment Period:** Stakeholders and community members will be able to access a Survey Monkey link available on the BoS website and shared widely with stakeholders and partners to provide comments on each chapter of the DP3.

A number of public meetings and public engagement opportunities were held throughout the DP3 planning process. Please see the table below for individual descriptions of the engagement opportunities.

**Table 3. Public Engagement Opportunities**

Date	DMA 2000 Requirement	Description of Activity
May 2, 2023	1b, 5c	<u>Public Kickoff Meeting:</u> The purpose of the meeting was to describe the purpose and goals of the Disaster Preparedness and Planning Project (DP3), provide an overview of the process to develop the plan and highlight opportunities for stakeholders and the community to participate, discuss the City's past experiences with disasters, and discuss community concerns and needs regarding disasters.
June 21, 2023	1b, 5c	<u>Sustainability Open House:</u> The purpose of this event was to introduce those in and around Baltimore City to various activities occurring in the City, including ongoing initiatives. Tetra Tech and the Baltimore City Office of Sustainability hosted a table to gather additional public input on hazard areas within the City. Methods of engagement included a disaster jeopardy game, a map to collect hazard areas, hardcopies of the public and stakeholder surveys, QR codes which linked to the online public and stakeholder surveys, and information on what the DP3 is.

## Planning Commission Engagement

The DP3 will be introduced to the Planning Commission during the initial public review and formally submitted for review and adoption subsequent to comments from the review period being integrated into the plan.

## CPT and HMAC Meetings

The CPT and HMAC will meet frequently throughout the development of the plan. This will provide several opportunities to gain feedback and guidance as well as ensure the most up-to-date data is utilized for the plan. These regular meetings will be used to accomplish the following:

- Share information and participate in workshops to identify hazards.
- Assess risks.
- Review existing inventories of critical facilities and identify new critical facilities.
- Assist in updating and developing new mitigation goals and strategies.
- Provide continuity through the process to ensure that natural hazards vulnerability information and appropriate mitigation strategies are incorporated.

The CPT and HMAC will meet as follows:

- CPT – Biweekly
- HMAC – Monthly
  - Social Equity HMAC Subcommittee – Monthly

All members of the CPT and HMAC will have the opportunity to review the draft plan and support interaction with other stakeholders and community members. **Table 3** provides a summary of CPT and HMAC meetings. This table also identifies which Disaster Mitigation Act (DMA) 2000 requirements the activities satisfy. The table identifies only the formal meetings held during plan development and does not reflect all planning activities conducted by individuals and groups throughout the planning process.

**Table 4. CPT and HMAC Meeting Schedule**

Date	DMA 2000 Requirement	Description of Activity
February 27, 2023	2, 3a, 3b, 3c, 3d, 3e	<u>CPT Meeting #1:</u> Introduce CPT to the DP3 update process, discuss mitigation planning, project organization, roles and responsibilities, data collection, hazards of concern, and schedule of the plan.
March 10, 2024	2, 3a, 3b, 3c, 3d, 3e, 4a	<u>CPT Meeting #2:</u>

Date	DMA 2000 Requirement	Description of Activity
		Review updates to the schedule based on previous feedback, finalize the identification of HMAC, and establish a vision for the 2023 planning process and DP3.
March 24, 2023	2, 3a, 3b, 3c, 3d, 3e, 4a	<u>CPT Meeting #3:</u> The purpose of the meeting was to review the draft Engagement Strategy and to identify key topics for the Hazard Mitigation Advisory Committee kickoff meeting.
April 4, 2023	2, 3a, 3b, 3c, 3d, 3e, 4a	<u>HMAC Meeting #1:</u> Introduce HMAC to the DP3 update process, discuss mitigation planning, project organization, roles and responsibilities, data collection, hazards of concern, and schedule of plan.
April 5, 2023	2, 5c	<u>CPT Meeting #4:</u> The purpose of the meeting was to provide a debrief on the April 4, 2023 HMAC Meeting, discuss the upcoming Public Kickoff Meeting, identify topics for upcoming CPT meetings, and identify the next steps in the planning process.
April 21, 2023	2, 5a, 5c	<u>CPT Meeting #5:</u> The purpose of the meeting was to provide an update on the planning process, review preparations for the upcoming Public Kickoff Meeting, review the 2023 DP3 Update Framework, and identify how it differs from the 2018 DP3.
May 2, 2023	2, 3a, 3b, 4a, 4b	<u>HMAC Meeting #2:</u> The purpose of the meeting was to discuss the status of the project, review the schedule, finalize the hazards of concern, and evaluate a selection of mitigation strategies and actions from the 2018 DP3.
May 5, 2023	2, 4a, 4b, 5a, 5c	<u>CPT Meeting #6:</u> The purpose of the meeting was to provide an update on the planning process, recap the public kickoff meeting, review 2018 DP3 vision and goals, debrief the HMAC meeting, and review the 2018 DP3 mitigation strategies.
May 19, 2023	2, 4a, 4b, 5a	<u>CPT Meeting #7:</u> The purpose of the meeting was to provide an update on the planning process, review revised goals, identify mitigation action categories, and discuss the 2018 DP3 action prioritization criteria.
May 30, 2023	2, 4a, 4b, 5c	<u>HMAC Meeting #3:</u> The purpose of the meeting was to discuss the status of the project, review the schedule, finalize the 2023 vision and goals, and review the social media and outreach products.

Date	DMA 2000 Requirement	Description of Activity
June 2, 2023	2, 5c	<u>CPT Meeting #8:</u> The purpose of the meeting was to provide an update on the planning process, debrief the HMAC meeting, showcase the StoryMap and new outreach materials, provide preliminary survey results, and address preparations for the next Public Workshop at the Sustainability Open House.
June 12, 2023	1b, 2, 3c, 4b	<u>Equity Subcommittee Meeting #1:</u> The purpose of the meeting was to introduce hazard mitigation and the Disaster Preparedness and Planning Project (DP3), review the roles and responsibility of Equity subcommittee, receive feedback from subcommittee members, and distribute resources for future meetings.
June 16, 2023	2, 4b, 5a	<u>CPT Meeting #9:</u> The purpose of the meeting was to provide an update on the planning process, review and approve suggested mitigation categories for the 2023 DP3 update and conduct a working session to review the 2018 DP3 natural systems and public services mitigation strategies.
June 27, 2023	2, 3c, 3d, 3e, 4b	<u>HMAC Meeting #4:</u> The purpose of the meeting was to provide an update on the planning process status, review preliminary 2023 DP3 risk assessment results, and brainstorm mitigation strategies and actions for inclusion in the 2023 DP3.
June 30, 2023	2, 4b, 5a	<u>CPT Meeting #10:</u> The purpose of the meeting was to provide an update on the planning process and conduct a working session to review the 2018 DP3 natural systems and public services mitigation strategies.
July 14, 2023	2, 4b, 5a	<u>CPT Meeting #11:</u> The purpose of the meeting was to provide an update on the planning process, discuss the intent and agenda for the upcoming in-person Mitigation Strategy Workshop, discuss the intent and agenda for the upcoming Equity Subcommittee meeting, and continue the review of the 2018 DP3 Mitigation Strategy.
July 17, 2023	2, 3c, 3d, 3e, 4b	<u>Equity Subcommittee Meeting #2:</u> The purpose of the meeting was to review the preliminary risk assessment results, provide an overview of what a mitigation strategy is, through discussion identify potential problems and solutions which can be turned into mitigation actions, facilitate an open discussion session, and distribute resources for future meetings.

Date	DMA 2000 Requirement	Description of Activity
July 19, 2023	2, 4b, 4c, 5a, 5b	<u>Mitigation Strategy Workshop:</u> The purpose of this workshop is to introduce the purpose and intent of the Mitigation Strategy, review the status of the 2018 DP3 actions and provide updates to the status, and identify any new actions for the 2023 DP3 update.
August 11, 2023	2	<u>CPT Meeting #12:</u> The purpose of the meeting was to provide an update on the planning process, review the results from the in-person Mitigation Strategy Workshop, provide an overview of the Draft 2023 DP3 and receive comments/feedback.
August 14, 2023	2	<u>Equity Subcommittee Meeting #2:</u> The purpose of the meeting was to provide an overview of the Draft 2023 DP3 and receive comments/feedback and facilitate an open discussion session.
August 11 – September 11, 2023	1b, 2	<u>Public Review:</u> Draft HMP posted to public project website; all plan participants were notified and asked to assist with the public outreach including social media. Neighboring communities and stakeholders were notified of the posting as well.
August 22, 2023	2	<u>HMAC Meeting #5:</u> The purpose of the meeting was to provide an update on the planning process, review the results from the in-person Mitigation Strategy Workshop, provide an overview of the Draft 2023 DP3 and receive comments/feedback.
November 30, 2023	1a	Plan adoption by resolution by the Department of Planning

Note: All activities/efforts were conducted during the National Emergency response to the COVID-19 pandemic.

TBD = To be determined.

Each number in column 2 identifies specific DMA 2000 requirements, as follows:

1a – Prerequisite – Adoption by the Local Governing Body

1b – Public Participation

2 – Planning Process – Documentation of the Planning Process

3a – Risk Assessment – Identifying Hazards

3b – Risk Assessment – Profiling Hazard Events

3c – Risk Assessment – Assessing Vulnerability: Identifying Assets

3d – Risk Assessment – Assessing Vulnerability: Estimating Potential Losses

3e – Risk Assessment – Assessing Vulnerability: Analyzing Development Trends

4a – Mitigation Strategy – Local Hazard Mitigation Goals

4b – Mitigation Strategy – Identification and Analysis of Mitigation Measures

4c – Mitigation Strategy – Implementation of Mitigation Measures

5a – Plan Maintenance Procedures – Monitoring, Evaluating, and Updating the Plan

5b – Plan Maintenance Procedures – Implementation through Existing Programs

5c – Plan Maintenance Procedures – Continued Public Involvement

# Engagement Methods

---

## Baltimore Office of Sustainability Website

The Office of Sustainability website hosts the DP3 webpage, which provides status updates as well as background information about the DP3, including the identified hazards, goals and objectives, strategy areas, and methodology. The previous editions of the DP3 are also available for viewing. In addition, the DP3 webpage hosts the DP3 StoryMap.

## StoryMap

A StoryMap will be built by the contract consultant to visualize the DP3 planning process. The GIS-based application offers an interactive narrative to explain the steps of assembling the 2023 DP3, further assisting Baltimore City in engaging with members of the public. The StoryMap is hosted on the Baltimore Office of Sustainability's website on the DP3 webpage. Draft language for inclusion on the StoryMap is available in **Appendix B**.

## Social Media

Social media has been used throughout the DP3 update to engage stakeholders and members of the public and encourage their involvement in this process. This encouragement came in the form of graphics and verbiage notifying the public and stakeholders of upcoming meetings, directing individuals to the DP3 webpage for more information, and providing background information on the DP3 update. Social media outreach includes efforts through Facebook, Twitter, and Instagram accounts operated by multiple Baltimore City governmental departments. Members of the HMAC will be encouraged to post on their social media outlets. The Engagement Toolkit, which includes example key messages, social media posts, and graphics, is available in **Appendix C**.

## Email

The Baltimore Office of Sustainability and the contract consultant will use email to arrange meetings, discuss schedules, and ensure the overall planning process is kept on track. The CPT and HMAC members will also use email to inform community members of upcoming opportunities for involvement in the plan, such as the monthly HMAC meetings, which are open to the public. The Engagement Toolkit containing example emails is available in **Appendix C**.

## Surveys

Multiple surveys will be deployed throughout the planning process to assist with collecting stakeholder and community feedback on the DP3 content. The following surveys will be deployed.

- **Public:** This survey will identify the community's exposure to hazards and the location of hazards within the community, which the City may not have been aware of. The summarized results of this survey may be found in **Appendix D**.  
<https://www.surveymonkey.com/r/DP3PublicSurvey>
- **Stakeholder:** This survey will engage stakeholders (i.e., utilities, transportation, business/commerce, emergency services, health/medical) to collect input in terms of capabilities, vulnerabilities, and potential projects. The summarized results of this survey may be found in **Appendix D**.  
<https://www.surveymonkey.com/r/DP3StakeholderSurvey>
- **Neighboring Jurisdictions:** Neighboring communities will be contacted due to hazard similarities. Effects of natural disasters may be similar in surrounding jurisdictions, and involving neighboring communities in the planning process could reap mutual benefits and assist in regional coordination of disaster mitigation planning.  
<https://www.surveymonkey.com/r/DP3NeighborSurvey>

[In addition to outreach via email and social media, hard copies of surveys were provided at the following locations.](#)

- **Harlem Gardens:** a senior center in the Harlem Park neighborhood in West Baltimore
- **Bentalou Recreation Center:** in the Lexington neighborhood in West Baltimore
- **Edmondson Commons:** a senior center in the Harlem Park neighborhood in West Baltimore
- **Harvey Johnson Towers:** an apartment complex in the Sandtown Winchester neighborhood in West Baltimore
- **Plantation Park Heights:** an urban farm in the Park Heights neighborhood in Northwest Baltimore
- **MonteVerde Apartments:** an apartment complex in the Park Circle neighborhood in Northwest Baltimore
- **Oliver Senior Center-Home:** a senior center, as well as an additional drop-off in its associated community center, in the Broadway East neighborhood in East Baltimore
- **Herring Run Branch of the Enoch Pratt Free Library:** in the Belair Edison neighborhood in East Baltimore
- **Cherry Hill Branch of the Enoch Pratt Free Library:** in South Baltimore

Other engagement included:

- Posters for the DP3 Plan Survey at the West Baltimore Marc Station in Midtown Edmondson.
- Tabled at the JFX Farmers Market in Downtown Baltimore
- Tabled at the Cherry Hill Farmers Market in the Cherry Hill neighborhood, in South Baltimore
- Tabled at the Onyx Farmers' & Artisans' Market in Old Goucher neighborhood in Central Baltimore
- Tabled at the Plantation Park Heights Food Giveaway in the Park Heights neighborhood, Northwest Baltimore, during a Morgan State event at the farm and during their Senior Volunteer day.
- Tabled at the Liberty Grace Church of God GROW Center in Ashburton in West Baltimore.

## Group Presentations

Members of advisory teams conducted targeted outreach to various special interest groups to increase awareness of the DP3 planning process. These engagement points included the following:

- **LEPC:** Provide updates on DP3 update process, inclusion of man-made hazards, and opportunity to participate through HMAC.
- **Waste Working Group:** Focus on how to better integrate and expand waste management and waste reduction goals with hazard mitigation planning. Invite them to join the HMP update process and collaborate on enhancing risk reduction strategies for our solid waste system.

## Community Rating System Considerations

---

Baltimore City participates in the CRS, a voluntary incentive program that recognizes and encourages floodplain management practices that exceed the minimum requirements of the National Flood Insurance Program (NFIP). Participating in the program provides insurance premium discounts to policyholders in the City. The below considerations have the potential to earn the City additional points in the CRS program.

- Ensure Floodplain Management and Planning Department (land use) are actively engaged in the planning process.
- Ensure a quorum during HMAC meetings.
- Formally recognize the HMAC by the appropriate governing body.
- Document the planning process.
- Encourage public and community participation in the HMAC.
- Convene members for each key step in the planning process.
- Make meetings open to the public and post meeting schedules publicly.

- Hold a public information meeting within two months of the planning process beginning.
- Hold a public review meeting.
- Explain the planning process on the Baltimore Office of Sustainability website.
- Provide a public webcast that explains the planning process and solicits input.
- Distribute a questionnaire asking the public for information on their natural hazards, problems, and viable solutions.
- Utilize outreach activities to explain the planning effort and seek comment; activities may include brochures, mailers, information booths, presentations to civic organizations, etc.
- Promote and document plan integration.
- Coordinate with organizations outside the City's governance structure.
- Include an assessment of Special Flood Hazard Areas (SFHA), repetitive loss areas, areas known to flood but not mapped in the SFHA, and surface flooding areas identified in other studies.
- Inventory levees and dams.

## Integration with Existing and Ongoing Efforts

---

The City of Baltimore DP3 strives to use the best available technical information, plans, studies, and reports throughout the plan update process to support hazard profiling; risk and vulnerability assessment; review and evaluation of mitigation capabilities; and identification, development, and prioritization of City mitigation strategies.

Effective mitigation is achieved when hazard awareness and risk management approaches and strategies become an integral part of public activities and decision-making. Within the City of Baltimore, there are many existing plans and programs that support hazard risk management, and thus it is critical that this hazard mitigation plan integrate and coordinate with and complement those mechanisms.

The consultant, CPT, HMAc, and numerous stakeholders involved in the planning effort will work collaboratively to identify plans, reports, and other technical information. Relevant documents, including plans, reports, and ordinances to be integrated, include:

- Existing local and regional capabilities
- Needs and opportunities to develop or enhance capabilities, which may be identified within the mitigation strategies
- Mitigation-related goals or objectives considered in the review and update of the overall DP3 goals and objectives
- Proposed, in-progress, or potential mitigation projects, actions, and initiatives to be incorporated into the updated mitigation strategy

The following local regulations, codes, ordinances, and plans will be reviewed during this process to develop mitigation planning goals, objectives, and strategies that are

consistent across local and regional planning and regulatory mechanisms to accomplish complementary and mutually supportive strategies:

- Master/Comprehensive Plans
- Building Codes
- Zoning and Subdivision Ordinances
- NFIP Flood Damage Prevention Ordinances
- Site Plan Requirements
- Stormwater Management Plans
- Emergency Management and Response Plans
- Land Use and Open Space Plans
- Capital Plans
- Climate Adaptation Plan (2012)
- Comprehensive Master Plan (2006)
- Solid Waste Plan (2013)

## Continued Engagement

---

The City of Baltimore is committed to the continued involvement of the public in the hazard mitigation process. This DP3 update will be made available for review on the DP3 public website. The Office of Sustainability shall be responsible for receiving, tracking, and filing public comments regarding this DP3 update.

The public will have an opportunity to comment on the DP3 update as a part of the annual mitigation planning evaluation process and the next five-year mitigation plan update. The DP3 Coordinator is responsible for coordinating the plan evaluation portion of the meeting, soliciting feedback, collecting and reviewing the comments, and ensuring their incorporation in the five-year plan update, as appropriate. Members of the CPT will assist the DP3 Coordinator.

Additional meetings may also be held as deemed necessary. The purpose of these meetings would be to provide the public with an opportunity to express concerns, opinions, and ideas about the DP3. After completion of this DP3 update, implementation and ongoing maintenance will continue to be a function of the CPT. The CPT will review the plan and accept public comment as part of an annual review and as part of five-year mitigation plan updates.

A notice regarding annual updates of the plan will be publicized annually after the DP3 Committee's annual evaluation and posted on the public website.

Baltimore City has identified a DP3 Coordinator who is responsible for receiving, tracking, and filing public comments regarding this DP3 update:

Contact Name	Mailing Address	Email Address	Phone Number
<b>Aubrey Germ, Climate and Resilience Planner</b>	417 E Fayette St. 8 <sup>th</sup> Floor Baltimore, MD 21202	aubrey.germ@baltimorecity.gov	410-396-5917

## Appendix A: Hazard Mitigation Advisory Committee Members

---

**Table 5. HMAC Members**

Name	Title	Sector/Area of Expertise
<b>Baltimore City Health Department (BCHD)</b>		
Kim Eshleman	Director, Office of Public Health Preparedness and Response (OPHPR)	Health and Social Services
Alice Huang	Acting Assistant Commissioner, Community Services	Health and Social Services, Equity, and Community Advocacy
Kay Webster	Deputy Director, OPHPR	Health and Social Services and Emergency Management
<b>Baltimore City Recreation and Parks (BCRP)</b>		
Dan Coy	Chief of Forestry	Natural and Cultural Resources
Kendra Moore	Recreation Manager South District	Natural and Cultural Resources
<b>DPW</b>		
Yolanda Cason	Operations Manager I, Solid Waste	Infrastructure
Toya Sykes-Coates	Chief of Solid Waste Administration	Infrastructure
Kimberly Grove	Chief, Office of Compliance and Research	Infrastructure
Yvonne Moore-Jackson	Bureau Head, Solid Waste	Infrastructure
Yosef Kebede	Bureau Head, Water and Wastewater	Infrastructure
Antoine Smith	Emergency Response and Preparedness	Infrastructure and Emergency Management
Theresa Wilson	Operations Officer III	Infrastructure
<b>Baltimore Gas and Electric (BGE)</b>		
Danielle Gooden	Governmental and External Affairs Manager	Private Sector, Infrastructure, and Energy
Matt Piechocki	Senior Emergency Preparedness Administrator	Private Sector, Infrastructure, Energy, and Emergency Management
<b>BoS</b>		
Bruna Attila	Coastal Resources Planner	Land Use and Development and Natural and Cultural Resources

Name	Title	Sector/Area of Expertise
Joanna Birch	Floodplain Manager	Land Use and Development and Floodplain Management
Aubrey Germ	Climate and Resilience Planner	Land Use and Development, Natural and Cultural Resources, Climate Change, and Sustainability
Amy Gilder-Busatti	Sustainability Manager	Land Use and Development, Natural and Cultural Resources, Climate Change, and Sustainability
Ava Richardson	Director	Land Use and Development, Natural and Cultural Resources, Climate Change, and Sustainability
Valerie Rupp	Climate and Resilience Program Manager	Land Use and Development, Natural and Cultural Resources, Climate Change, and Sustainability
<b>Department of General Services (DGS)</b>		
Marwan Alkarajat	Chief, Capital Projects and Energy Division	Infrastructure and Energy
Herman Guadalupe	Engineer Supervisor	Infrastructure
Christopher Hepler	Construction Project Supervisor II	Infrastructure
Julia Kalloz	Energy Division Chief	Infrastructure and Energy
<b>DOP</b>		
Lindsay Adams	Food Resilience Planner	Equity and Food Resilience
Nicholas O'Gara	GIS Analyst	Land Use and Development and GIS
Kyle Leggs	City Planning Supervisor	Land Use and Development
Stacy Montgomery	Historic Preservation Planner Supervisor, Commission for Historical and Architectural Preservation (CHAP)	Land Use and Development and Historic Preservation
Lauren Schiszik	Historic Preservation Planner, CHAP	Land Use and Development and Historic Preservation
Jamie Williams	City Planner Supervisor	Land Use and Development and GIS
<b>DOT</b>		
Tavon Braxton	Deputy Director of Operations	Infrastructure and Transportation
William Ethridge	City Planner II	Infrastructure and Transportation
<b>Environmental Control Board (ECB)</b>		
Natasha Neale	Community Program Liaison	Environmental Hazards

Name	Title	Sector/Area of Expertise
Brandi Welsh	Community Program Liaison	Environmental Hazards
<b>Maryland Department of Emergency Management (MDEM)</b>		
Bridget Cantwell	Hazard Mitigation Planner	Emergency Management
Aliyah Russell	Project Officer	Emergency Management
<b>Mayor's Office</b>		
Angela McCauley	Emergency Services Manager (Homeless Services)	Equity and Community Advocacy
Anthony Scott	Associate Director of Project Management	Economic Development
Candisse Bennett-Parker	Director (Correspondence and Constituent Services)	Equity and Community Advocacy
Graham Young	Project Manager (Infrastructure Development)	Infrastructure
Justin Elszasz	Chief Data Officer	Cyber
Masuma Islam Lonczak	Deputy Director (Immigrant Affairs)	Equity and Community Advocacy
<b>OEM</b>		
Michelle Smith	Preparedness Section Chief	Emergency Management
Elise Whiteford	Planning Section Chief	Emergency Management
<b>Waterfront Partnership of Baltimore</b>		
Allison Blood	Healthy Harbor Program Manager	Non-profit, Economic Development, Land Use and Development, Housing, Infrastructure, Natural and Cultural Resources, Equity, and Community Advocacy
<b>Baltimore City Department of Housing and Community Development (DHCD)</b>		
Eric Booker	Deputy Commissioner, Housing Code Enforcement and Emergency Operations	Housing

## Appendix B: StoryMap Narrative

---

## THE CONTENT BELOW IS FOR INCLUSION ON THE BALTIMORE OFFICE OF SUSTAINABILITY WEBSITE

# Welcome

---

The DP3 is a hazard mitigation plan (HMP) documenting the City's efforts to reduce risk from natural and man-made hazards, such as flooding or cyber terrorism. Risk is determined by the hazard's impact to community assets, such as the population, built and natural environments, and the economy. The goal of the project is to minimize the impacts and damage to people, property, the environment, and the economy. During this planning project, the City, local leaders, and community members will work in tandem to identify risks, assess capabilities, and formulate a strategy to reduce disaster vulnerability.

A HMP is required by federal agencies for communities to be eligible for certain types of mitigation funding to reduce hazard risk. This funding, in addition to other funding sources, supports the implementation of the long-term mitigation strategy developed during the DP3's planning process.

Public and stakeholder participation and feedback is a vital part of the DP3's planning process. A StoryMap has been developed for the update process to provide project updates and resources throughout the planning process. Please visit the StoryMap to access surveys, meeting information, plan drafts, maps, and additional information. Please check regularly for information on upcoming opportunities to engage in the planning process. **INSERT STORYMAP LINK**

If you would like to contact the project team, please use the following contact information:

- **General Information:** Learn more about hazard mitigation, the planning process, and the schedule.
- **Participation and Engagement:** Learn about ways to participate in the development of the plan. Complete surveys and find information for upcoming meetings.
- **Draft Plan for Review:** Review and provide comments on the drafts of the plan.
- **Resources:** Access additional resources for grant information.

## General Information

---

### What Is Hazard Mitigation?

Natural hazards have the potential to cause loss of life, property loss, environmental degradation, economic hardship, and threats to public health and safety. While an important aspect of community resilience deals with disaster recovery (i.e., those actions that a community must take to repair damages and make itself whole in the wake of a natural disaster), an equally important aspect of community resilience involves hazard mitigation.

Hazard mitigation consists of sustained actions taken to lessen the impact of future disasters; it is an ongoing process that occurs before, during, and after disasters. The Baltimore City Disaster Preparedness and Planning Project (DP3) is a hazard mitigation plan (HMP) documenting the City's efforts to reduce risk from natural and man-made hazards, such as flooding or cyber terrorism. Hazard mitigation actions taken in advance of a hazard event are essential to breaking the typical disaster cycle of damage, reconstruction, and repeated damage. With careful selection, hazard mitigation actions can be a long-term, cost-effective means of reducing the risk of loss and help create a more disaster-resistant and resilient community.

If you would like to contact the project team, please use the following contact information:

Project Contact:  
Aubrey Germ  
[aubrey.germ@baltimorecity.gov](mailto:aubrey.germ@baltimorecity.gov)

### What Is a Hazard Mitigation Plan?

The DP3 is Baltimore City's hazard mitigation. A hazard mitigation plan is a well-organized and well-documented evaluation of the hazards that a community is susceptible to and the extent to which these events will occur. Hazard mitigation plans identify an area's vulnerability to the effects of the hazards as well as the goals, objectives, and actions required for minimizing future loss of life, injury, property damage, and economic disruption because of hazard events.

Previous versions of the DP3 are linked below:

- [2013 DP3](#)
  - [2017 DP3 Status Report](#)
  - [2018 DP3 State Report](#)
- [2018 DP3](#)

- [2021 DP3 Status Report](#)

## Purpose and Need for the DP3

A hazard mitigation plan is developed before a disaster strikes. The plan identifies community policies, actions, and tools for long-term implementation to reduce risk and potential for future losses. The plan is adopted, implemented, and maintained on an ongoing basis to ensure the plan remains current and addresses the most pressing concerns of the community.

Under the federal Disaster Mitigation Act of 2000 (DMA 2000), communities that do not have a FEMA-approved hazard mitigation plan in place are no longer eligible for FEMA project grant monies under long-standing programs such as the Flood Mitigation Assistance Program (FMA), Hazard Mitigation Grant Program (HMGP), and the Building Resilience Infrastructure and Communities (BRIC) program.

## Outcomes: Identifying Mitigation Projects and Other Benefits

A major focus of this plan will be to identify effective mitigation projects and realistic implementation strategies, including identifying potential funding streams. This includes projects that may be eligible for federal funding through FEMA grants or other federal sources as well as projects that may not qualify for federal funding but are still important to a community. This planning process will help lay the groundwork for implementation of both federally fundable and non-federally fundable mitigation projects.

In addition to identifying effective mitigation projects, a plan will also assist in the following ways:

- Increased understanding of hazards and risk the community faces
- Eligibility for federal funds for pre-disaster mitigation planning under DMA 2000
- Developing partnerships that support planning and mitigation efforts and may offer potential financial savings, including reduced flood insurance premiums, broader resources for funding of mitigation projects, and enhanced benefit-cost ratios
- Enhanced coordination of hazard mitigation with comprehensive planning and zoning
- Development of more sustainable and disaster-resistant communities
- Reduced long-term impacts and damages to human health and structures and reduced repair costs

Proactive mitigation leads to the development of sustainable, cost-effective projects. In contrast, reactive mitigation tends to yield “quick fix” alternatives that may cost too much and accomplish too little. Proactive mitigation is also far more cost-effective

than paying to clean up and rebuild after disasters happen. Danger to the population and damage to property can be reduced if the region evaluates where and how disasters may occur and takes steps to reduce those risks.

## Process Overview

The planning process will follow the following eight phases through to project implementation. This includes five key steps:

- **Organize the Resources:** A Core Planning Team and Hazard Mitigation Advisory Committee will guide the development of the DP3. The Core Planning Team is composed of discipline leads for the City. The HMAc is composed of stakeholders and community members.
- **Identify Hazards and Conduct Risk Assessment:** The CPT and HMAc will identify the hazards that pose the greatest risk to the City and present the greatest concern to community members. Vulnerabilities associated with these hazards will inform the risk assessment and identify what level of risk the hazards pose to the City.
- **Assess Capabilities:** The planning teams will identify local, State, and Federal capabilities that support hazard mitigation and help reduce risk. This includes staff capacity and capability, funding, regulations and policies, etc.
- **Develop Mitigation Strategy:** The mitigation strategy will be developed in collaboration with City representatives, stakeholders, and community members. It includes the shared goals and objectives that have been established for the DP3. The strategy serves as a roadmap for identifying and prioritizing actions and projects to undertake to address the risk identified in the risk assessment.
- **Adopt and Implement the Plan:** The plan will be adopted by the City and implemented. During implementation, the City will continuously monitor, evaluate, and update the plan to ensure it remains current and progress towards reducing risk can be tracked.

While natural disasters cannot be prevented from occurring, the continued implementation of our hazard mitigation plan over the long-term will gradually but steadily lessen the impacts associated with hazard events in our region.

## Schedule

Key milestones in the planning process are available below. Please note dates may change to accommodate the actual implementation of the project. Keep checking back for additional updates or changes in the schedule.

**Table 7. Project Milestones**

Milestone	Tentative Date
Public Kickoff Workshop	May 2023
Hazard Profiles Posted for Public Review	June 2023
Public Risk Assessment Workshop	June 2023
Public Mitigation Action Workshop	July 2023
Draft available for Review by the Public, Baltimore City Planning Commission, and Maryland Department of Emergency Management	July 2023
Public Review Meeting	August 2023
Final Draft Submitted to FEMA Region III	September 2023
Final DP3 Adopted by City and Approved by FEMA	December 2023

## Participation and Engagement

Community and stakeholder participation is a vital part of the hazard mitigation planning process. The DP3 is a community-focused plan that prioritizes addressing community members' concerns and needs as it relates to natural and man-made hazards and disasters. Keep checking the engagement page regularly for information on planning progress, to take our survey, and to review and comment on the draft plan.

### Meetings

- Public Kickoff Meeting – May 2023
- Risk Assessment Meeting – June 2023
- Mitigation Strategy Meeting – July 2023
- Public Review Meeting – July 2023

Monthly Hazard Mitigation Advisory Committee meetings are open to the public.

### Surveys

- **Public Survey:** The City of Baltimore developed a Public Preparedness Survey to assist in providing the public with an outlet to contribute to the DP3 update. Thank you for participating in this important initiative by providing us with your anonymous survey contribution. Please visit the survey at: <https://www.surveymonkey.com/r/DP3PublicSurvey>
- **Stakeholder Survey:** As part of the DP3 update planning process, we are engaging stakeholders and are looking for your assistance (i.e., utilities,

transportation, business/commerce, emergency services, health/medical). Please consider taking the stakeholder survey to provide input about capabilities, vulnerabilities, and potential projects. Please visit the survey at: <https://www.surveymonkey.com/r/DP3StakeholderSurvey>

- **Neighboring Jurisdiction Survey:** As part of the DP3 update planning process, we are engaging our neighboring communities. The effects of natural disasters may be similar in your jurisdiction, and your involvement in this process could reap mutual benefits. By participating in the review of this plan, you will be engaging in the regional coordination of disaster mitigation planning. Please visit the survey at: <https://www.surveymonkey.com/r/DP3NeighborSurvey>
- **Problem Areas Survey:** We invite the public and community members to identify problem areas in the City. These may be areas that experience frequent flooding during storm events, areas where sinkholes have occurred, or areas where power was loss during a storm. Please visit the survey at: <https://arcg.is/1CPynH0>

## Draft Plan for Review

---

The draft City of Baltimore Disaster Preparedness and Planning Project (DP3) will be available for public review in July 2023. Please check back for updates.

## Emails

---

### Upcoming Meetings

Good Morning/Afternoon,

The City of Baltimore is updating its Disaster Preparedness and Planning Project (DP3), a hazard mitigation plan. You are invited to participate in the upcoming \_\_\_\_ meeting on \_\_\_\_\_. As a part of this plan update, the public is welcomed and encouraged to participate, as residents can provide incredible insight to ongoing hazards in their community. We hope to see you at the \_\_\_\_ meeting on \_\_\_\_\_.

Sincerely,

# Take the Survey

## Public Survey

Good Morning/Afternoon,

The City of Baltimore is updating its Disaster Preparedness and Planning Project (DP3), a hazard mitigation plan. As a resident and/or a worker within the City of Baltimore, you play a key role in understanding the natural hazards within the City. We would like to understand your experiences with natural and human-made hazards and incorporate this information into the 2023 DP3 update. To do so, please consider taking our Public Survey which can found through this link: <https://www.surveymonkey.com/r/DP3PublicSurvey>

Sincerely,

## Neighbor Survey

Good Morning/Afternoon,

The City of Baltimore is updating its Disaster Preparedness and Planning Project (DP3), a hazard mitigation plan. As a municipality which borders the City of Baltimore, our communities experience similar hazards. Please consider taking our Neighboring Community Survey, which will assist in the regional coordination of disaster mitigation planning. The survey can be found through this link: <https://www.surveymonkey.com/r/DP3NeighborSurvey>

Sincerely,

## Stakeholder Survey

Good Morning/Afternoon,

The City of Baltimore is updating its Disaster Preparedness and Planning Project (DP3), a hazard mitigation plan. As an entity operating in the City of Baltimore, your organization plays a key role as a stakeholder in this DP3 update. Please consider taking our Stakeholder Survey, which will assist in collecting input regarding capabilities, vulnerabilities, and potential projects. The survey can be found through this link: <https://www.surveymonkey.com/r/DP3StakeholderSurvey>

Sincerely,

## BALTIMORE CITY DISASTER PREPAREDNESS AND PLANNING PROJECT (DP3)

2023 Update

### WHAT IS THE DP3?

The DP3 is a hazard mitigation plan, which includes the review and incorporation of existing plans and programs that can support or enhance hazard mitigation. The plan must assess the risk to natural hazards that may impact the planning area and identify and prioritize mitigation actions that can be taken. The HMP must also include a strategy for maintaining the plan, which must be updated every 5 years. FEMA regulations require that the public must be engaged in all phases of the plan's development.

### WHAT ARE THE BENEFITS OF THE DP3?

Mitigation planning will help the City prepare for disasters, before they happen, to reduce impacts when a disaster occurs. Benefits include:

- Identifying actions for risk reduction that are agreed upon by stakeholders and the public,
- Focusing resources on the greatest risks and vulnerabilities,
- Building partnerships by involving citizens, organizations, and businesses,
- Increasing education and awareness of threats and hazards, as well as their risks,
- Communicating priorities to state and federal officials, and
- Aligning risk reduction with other community objectives.

### LIVE OR WORK IN BALTIMORE CITY? TAKE OUR SURVEY!

<https://www.surveymonkey.com/r/SussexHMPPublic>

-or-

scan the QR code to complete the survey

### FAQs

**What is mitigation?** Any sustained action taken to reduce/ eliminate long-term risk to life and property from a hazard event.

**How can you reduce/eliminate risk?** Identify mitigation actions/ projects/activities or processes that can include 1) Local plans and regulations; 2) Structure and infrastructure projects; 3) Natural systems protection; 4) Education and awareness programs.

**What grant funding is available?** FEMA Hazard Mitigation Assistance grant funding is available with a FEMA-approved Hazard Mitigation Plan (annual and post-disaster opportunities).

**How can I support the plan?** Take the public survey! This will help us obtain input and get a better understanding of public preparedness for hazard events.

**Where can I see the 2023 plan?** Sections of the draft plan will be available August 2023 for download, review and comment on the Baltimore City DP3 website at: <https://www.sussex.nj.us/cn/webpage.cfm?tpid=11091>

### IF YOU HAVE QUESTIONS, CONTACT:

Office of Sustainability  
[aubrey.germ@baltimorecity.gov](mailto:aubrey.germ@baltimorecity.gov)

# Key Points About the DP3 Update

---

- The City of Baltimore's Department of Planning, Office of Sustainability is leading the 2023 Disaster Preparedness and Planning Project (DP3) update.
- The City of Baltimore's Disaster Preparedness and Planning Project (DP3) is a Hazard Mitigation Plan; the 2023 update is the second update to the plan (first adopted in 2013, then again in 2018).
- The Disaster Mitigation Act of 2000 specifically addresses mitigation planning and requires state and local governments to prepare multi-hazard mitigation plans as a precondition for receiving FEMA mitigation project grants.
- A hazard mitigation plan:
  - Provides an overview of the impacts of natural hazards on communities
  - Provides a roadmap to reducing the impact of these hazards
  - Requires a FEMA-approved natural hazard mitigation plan to be eligible for pre-disaster mitigation funding
  - Requires five-year updates to maintain eligibility
- The new April 2023 FEMA guidelines require:
  - Mitigation actions for every hazard of concern
  - Discussion on future impacts on hazards from climate change
  - Integration of the HMP into local plans and day-to-day operations
  - Discussion on socially vulnerable populations and how hazards can impact them
- Having an HMP helps:
  - Increase education and awareness on natural hazards and community vulnerabilities
  - Build partnerships with government, organizations, businesses, and the public to reduce risk
  - Identify long-term strategies for risk reduction with input from stakeholders and the public
  - Identify cost-effective mitigation actions that focus resources on the greatest risks areas
  - Integrate planning efforts and risk reduction with other community planning efforts
  - Align risk reduction with other county or municipal objectives
  - Communicate priorities to potential funders
  - Access FEMA funds – by participating in and adopting the HMP, the City will remain eligible for FEMA pre- and post-disaster mitigation funding (HMGP, FMA, BRIC, and PDM)

## Appendix D: Summary Survey Results

# Q1 In the last five years, which of the following natural hazard events have you experienced in Baltimore City? Check all that apply.

Answered: 141 Skipped: 16

ANSWER CHOICES	RESPONSES	
Flooding (Flooding and Dam Failure)	34.75%	49
Coastal Hazards (Tropical Storms and Hurricanes, Sea Level Rise, Storm Surge/Coastal Inundation, Tsunami)	15.60%	22
Precipitation Variability (Thunderstorms with Lightning and Hail, Winter Storms, Nor'easters, Drought)	71.63%	101
Wind (Associated with Storms, Derechos, Tornadoes)	57.45%	81
Extreme Heat (Heat and Poor Outdoor Air Quality)	75.18%	106
Land (Earthquakes, Landslides, Karst/Sinkholes)	8.51%	12
Other Natural Hazard(s) (please specify)	5.67%	8
Total Respondents: 141		

#	OTHER NATURAL HAZARD(S) (PLEASE SPECIFY)	DATE
1	Cholera	6/28/2023 2:19 AM
2	Mosquitos - More standing water/land shifting beneath structures	6/28/2023 2:06 AM
3	(Left Blank)	6/13/2023 1:37 AM
4	Wildfire / manmade impacts on air quality	6/10/2023 7:12 PM
5	Microburst	6/3/2023 8:55 AM
6	I live in Howard Park. One of the threats our community experiences are old growth Trees that	6/1/2023 1:09 PM

## Baltimore City DP3 Update - Public Survey

tower over our homes. One day they will come down. Most homeowners are aware of the threats, but do not have the funds have them taken down, or at least trim them

7	Power outages	5/15/2023 6:03 PM
8	trees falling	4/21/2023 2:51 PM

## Q2 How concerned are you about the following natural hazards in Baltimore City? Please check one for each hazard.

Answered: 155 Skipped: 2

# Baltimore City DP3 Update - Public Survey

	NOT CONCERNED	SOMEWHAT CONCERNED	CONCERNED	VERY CONCERNED	EXTREMELY CONCERNED	TOTAL RESPONDENTS
Flooding (Flooding and Dam Failure)	16.45% 25	24.34% 37	21.71% 33	24.34% 37	13.82% 21	152
Coastal Hazards (Tropical Storms and Hurricanes, Sea Level Rise, Storm Surge/Coastal Inundation, Tsunami)	24.83% 37	26.17% 39	15.44% 23	20.81% 31	13.42% 20	149
Precipitation Variability (Thunderstorms with Lightning and Hail, Winter Storms, Nor'easters, Drought)	9.27% 14	17.22% 26	29.80% 45	25.17% 38	19.87% 30	151
Wind (Associated with Storms; Derechos; Tornados)	12.93% 19	19.73% 29	28.57% 42	27.89% 41	11.56% 17	147
Extreme Heat (Heat and Poor Outdoor Air Quality)	9.15% 14	8.50% 13	18.30% 28	35.29% 54	29.41% 45	153
Land (Earthquakes, Landslides, Karst/Sinkholes)	44.76% 64	25.17% 36	13.29% 19	11.89% 17	6.29% 9	143

#	OTHER NATURAL HAZARD(S) (PLEASE SPECIFY)	DATE
1	Earthquakes need to be address annually	6/10/2023 7:12 PM
2	Not Sure	6/8/2023 3:45 PM
3	What do you do when your home health crises? (Upon asking the respondent to clarify, they stated that COVID was a concern in their home) + Homeless People	6/8/2023 2:47 PM
4	Climate Change	6/8/2023 2:32 PM
5	sinkholes happen often in Baltimore	5/5/2023 3:40 PM
6	Another pandemic	4/26/2023 9:46 AM
7	overheating due to lack of trees	4/21/2023 2:51 PM

### Q3 In the last five years, which of the following manmade hazard events have you experienced in Baltimore City? Check all that apply.

Answered: 104 Skipped: 53

ANSWER CHOICES		RESPONSES	
Cyber-Attack (An attack meant to damage or destroy a computer network or system)		56.73%	59
Terrorism (Unlawful violence or threat of unlawful violence to cause fear)		13.46%	14
Active Shooter (An individual actively engaged in harming or attempting to harm people in a confined populated area; does not include gun violence)		25.00%	26
Civil Unrest (Disruptive demonstrations or assemblies)		42.31%	44
Environmental Disaster (Catastrophic events caused by humans that harm the environment such as oil spills, chemical spills, and nuclear incidents)		37.50%	39
Other Manmade Hazard(s) (please specify)		22.12%	23
Total Respondents: 104			

#	OTHER MANMADE HAZARD(S) (PLEASE SPECIFY)	DATE
1	Worn down buses	6/28/2023 2:55 AM
2	None (survey wouldn't allow blank)	6/25/2023 12:13 PM
3	Extremely poor air quality, poor water quality	6/18/2023 11:54 AM

49	Community Recreation Center, schools, childcare facilities in West Baltimore (Harlem Park - Sandtown-Winchester area for part of the area is in low land (valley). Fire Department being without electricity or backup power. Engine 8 - Truck 10 West Baltimore Fire Station, 1500 West Lafayette Avenue. Harlem Park Elementary/Middle School, Harlem Park Recreation Center, Head Start Program, Apartment Building 1500 W. Edmondson Avenue, stores and businesses located in the are of Edmondson Avenue including residential homes. (parts of Calhoun, Calhoun, and Carrollton Avenue.	5/16/2023 11:52 AM
50	Power lines should be underground. We need after-school and summer programs to decrease juvenile crime. A concerted effort between the city, schools, and churches is desperately needed to combat the ridiculous amount of litter in Baltimore.	5/16/2023 8:01 AM
51	I see the lack of the work force in all of these areas as a huge weakness. Qualified personnel will be needed first in my opinion. In m area are huge, old trees that are at risk of falling and have fallen - Howard Park area.	5/16/2023 12:25 AM
52	East Balt- Walther Ave, Hamilton, Harford, Belair Rds: poor road repair has led to increased sinkholes in past 5yrs; lack of Code Enforcement response to address hoarding/unkept yards that have been reported. Poor to no response from City Tree services to cut dead trees, overgrown trees into power lines has led to increased power outages in the area. Poor cell phone tower coverage has led to increased internet reported outages in East Baltimore in past 3 years.	5/15/2023 10:48 PM
53	N/a	5/11/2023 9:45 AM

## Baltimore City DP3 Update - Public Survey

54	Bad cracked streets with large pot holes by e redwood st	5/8/2023 4:38 PM
55	possible lack of backup power: Waverly Library, 400 E. 33rd St 21218; New Waverly United Methodist Church, 642 E 33rd St 21218; St. Moses Church, 400 E 31st St 21218; Waverly Y, 900 E 33rd St 21218; Sts Philips and James, 2801 N Charles St, 21218; CVS, 3200 St Paul St, 21218; University Baptist Church, 3501 N Charles St, 21218; Cathedral Church of the Incarnation, 4 E University Pkwy, 21218	5/7/2023 8:40 PM
56	Im not sure	5/7/2023 7:23 PM
57	In the alley behind Newport Avenue, between Roland Hts & Old Cold Spring, there are trees that have grown over time that put the utility lines (power, telecom) at risk. It's hard to pinpoint ownership of the properties with the trees, plus most of the trees are in the alley behind sheds facing the alley behind Falls Rd. Sometimes it's been challenging getting correct information or just getting anything from any utility company out to cut the tree branches back. The Baltimore 311 app has only 3 options for the damage mitigation: Fallen Limb, Tree Inspection, Tree Down. Maybe there should be an opening for Utility Lines At Risk, & for the City to coordinate evaluation & mitigation to reduce the risk of downed utility lines. Or if the City can't help with this then create some sort of identifier for lines so residents can easily know who to call.	5/6/2023 11:02 AM
58	N/A (thank goodness)	5/6/2023 9:54 AM
59	Between E. Belvedere to Hillen Rd, extending to E. Northern Pkwy is very flood prone. Mainly due to abundance of leaves and trash that accumulate in the sewer and gutter run off	5/5/2023 3:49 PM
60	We have a lot of street flooding because the storm water system was not designed for large rain events and the paving over of everything - no semipermeable surfaces, lack of green space	5/4/2023 11:13 AM
61	The water treatment plants and the power grid throughout the city have demonstrated a lack of robustness several times over the last few years	5/3/2023 8:22 PM
62	1/2 our neighborhood floods. Rock Hill, Hineline, Coolidge, the lower part of Haverhill all flood. 311 doesn't help. AT ALL. Too many community groups fight with each other they do nothing to help us when it floods. They don't do anything to prevent the flooding like the old group did. You can only get help after the floods if your friends with Ms. Porter and her group.	5/3/2023 2:45 PM
63	Unknown	5/3/2023 2:25 PM
64	I work in a flood zone in Carroll-Camden (1220 block of Wicomico Street). We are insulated as a raised building but the street floods often, especially during large rain events. This is true of the length of Wicomico Street from 1100 - 1600.	5/3/2023 2:15 PM
65	N/A	5/2/2023 5:59 PM
66	The inner harbor promenade has flooding even on dry days in lower areas. The Stadium Square development area floods during heavy rains. Franklinton Road experienced extreme flash flooding and is still vulnerable. The buried Harris Creek streambed floods in McElderry Park. In extreme heat the Rec Centers and schools should all be cooling sites but are not. There is a 10 degree difference between Baltimore's rich and poor neighborhoods which could kill in extreme heat	5/2/2023 7:37 AM
67	N/A	5/1/2023 7:56 PM
68	21217 ZIP Code	4/28/2023 8:06 PM

22	No, I do not	6/8/2023 1:48 PM
23	No	6/8/2023 1:45 PM
24	Everyone needs to be aware and plan before a disaster happens! What is Hazard Mitigation? What are some examples? How can this impact Baltimore City? If Any, What resources are there?	6/7/2023 12:33 PM
25	No	6/7/2023 9:25 AM

## Baltimore City DP3 Update - Public Survey

26	no	6/5/2023 3:33 PM
27	I am not aware of any emergency shelter in Northeast Baltimore city!	6/4/2023 10:45 PM
28	Baltimore will suffer	6/3/2023 12:02 PM
29	No.	6/3/2023 9:11 AM
30	Cell phone towers.	6/2/2023 7:16 PM
31	no	6/2/2023 4:35 PM
32	No	6/2/2023 4:33 PM
33	No	5/31/2023 9:59 AM
34	Huge potential to invest in green infrastructure	5/30/2023 9:11 PM
35	In South Baltimore, we enter many of our neighborhoods using bridges and/or train tracks. If a bridge were to collapse or a disabled train were to block the ability to continue a street, how will emergency assistance reach us? As it currently stands, we would be trapped.	5/30/2023 3:28 PM
36	In case of evacuation, is there a list of designated places in the various quadrants of the city?	5/17/2023 5:17 PM
37	None	5/16/2023 6:02 PM
38	Is there free training in the areas of Disaster Preparedness available for city residents? Where is it? What day and time will it be available for citizens?	5/16/2023 11:52 AM
39	Currently in Baltimore it seems there are two very distinct threats to our safety and quality of life--teenagers and litter.	5/16/2023 8:01 AM
40	No	5/15/2023 8:57 PM
41	No	5/15/2023 6:09 PM
42	I think engaging community associations could be one way to get the word out	5/6/2023 11:02 AM
43	None	5/6/2023 9:54 AM
44	The way to bring more awareness to hazard mitigations, the gov agencies can provide presentations and trgs. as needed to neighborhood associations	5/5/2023 3:49 PM
45	The City needs to develop plans with the community first. Then it needs to broadly communicate the plans. Finally, the city needs a rapid way to tell residents about the disaster.	5/4/2023 11:13 AM
46	Is there one website that has all of the resources our family can access for info about preparing for hazards?	5/3/2023 3:27 PM
47	The neighborhood groups fight each other to run for political office when they're supposed to be helping people in the community. They do everything they can to get on the news or in magazines but they don't actually help anyone here. We need to go back to the old way where people helped each other and the community groups help people.	5/3/2023 2:45 PM
48	We are doomed. Thankfully I know Jesus so I rest assured.	5/3/2023 2:25 PM
49	None.	5/3/2023 2:15 PM
50	Extreme heat and flash flooding need emergency attention. Please consider relocating families from harm and greening spaces with repeated flooding.	5/2/2023 7:37 AM
51	Train the children and senior citizens	4/28/2023 8:06 PM
52	The City needs to prioritize community care and wellbeing, not policing. Police do not increase safety or security during a crisis; they make it worse by criminalizing people during traumatic and stressful events. Divesting from policing and reinvesting those funds into community building will increase resilience during disasters.	4/26/2023 4:22 PM
53	Id like more info on what a utility shutoff procedure entails	4/26/2023 9:48 AM

2	Flood	6/14/2023 2:02 PM
3	Hurricane Isabel flooded our building on Pier 3. There have been several "close calls" since then. Our electrical infrastructure needs major upgrades in order to be prepared for future flooding events.	6/13/2023 2:20 PM
4	2018 Ellicott city flood	6/5/2023 9:02 AM
5	Wind and rain caused damage to homes in the from fallen trees.	5/31/2023 9:21 AM
6	NA	5/31/2023 8:54 AM
7	Derechos, hurricanes/tropical storms, heavy rain/flooding, earthquakes, etc all impact historic buildings and impact development of those buildings.	5/30/2023 2:45 PM
8	gas explosion that destroyed several homes in the Fallstaff community	5/30/2023 1:24 PM
9	Loss of water, flooding, power loss loss. Services were temporarily curtailed or transition to telehealth/other locations while repairs were made.	5/26/2023 9:19 AM
10	we are not specifically responsible for any aspects of the transportation system but we are aware of the impacts of hazards - costs to repair, maintain, time lost by travelers/goods movers, lost travel reliability, lost mobility options	5/3/2023 9:38 AM
11	flooding	5/1/2023 3:36 PM
12	Properties along the Middle Branch are listed in the prior DP3 and the Nuisance Flood Plan as having a history of / future risk of flooding and erosion.	4/25/2023 6:33 PM
13	Flooding in the Cherry Hill community.	4/25/2023 6:46 AM
14	Flooding and wind (which may result in loss o power) impacts us throughout the year.	4/19/2023 10:52 AM

## Q11 Looking at where your facilities or services are located in Baltimore City, what areas do you believe to be the most vulnerable to hazards? What are these hazards? (please explain).

Answered: 23 Skipped: 8

#	RESPONSES	DATE
1	Heat waves in historic, inner city neighborhoods.	6/21/2023 7:58 PM
2	Heatwaves, vector borne diseases by mosquitos and ticks	6/15/2023 8:02 AM
3	Office is Drinking water treatment facility. Hazards include anything that impacts service. Also Chlorine and other chemicals are stored on site - so exposure of staff in the event of emergencies could be a factor.	6/14/2023 3:32 PM
4	Weather related —flooding and heat	6/14/2023 2:02 PM
5	North Baltimore. Hazards are heat, cold(snow) and recently air quality.	6/14/2023 1:21 PM
6	Storm drains clogged with debris which blocks the flow of storm water, causing flooding. Trees on City property which are not maintained. High winds causes limb brakeage and power outage.	6/14/2023 6:31 AM
7	We work with several partners across the city, including Stillmeadow Community Fellowship, whose area in West Baltimore experienced extreme flooding during a storm event in 2018. Neighborhoods in Southeast Baltimore (Fells Point) along the Inner Harbor experience recurring flooding. Neighborhoods in West, East, and Southeast Baltimore in which we work experience extreme heat, forcing the cancelation of outdoor programs.	6/13/2023 3:19 PM
8	ALL low lying areas are vulnerable for flooding - including "sunny day flooding" events that will be more frequent in the coming years.	6/13/2023 2:20 PM
9	None	6/13/2023 11:00 AM
10	Much of the 21229 ZIP Code along the Frederick Avenue. Corder is vulnerable to flooding and flash flooding.	6/5/2023 9:02 AM
11	Trees from the park Leaken and Gwynn Falls park are not properly maintained.	5/31/2023 9:21 AM
12	The Port and Inner Harbor	5/31/2023 7:50 AM
13	Fells Point, Dickeyville, Downtown Landmarks vulnerable to flooding	5/30/2023 2:45 PM
14	communities that are in flood plains	5/30/2023 1:24 PM
15	Loss of utilities is our facilities' greatest vulnerability, especially water and power. The infrastructure is very old and there are not always redundancies in place. HVAC is also a concern for our aging facilities.	5/26/2023 9:19 AM
16	we are interested in the whole city, we have observed vulnerable areas as being low lying, coastal, areas where infrastructure may need more maintenance to withstand more extreme events, critical infrastructure relying on electricity, extreme heat impacts on air quality as well as health of people that don't have cool places to go; extreme cold impacts on water mains	5/3/2023 9:38 AM
17	flooding in areas along the Jones Falls, streams, areas heavily asphalted with poor stormwater management,	5/1/2023 3:36 PM
18	Downtown, loss of electricity, loss of communications/internet	4/28/2023 4:01 PM
19	Frederick Ave, Hillen rd and 25th street, Jones Falls Mills, Purnell Drive, W. Forest Park, Northpoint and Quad Ave., S. Hanover St. and Frankurst Ave.,W. Patapsco Ave.,E. Patapsco between Shell and Pennington,S. Hanover St. @ Harbor Hospital,2700 Spelman Rd, Cherry Hill, Fells Point- Thames St., Lancaster, Caroline.	4/27/2023 4:26 PM

## Baltimore City DP3 - Stakeholder Survey

20	Areas located in mapped and unmapped floodplains, including in the coastal zone. Often those areas also experience extreme heat issues due to high rates of impervious surfaces.	4/26/2023 9:00 AM
21	Storm surge, flooding, storm damage, and erosion to properties along the Middle Branch and its tributaries. Particularly: Top Golf, Casino, BGE Spring Garden, Incinerator, Baltimore Peninsula, ONE Westport, MedStar Harbor Hospital	4/25/2023 6:33 PM
22	Flooding in the southwest area (Cherry Hill, Westport)	4/19/2023 10:52 AM
23	low lying flood prone areas	4/19/2023 9:15 AM

## Q12 What are your agency's primary concerns regarding hazards?

Answered: 27 Skipped: 4

ANSWER CHOICES	RESPONSES	
Vulnerability of specific facilities	51.85%	14
Response capabilities	74.07%	20
Likelihood of specific hazard events	40.74%	11
Continuity of operations	55.56%	15
Other (please specify)	18.52%	5
Total Respondents: 27		

#	OTHER (PLEASE SPECIFY)	DATE
1	The effect of climate change on habitats on which birds, particularly migratory species, rely. These biodiverse green spaces benefit people in the form of Carbon sequestration, cooling, and stormwater control.	6/13/2023 3:19 PM
2	vulnerability of our seniors	5/31/2023 8:54 AM
3	emergency work that happens that further damages a historic building	5/30/2023 2:45 PM
4	in most cases, a hazard event will not significantly impact my agency from doing our work, hazards will impact the systems we focus on, particularly transportation	5/3/2023 9:38 AM
5	Responsiveness to impacted residents	4/19/2023 10:52 AM

## Q13 What challenges or barriers to reducing vulnerability in Baltimore City do you see?

Answered: 24 Skipped: 7

#	RESPONSES	DATE
1	Large percentage of city population is low-income and/or may have reduced access to resources and information to prepare themselves and their families and recover from impact of emergency events	6/29/2023 1:09 PM
2	Equitable access to resources needed: cooling places (i.e., free pool access, air-conditioning); access to healthy fresh foods; access to natural green spaces.	6/27/2023 11:38 AM
3	Lack of awareness and failure to coordinate policy, planning, strategies, operations, and use of current science and data	6/15/2023 8:02 AM
4	Overall - getting information and resources to vulnerable populations. Bmore Alert is used inconsistently and most people don't know about it. Related to DPW - investment in facilities.	6/14/2023 3:32 PM
5	Available resources	6/14/2023 2:02 PM
6	The challenges would be determining who to help and how to effectively execute	6/14/2023 1:21 PM
7	Routinely clean storm drains. Prune trees on City owned property. Compel landlords and property owners do the same. Use natural barriers to block off abandoned streets and alleys in order to curtail illegal dumping.	6/14/2023 6:31 AM
8	The coordination of local action among the larger regional landscape in order to make meaningful change; systemic issues of racism, poverty, and the mistrust it has caused between residents and government; political will in Baltimore City; funding; the privatization of the waterfront if it does not include SLR mitigation; development	6/13/2023 3:19 PM
9	The whole of the Inner Harbor (reaching into downtown) is at risk of flooding. Major comprehensive infrastructure investments must be made in order to protect our assets downtown.	6/13/2023 2:20 PM
10	Vacant Buildings	6/13/2023 11:00 AM
11	Consistent planning and conscious coordination of emergency management and continuous planning to reduce vulnerability	6/5/2023 9:02 AM
12	We have a couple situations where trees blocked the two exits out of the community. Which by also created problems getting into the community.	5/31/2023 9:21 AM
13	awareness	5/31/2023 8:54 AM
14	Politics and aging infrastructure.	5/31/2023 7:50 AM
15	costs	5/30/2023 2:45 PM
16	power outages, communication disruption due to down power lines	5/30/2023 1:24 PM
17	Ensuring hospitals and healthcare facilities are prioritized during utility failures and water outages. Better understanding of how city outages will affect facilities. Having mapping of utility dependencies to hospitals.	5/26/2023 9:19 AM
18	funding to address vulnerabilities of existing and planned infrastructure; funding to enhance resilience and reduce vulnerabilities of underserved communities; make sure decision makers (at local and state levels) understand the impacts of hazards and support actions to address (including funding); some communities may need to be educated about the vulnerabilities and actions needed to address them	5/3/2023 9:38 AM
19	lack and/or limited resources to reduce vulnerability within the city's aging infrastructure	5/1/2023 3:36 PM
20	Flooding as a result of both sea level rise and more violent weather events due to climate	4/28/2023 4:01 PM

## Baltimore City DP3 - Stakeholder Survey

	change	
21	Funding, lengthy processes for mitigation.	4/27/2023 4:26 PM
22	Funding for: 1) further sea-level rise/increases in precipitation rates studies and their impacts in the city, and 2) implementation of mitigation projects.	4/26/2023 9:00 AM
23	The solution, for these hazards is to construct wetlands, vegetated berms, and other nature-based infrastructure to protect these facilities. The new DP3 needs to provide a strong and unambiguous language calling for this, in order to help persuade state and federal regulators to allow this infrastructure to be built.	4/25/2023 6:33 PM
24	financial, grant funding greatly reduced to equip special operations	4/19/2023 9:15 AM

## Q14 Are you aware of the number and location of vulnerable populations in your community/operating area?

13	the housing voucher program is for low income populations overall our work serves the whole Baltimore region; in our work, we work to identify populations/communities that may be underserved as needed to address their specific needs (we are working to improve on this). We (are required to) adhere to Title VI requirements.	5/3/2023 10:11 AM
14	minority and women owned businesses	5/1/2023 3:41 PM
15	those without power during winter weather; homeless populations who needed to be relocated during HVAC failure event in summer '22.	4/27/2023 4:33 PM
16	Citywide.	4/26/2023 9:13 AM
17	15 neighborhoods in South Baltimore	4/25/2023 7:00 PM
18	all communities and populations	4/19/2023 9:21 AM

## Q29 Do you provide these services during times of disaster?

Answered: 23 Skipped: 8

ANSWER CHOICES	RESPONSES	
Yes	78.26%	18
No	4.35%	1
Don't Know	8.70%	2
Other (please specify)	8.70%	2
TOTAL		23

#	OTHER (PLEASE SPECIFY)	DATE
1	NA	6/13/2023 3:45 PM
2	we don't really have a role during disasters; however, a couple of our emergency preparedness staff assisted with food distribution during the early pandemic	5/3/2023 10:11 AM

**Q30 What barriers and community characteristics exist within Baltimore City that may create additional vulnerabilities to hazards? This may include but is not limited to access to transportation, broadband access, economic disadvantages, physical health (chronic diseases), limited physical mobility, age (older adults and children), and rural communities.**

Answered: 17 Skipped: 14

#	RESPONSES	DATE
1	limited English proficiency; social isolation (especially for disabled and older adults)	6/29/2023 1:08 PM
2	suspicion of government agencies and "do-gooders".	6/15/2023 8:08 AM
3	Communication (internet, cell phone, etc) - if something happened -we would need to communicate whether water is safe, if any system is compromised - this is true of the whole city. Bmore alert seems like a start -but I have seen it used for Covid (makes sense) one community meeting attended by the mayor (doesn't make sense) the curfew (makes sense) but not the air quality alert (why not used, I'm not sure). Use is inconsistent and probably people are under enrolled.	6/14/2023 3:40 PM
4	Limited access to transportation and free services	6/14/2023 2:09 PM
5	Post information (multiple languages) on the light rail, bus stops, libraries, near schools and college campuses. Use an ongoing public service announcement campaign.	6/14/2023 6:51 AM
6	limited access to biodiverse, safe green spaces caused by vehicular traffic, crime; access to safe drinking water caused by aging infrastructure	6/13/2023 3:45 PM
7	Funding for Programs Accessibility to everyone	6/13/2023 11:09 AM
8	All of the above are problems in various parts of the city and need addressing to one degree or another.	5/31/2023 9:38 AM
9	Economic disadvantages undermanned first responders, socioeconomic issues, aging infrastructure.	5/31/2023 7:57 AM
10	costs, limited access to internet	5/30/2023 2:53 PM
11	all of the above items listed are potential barriers	5/30/2023 1:38 PM
12	socioeconomic, transportation access, chronic disease, limited mobility/vision, food availability, affordable housing, employment	5/26/2023 9:31 AM
13	in addition to those items listed, perhaps concern for physical safety could be a barrier to evacuating - concern about interacting with police as well as concern about with other members of the public; also limited English proficiency	5/3/2023 10:11 AM
14	all the barriers mentioned above including lack of access to information	5/1/2023 3:41 PM
15	communications	4/27/2023 4:33 PM
16	Vulnerable communities are often located in high-hazard areas, including areas that are flood prone, that lack green spaces and pervious surfaces, and areas that experience extreme heat.	4/26/2023 9:13 AM
17	South Baltimore neighborhoods are physically isolated by highways, railroads, and rivers. Cherry Hill is particularly isolated, with only 3 points of ingress/egress, two of which are bridges and one of which goes through a flood zone.	4/25/2023 7:00 PM

## Q31 Do you have any questions or comments for Baltimore City?

Answered: 11   Skipped: 20

#	RESPONSES	DATE
1	You might consider using the Forest Service's Stew-Map resource as an on-going tool. You might consider establishing a "science advisory group" to assist on an on-going basis for current research, data, and modeling.	6/15/2023 8:09 AM
2	No	6/14/2023 2:09 PM
3	Not at this time.	6/14/2023 1:26 PM
4	We must and can do better by our most vulnerable.	6/14/2023 6:51 AM
5	No	6/13/2023 3:46 PM
6	More systems in place to deal with trash all over the city. This also means a quicker response to citizens requests. Bulk trash more available. Recycling of yard waste on a regular basis.	5/31/2023 9:43 AM
7	None.	5/31/2023 7:57 AM
8	no	5/30/2023 2:53 PM
9	I hope these responses are helpful, please contact me with any questions	5/3/2023 10:12 AM
10	Please provide explicit language mandating / demanding nature based infrastructure in the Middle Branch to assist in convincing regulatory agencies to grant permits for these critical projects.	4/25/2023 7:01 PM
11	I am new to this committee and unable to answer some of the questions moving forward. I will have more information from our agency.	4/25/2023 6:53 AM

## Appendix B: Meeting Documentation

Appendix B includes meeting agendas, participants, and meeting minutes, as applicable, for meetings convened during the development of the Disaster Preparedness and Planning Project 2023 update. This documentation includes items for Core Planning Team, Hazard Mitigation Advisory Committee, and Equity Subcommittee meetings.

**City of Baltimore**  
**2023 Disaster Preparedness and Planning Project (DP3)**  
**Core Planning Team Kick-Off Meeting - Agenda**  
**Friday, February 24, 2023**  
**9:30 a.m. – 11:00 a.m.**  
[Meeting Link](#)

**1. Introductions**

- Tetra Tech's role

**2. Overview of Planning Process**

- Purpose and Requirements (FEMA, MDEM, and CRS)
- Phases in the process
- Steering Committees and Community Engagement
  - Core Planning Team (CPT)
  - Hazard Mitigation Advisory Committee (HMAC)
  - Community Stakeholders and General Public

**3. Schedule**

- Overview of key milestones and meetings
- Core Planning Team (CPT): Biweekly
- HMAC meetings: Monthly

**4. Organizing Resources**

- Identifying participating agencies/departments/stakeholders
- Reviewing the 2018 DP3 (best practices, areas for improvement, 2023 vision, framework, actions)

**5. Engagement Strategy**

- Public Meetings and Workshops
- BoS website updates
- StoryMap
- City's current capabilities and capacity to support
- Public Engagement Strategy

**6. Hazard Identification and Risk Assessment**

- Review 2018 Hazards of Concern
- Data Collection

**7. Questions and Discussion**

### Schedule Milestones

Milestone	Est. Date of Completion
Public Kickoff Workshop	March 29, 2023
Hazard Profiles Posted for Public Review	May 3, 2023
Public Risk Assessment Workshop	May 17, 2023
Stakeholder Mitigation Action Workshop	June 20, 2023
Public Mitigation Action Workshop	June 28, 2023
Mitigation Strategy Updated	July 7, 2023
CPT and HMAT Review Draft DP3	July 26, 2023
Public Review Period	August 1 - 31, 2023
Public Review Meeting	August 31, 2023
Draft Submitted to MDEM	September 7, 2023
Draft Submitted to FEMA Region III	October 2, 2023
Final DP3 Adopted by City and Approved by FEMA	December 15, 2023

8

9

- ### Role of Stakeholder Groups
- Core Planning Team (CPT)** serves as the discipline leads to guide the development of the DP3. The CPT will meet to discuss project status, troubleshoot any issues, inform the development of HMAT and public meeting materials, and review drafts.
  - Hazard Mitigation Advisory Committee (HMAT)** composed of stakeholders across disciplines and community leaders. Provides input and guidance on the development of the DP3 advises the CPT on community needs and concerns to ensure community representation and inclusion in the planning process.
  - Community Stakeholders and General Public** may be businesses, private citizens, community organizations, etc. Provides a direct opportunity for engagement and inclusion in the planning process.

## Hazard Identification and Risk Assessment

2018 DP3 Hazards of Concern

- Flooding
- Coastal Hazards
  - Tropical Storms and Hurricanes
  - Sea Level Change
  - Tsunamis
- Precipitation Variability
  - Nor'easters
  - Drought
- Wind
  - Tornado
  - Derecho
- Extreme Heat
  - Air Quality and Respiratory Illnesses
- Land
  - Earthquakes
  - Land Subsidence
  - Urban Karst/Sinkholes

19

20

## Hazard Identification and Risk Assessment

2021 MDEM Hazards

**Natural Hazards**

- Coastal Hazards
- Dam Failures
- Drought
- Extreme Temperatures
- Floods
- Soil Movement
- Public Health Emergencies
- Thunderstorm
- Tornado
- Wildfires
- Wind
- Winter Storm

**Human-Caused Hazards**

- Active Shooter
- Civil Unrest
- Cyber-Attack
- Nuclear Incidents
- Terrorism
- Transportation Accidents

21

## Data Collection

- Existing plans to integrate
- Critical Facilities Data
- FEMA CAV request
- Land Use and Development (new major development since 2018, planned major developments, number of construction permits issued)
- Dam data (location, inundation areas, etc.)
- Climate Change data
- Socially Vulnerable Populations data

22

## Questions and Discussion

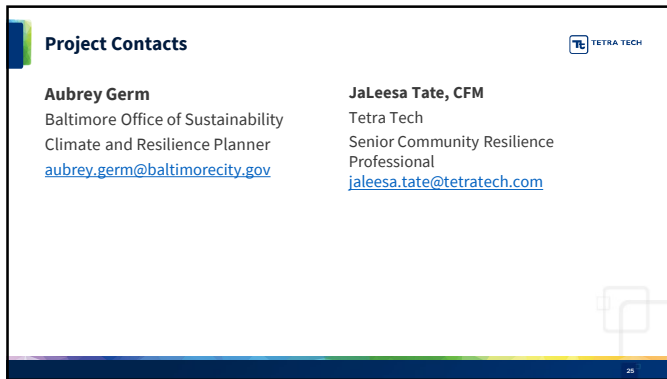

23

## Next Steps

- Provide recommendations for HMAC members
- Compile data to inform the Risk Assessment and overall plan development
- Review 2018 DP3 framework
- Next meeting TBD

24

A presentation slide titled "Project Contacts" with a blue and green header bar. It lists contact information for Aubrey Germ and JaLeesa Tate. The Tetra Tech logo is in the top right, and a faint geometric graphic is in the bottom right. A small number "25" is at the bottom center.

Mary Jo Rogers, Joy Hatchett	Maryland Insurance Administration
Craig Purcell	BCT Architects
Angie Im, Tom Cotter	HealthCare Ready
Ben Zaitchik	Baltimore Social-Environmental Coalition (BSEC) / JHU

7

**Engagement Strategy**

- Public Meetings and Workshops
- BoS website updates
- StoryMap
- Public Engagement Strategy

10

**2023 Proposed HMAc – External**

Name	Organization
Tony Bridges	Blue Water Baltimore
Brad Rogers	South Baltimore Gateway Partnership
Rupert Denney	Baltimore Industrial Group
Bonnie Sorak	Interfaith Partnership of Chesapeake
Allen Frenette	Cyber-Security Agency (CISA)

8

**Engagement Strategy**

- Two-way communication
  - A forum to provide updates on the status of the plan, but also receive information to guide the development and vision of the plan
  - Identify opportunities for 1-on-1 engagements and focus groups
- Schedule early and often
  - Identify times and days that will work for the targeted audience; maintain contact throughout the process
- Meaningful Participation
  - Communicate the role of each sector in the mitigation process; recommend who should be represented for each meeting
  - Provide information in multiple formats to accommodate varying learning styles
  - Leverage opportunities for integration

11

**Still Need Recommended Representatives**

- Baltimore Development Corporation
- Law Department
- DPW – Wastewater
- Maryland Historical Trust
- BMORE Beautiful
- The Greater Baltimore Committee
- Office of Equity and Civil Rights
- Baltimore City Community Associations

9

**Revisiting the 2018 DP3**

BEST PRACTICES

AREAS FOR IMPROVEMENT

2023 VISION

12

### 2018 DP3 Mitigation Goals

1. Protect the health, safety and welfare of Baltimore City residents and visitors.
2. Prevent damage to structures, infrastructure, and critical facilities.
3. Build resilience and disaster prevention and planning into all programs, policies, and infrastructure (public and private).
4. Enhance the City of Baltimore's adaptive capacity and build institutional structures that can cope with future conditions that exceed past experience.
5. Promote hazard mitigation and climate adaptation awareness and education throughout the City of Baltimore.
6. Provide support to increase efforts toward a better Community Rating System (CRS) community rating.

13

### 2018 DP3 Community Survey Results

Percentage of Respondents Concerned about Man-Made Hazards

16

### 2018 DP3 Recommendations for Moving Forward

- Continue planning efforts centered on increasing community resilience, including ongoing formalization and expansion of Resiliency Hubs.
- Use community resilience initiatives to address varying regional concerns.
- Broaden public outreach and engagement efforts to include greater representation from all Baltimore neighborhoods and communities in planning efforts.
- Introduce solutions-oriented public engagement practices designed to solicit community-driven solutions.

14

### Data Collection

- Existing plans to integrate: *Comprehensive Plan, Climate Adaptation Plan, Solid Waste Management Plan*
- Critical Facilities Data: *City reps. have populated Tetra Tech "wish list", Tetra Tech will review and begin process to obtain data; does City have GBS data?*
- FEMA CAV request
- Land Use and Development (new major development since 2018, planned major developments, number of construction permits issued)
- Dam data (location, inundation areas, etc.): *Will be made available by DPW*
- Climate Change data
- Socially Vulnerable Populations data

17

### 2018 DP3 Recommendations for Moving Forward

- Determine a strategy for incorporating information on vulnerable populations collected during the development of this plan.
- Use public feedback to identify vulnerable populations and specify vulnerable populations to the greatest extent possible.
- Develop criteria and a strategy for integrating man-made hazards into the next DP3 with input from the public at the outset.
- Integrate food resilience into mitigation and preparedness efforts.
- Integrate Historic and Cultural Resources Hazard Mitigation Strategy.

15

### Questions and Discussion

18

## Next Steps

- Compile data to inform the Risk Assessment and overall plan development
- Continue to inform the engagement strategy
  - Support outreach efforts for HMAc and public kickoff
- Friday, March 24<sup>th</sup>

19

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

<b>Purpose of Meeting:</b>	Core Planning Team Kick-Off Meeting	
<b>Location of Meeting:</b>	Teleconference	
<b>Date of Meeting:</b>	March 10, 2023 @ 10:00AM	
<b>Attendees:</b>	<ul style="list-style-type: none"> <li>Bruna Attila, Baltimore Office of Sustainability (Coastal Resources Planner)</li> <li>Kimberly Grove, Baltimore Department of Public Works (Chief, Office of Compliance &amp; Research)</li> <li>Aubrey Germ, Baltimore Office of Sustainability (Climate and Resilience Planner)</li> <li>Michelle Smith, Baltimore Office of Emergency Management (Preparedness Section Chief)</li> <li>Elise Whiteford, Baltimore Office of Emergency Management (Planning Section Chief)</li> <li>Ava Richardson, Baltimore Office of Sustainability (Director)</li> <li>Jamie Williams, Baltimore Department of Planning (City Planner Supervisor)</li> <li>Joanna Birch, Baltimore Office of Sustainability (Floodplain Manager)</li> <li>JaLeesa Tate, Tetra Tech (Project Manager)</li> </ul>	
<b>Agenda Summary:</b>	The purpose of the meeting was to review updates to the schedule based on previous feedback, finalize the identification of Hazard Mitigation Advisory Committee Members, and establish a vision for the 2023 planning process and DP3.	
Item No.	Description	Action item(s):
1	Welcome	-
2	<p>Schedule Updates</p> <ul style="list-style-type: none"> <li>Based on feedback during the CPT kickoff meeting the schedule was revised to accommodate sufficient time to submit the final draft plan to the Planning Commission in line with their meeting schedule. This resulted in the following revisions to the schedule: <ul style="list-style-type: none"> <li>Website updates and Storymap develop pushed by one month into April.</li> <li>Risk Assessment and Capability Assessment pushed one month into April. This will also necessitate pushing the public Risk Assessment meeting by 1 month.</li> <li>CPT/HMAC draft plan review moved up to July.</li> <li>Public review moved up by 2 weeks. The public review will run concurrently with the Planning Commission review and MDEM review.</li> </ul> </li> <li>K. Groves recommended Baltimore Office of Sustainability connect with the Mayor's Office of Communications to amplify messaging regarding the DP3.</li> </ul>	<ol style="list-style-type: none"> <li>A. Richardson will coordinate with the Mayor's Office of Communications</li> </ol>

Brandon M. Scott  
Mayor

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

3	<p>Hazard Mitigation Advisory Committee (HMAC)</p> <ul style="list-style-type: none"> <li>The group reviewed the list recommended HMAC members; the list is a combination of representatives that participated in the 2018 planning process, CPT recommendations, and Tetra Tech recommendations. This list is inclusive and has representation from the FEMA recommended sectors.</li> <li>The group made live updates and finalized the list.</li> </ul>	<p>1. BoS and Tetra Tech will finalize the HMAC membership list, schedule the kickoff meeting, and invite participants.</p>
4	<p>Engagement Strategy</p> <ul style="list-style-type: none"> <li>Tetra Tech will develop an outreach strategy, including an interactive StoryMap, provide information to update City websites, create surveys for data gathering, and provide social media graphics for ready-made messaging. The engagement strategy will prioritize the following: <ul style="list-style-type: none"> <li>Two-way communication to provide updates on the plan, but also receive information to inform the content of the plan.</li> <li>Scheduling to maximize participation and accommodate community needs as best as possible.</li> <li>Meaningful participation focused on communicating each stakeholder's role in the process, providing information in multiple formats to accommodate varying learning styles, and leveraging opportunities for integration with ongoing initiatives.</li> </ul> </li> <li>Participants discussed developing a robust engagement strategy to increase opportunities for engagement of stakeholders and community members, including dedicated opportunities to provide comments and feedback on the content of the DP3.</li> <li>M. Smith recommended offering hybrid meetings for engagement opportunities.</li> </ul>	<p>1. Tetra Tech will prepare the draft engagement strategy for review during the next CPT meeting.</p>
5	<p>Organizing Resources</p> <ul style="list-style-type: none"> <li>The group discussed the following recommendations for strengthening the DP3 update and planning process: <ul style="list-style-type: none"> <li>Integrating the Nuisance Flood Plan: The plan contains vital information on the status of flood related mitigation actions as well as important data and geospatial shapefiles; the Nuisance Flood Plan will be included as an Addendum to the DP3.</li> <li>Informing stakeholders how their involvement in the planning process and inclusion of mitigation actions aids in grant eligibility.</li> <li>Consolidating mitigation actions to improve actionability and provide a clearer pathway for implementation; efforts to consolidate actions should be documented to</li> </ul> </li> </ul>	<p>-</p>

Brandon M. Scott  
Mayor

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

	<p>ensure it is easy to identify how actions evolved during each update of the DP3.</p> <ul style="list-style-type: none"> <li>Stronger incorporation of Community Rating System (CRS) activities for the 2023 DP3.</li> <li>Inclusion of infographics to make critical information readily available and easier to identify throughout the DP3.</li> <li>Stronger focus on governance and how governing bodies can support the implementation of the DP3.</li> <li>The Risk Assessment should include mapping of critical facilities; the Emergency Operations Plan has an annex for critical facilities that can be integrated into the plan.</li> </ul>	
<b>6</b>	<p>Hazard Identification and Risk Assessment</p> <ul style="list-style-type: none"> <li>Data Collection updates: <ul style="list-style-type: none"> <li>Existing plans to integrate: <i>Comprehensive Plan, Climate Adaptation Plan, Solid Waste Management Plan</i></li> <li>Critical Facilities Data: <i>City reps. have populated Tetra Tech "wish list", Tetra Tech will review and begin process to obtain data; does City have GBS data?</i></li> <li>Existing plans to integrate: <i>Comprehensive Plan, Climate Adaptation Plan, Solid Waste Management Plan</i></li> <li>Critical Facilities Data: <i>City reps. have populated Tetra Tech "wish list", Tetra Tech will review and begin process to obtain data; does City have GBS data?</i></li> </ul> </li> </ul>	<ol style="list-style-type: none"> <li>CPT to discuss Hazards of Concern and make final recommendations to present to HMAC.</li> <li>Outstanding data needs to be addressed by City: Land Use and Development, climate change data, socially vulnerable populations data, and FEMA CAV visit reports.</li> <li>Tetra Tech to continue with data collection efforts.</li> </ol>
<b>7</b>	<p>Questions and Discussion</p> <ul style="list-style-type: none"> <li>Discussion on pet and large animal safety and preparedness; the Health Department has been coordinating with OEM on an Animal Protection Annex to the Emergency Operation Plan.</li> </ul>	-
<b>8</b>	<p>Next Steps</p> <ul style="list-style-type: none"> <li>Continue compiling data to inform the Risk Assessment and overall plan development.</li> <li>Continue to inform the engagement strategy; support efforts for HMAC and public kickoff</li> <li>Next CPT meeting is scheduled for Friday, March 24<sup>th</sup> at 10:00am</li> </ul>	<ol style="list-style-type: none"> <li>Tetra Tech to prepare meeting materials for HMAC kickoff meeting.</li> </ol>

**City of Baltimore**  
**2023 Disaster Preparedness and Planning Project (DP3)**  
**Core Planning Team Meeting - Agenda**  
**Friday, March 24, 2023**  
**10:00 a.m. – 11:00 a.m.**  
[Meeting Link](#)

1. Welcome
2. Schedule Updates
  - Current place in schedule
  - Updates since last meeting
3. Hazard Mitigation Advisory Committee
4. Engagement Strategy
5. Questions and Discussion
6. Next Steps

**Disaster Preparedness and Planning Project (DP3)**  
Core Planning Team Meeting #3

Baltimore Office of Sustainability  
People • Planet • Prosperity

Baltimore M. Scott Mayor

1

### HMAC Kickoff

- Meeting invitation and calendar invite have been distributed.
- Social Equity Subcommittee comprised of community members and advocates.
  - Recommendations for members:
    - Franciscan Center (Resilience Hub)
    - Stillmeadow (Resilience Hub)
    - BUILD Baltimore
    - Who else?**

4

### Topics

- HMAC Kickoff Meeting
- Engagement Strategy
- Questions and Discussion
- Next Steps

2

### Tentative Agenda

- Hazard Mitigation Overview
  - Define hazard mitigation
  - State the reason for updating the plan
- Process Overview
  - 2023 timeline
  - Advisory team roles and responsibilities
  - Review results of hazards of concern survey
  - Identify critical facilities and lifelines
  - Review Engagement Strategy
  - Preliminary status check of 2018 actions

5

**Hazard Mitigation Advisory Committee (HMAC) Kickoff**  
April 4 from 3:00 – 5:00 pm  
Virtual

Baltimore Office of Sustainability  
People • Planet • Prosperity

Baltimore M. Scott Mayor

3

### Activities and Surveys

- Hazards of Concern survey:** Deploy 1 week prior to the HMAC kickoff; stakeholders will begin to rank what hazards are most concerning, including natural and manmade hazards.
- Assess what hazards have occurred the most since 2018 DP3:** In-meeting activity with live results, allows the CPT and project team to begin gauging stakeholders' perception of what they are experiencing and ground truth hazards of concerns survey results.
- Identify critical facilities and lifelines:** In-meeting activity to identify what stakeholders would want to include beyond the FEMA Community Lifelines.
- Assess challenges experienced when implementing 2018 DP3 actions:** In-meeting activity to identify what barriers exist in order to have the results inform future 2023 planning efforts. Also, provides preliminary status of 2018 DP3 actions.
- What additional information would be helpful to gather?**

6

7

### Engagement Methods

- Baltimore Office of Sustainability Website
- StoryMap (Interactive Website)
- Social Media
- Email
- Group Presentations

10

### Engagement Strategy Purpose and Goals

- Purpose:**
  - Roadmap to guide and document stakeholder and community engagement.
  - Living document that will be referenced and updated throughout the process.
  - What additional goals and values should be incorporated?**
- Goals:**
  - Inform stakeholders and community members about risk to natural and manmade hazards.
  - Foster a collaborative process to develop a mitigation strategy to reduce risk.
  - Obtain a better sense of the demographics of individuals actively engaged and participating in the planning process.
  - Implement an equitable engagement process that includes representation from all of Baltimore's neighborhoods and communities.

8

### Surveys

- Surveys:**
  - Public:** Identify the community's exposure to hazards and the location of hazards within the community. <https://www.surveymonkey.com/r/DP3PublicSurvey>
  - Stakeholder:** Engage stakeholders (i.e., utilities, transportation, business/commerce, emergency services, health/medical) to collect input in terms of capabilities, vulnerabilities, and potential projects. <https://www.surveymonkey.com/r/DP3StakeholderSurvey>
  - Neighboring Jurisdictions:** Neighboring communities will be contacted due to hazard similarities; effects of natural disasters may be similar in surrounding jurisdictions, and involving neighboring communities in the planning process could reap mutual benefits and assist in regional coordination of disaster mitigation planning. <https://www.surveymonkey.com/r/DP3NeighborSurvey>

11

### Points of Engagement

Milestone	Tentative Date
Public Kickoff Workshop	April 2023
Hazard Profiles Posted for Public Review	June 2023
Public Risk Assessment Workshop	June 2023
Stakeholder Mitigation Action Workshop	July 2023
Public Mitigation Action Workshop	July 2023
Draft available for Review by the Public, Baltimore City Planning Commission, and Maryland Department of Emergency Management	July 17, 2023
Public Review Meeting	August 2023
Final Draft Submitted to FEMA Region III	September 1, 2023
Final DP3 Adopted by City and Approved by FEMA	December 15, 2023

**What existing community events, meetings, etc. or City events would be good to participate in?**

9

### Incorporation of CRS Considerations

- Ensure a quorum during HMAC meetings
- Formally recognize the HMAC by the appropriate governing body
- Convene members for each key step in the planning process
- Make meetings open to the public and post meeting schedules publicly
- Hold a public information meeting within two months of the planning process beginning
- Hold a public review meeting
- Provide a public webcast that explains the planning process and solicits input
- Distribute a questionnaire asking the public for information on their natural hazards, problems, and viable solutions
- Promote and document plan integration
- Coordinate with organization outside the City's governance structure
- Include an assessment of SFHA, repetitive loss areas, areas known to flood but not mapped in the SFHA, and surface flooding areas identified in other studies
- Inventory levees and dams

12

## Next Steps

- GIS Meeting
- HMAK Kickoff
- Planning for Public Kickoff

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

<b>Purpose of Meeting:</b>	Core Planning Team Status Meeting	
<b>Location of Meeting:</b>	Teleconference	
<b>Date of Meeting:</b>	March 24, 2023 @ 10:00AM	
<b>Attendees:</b>	<ul style="list-style-type: none"><li>Kimberly Grove, Baltimore Department of Public Works (Chief, Office of Compliance &amp; Research)</li><li>Michelle Smith, Baltimore Office of Emergency Management (Preparedness Section Chief)</li><li>Elise Whiteford, Baltimore Office of Emergency Management (Planning Section Chief)</li><li>Ava Richardson, Baltimore Office of Sustainability (Director)</li><li>JaLeesa Tate, Tetra Tech (Project Manager)</li><li>Jessica Stokes, Tetra Tech (Outreach Lead)</li></ul>	
<b>Agenda Summary:</b>	The purpose of the meeting was to review the draft Engagement Strategy and to identify key topics for the Hazard Mitigation Advisory Committee kickoff meeting.	
Item No.	Description	Action item(s):
1	Welcome	-
2	<p>Hazard Mitigation Advisory Committee (HMAC)</p> <ul style="list-style-type: none"><li>Meeting invitations and calendar invites were sent out by BoS; the group reviewed the tentative agenda and activities/surveys.</li><li>A Social Equity Subcommittee will be convened to serve as a dedicated space for community members and advocates; all HMAC meetings are open the public.<ul style="list-style-type: none"><li>The group provided recommendations for members for the Social Equity Subcommittee including the Mayor's Office of Neighborhoods, Cherry Hill Development Corporation, DPW Resident Advisors, South Baltimore Neighborhood Association, and Interfaith Partners for the Chesapeake.</li></ul></li><li>The group discussed opportunities for small businesses to participate in the development of the plan.</li><li>The group noted that an assessment was completed previously for community members to self-identify critical facilities and lifelines within the community.</li><li>The group noted the importance of including manmade hazards.</li></ul>	<ol style="list-style-type: none"><li>BoS to invite recommended members to participate on the subcommittee.</li></ol>
3	<p>Engagement Strategy</p> <ul style="list-style-type: none"><li>The group reviewed the key elements of the Engagement Strategy including purpose, goals, milestones, and methods (e.g., social media, flyers, surveys, etc.).<ul style="list-style-type: none"><li>The group recommended including measurable goals.</li></ul></li></ul>	<ol style="list-style-type: none"><li>BoS to provide feedback and comments on Engagement Strategy.</li></ol>

Brandon M. Scott  
Mayor

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

	<ul style="list-style-type: none"> <li>○ The group recommended adding a goal to increase engagement with individuals with limited-English proficiency and/or English as a second language.</li> <li>• The group reviewed social media graphics for ready-made messaging. <ul style="list-style-type: none"> <li>○ The Engagement Strategy includes toolkit items for stakeholders and partners to use during community outreach events such as Mayor's Spring Clean Ups, resource fairs, and BCPS Summer Bash events.</li> <li>○ The City has a PIO group that can also assist is socializing materials.</li> <li>○ The group recommended reaching out to State partners to assist with outreach efforts.</li> </ul> </li> <li>• The Engagement Strategy includes recommendations for the City to potentially gain points in the Community Rating System (CRS).</li> </ul>	2. CPT to provide feedback and comments on Engagement Strategy.
<b>4</b>	<p>Questions and Discussion</p> <ul style="list-style-type: none"> <li>• No additional discussion.</li> </ul>	-
<b>5</b>	<p>Next Steps</p> <ul style="list-style-type: none"> <li>• Conduct GOS focus meeting to review available data, discuss StoryMap, and determine transfer of data.</li> <li>• Continue compiling data to inform the Risk Assessment and overall plan development.</li> <li>• Finalize Engagement Strategy</li> <li>• Finalize materials for HMAC kickoff meeting</li> <li>• Continue planning for Public kickoff meeting</li> <li>• Next CPT meeting is scheduled for Thursday, April 6<sup>th</sup> at 10:00am</li> </ul>	<ol style="list-style-type: none"> <li>1. Tetra Tech to organize meeting with City GIS contacts and Tetra Tech GIS lead.</li> <li>2. Tetra Tech to finalize materials for HMAC and develop Public kickoff materials.</li> </ol>

## Participation

- **Approximately 40 participants**
  - Planning: CHAP, BoS, Comp.
  - Office of Emergency Management
  - Public Works: Research and Environmental Protection, Solid Waste
  - Mayor's Office: Homeless Services, Chief Data Officer, Infrastructure Development, Immigrant Affairs
  - BCIT
  - Baltimore Metropolitan Council
  - Parks and Recreation
  - Department of Transportation
  - Health Department
  - Baltimore Development Corporation
- Maryland Port Administration (Environmental Manager)
- Waterfront Partnership
- Baltimore City Sheriff's Office
- Maryland Dept. of Emergency Management
- Maryland Insurance Administration
- FEMA
- DHS CISA
- Johns Hopkins University
- South Baltimore Gateway Partnership
- DGS (Energy Division)
- Maryland Zoo
- BGE
- Baltimore Police Department

4

## Topics

- HMAC Kickoff Meeting Debrief
- Public Kickoff Meeting
- Topics for Upcoming CPT meetings
- Questions and Discussion
- Next Steps

2

## Participation

**Engaged participants**  
32 out of 40 Slido participants engaged with polls or Q&A.

Participants asking in Q&A	1
Participants up or down voting in Q&A	1
Participants voting in polls	31

Engaged participants score ① **80%**

**Poll engagement**  
31 out of 40 Slido participants voted in a poll.

Total poll votes	45
Polls with responses	3
Average votes per poll	15

Poll engagement score ① **76%**

5

**Hazard Mitigation Advisory Committee (HMAC) Kickoff**  
April 4, 2023 from 3:00 – 5:00 pm  
Virtual

Mayor

3

## Hazards of Concern

Which natural hazards do you think occurred the most since 2018?  
Ranking Poll 23 votes 32 participants

- Defining thresholds (e.g., how is extreme heat measured)
- Metrics for measuring SLC and other gradual (long-term) hazards vs. episodic (event-based) hazards
- Hazards with high risk, but low occurrence
- Human-Caused: terrorism, water quality/contamination, train derailment (hazardous materials release)

1. Extreme Heat	7.8
2. Flood/Flash Flood	7.5
3. Urban Karst/Sinkhole	3.7
4. Nor'easter	3.6
5. Sea Level Change	2.9
6. Tropical Storm/Hurricane	2.6
7. Drought	2
8. Derecho	1.6
9. Tornado	0.8

6

## Hazards of Concern

Which hazards would you want a disaster preparedness training program to help you prepare for? Our definition of hazards includes natural hazards, technological hazards, and human caused threats. These hazards may have both city-wide and more localized impacts.

188 responses

7

## Debrief

- Did we meet the objectives of the meeting?
- What was successful?
- What areas are there for improvement?
- Was the meeting interactive and engaging?
  - What other platforms can help boost engagement?
- Thoughts on discussions during the meeting?
  - Did you learn new information?
  - Were you surprised by anything you heard?
- Are there additional organizations who may benefit by participating?
- Recommendations for future meeting topics?
  - What objectives do we want to work towards during HMAC meetings?

10

## Critical Facilities

What additional critical facilities should be considered?

Open text poll 39 responses 19 participants

- Water Impoundments\*
- Stadiums
- Websites
- Maryland First Fiber (fiber and conduit)
- Laboratories
- Convention Center
- Manufacturing Hubs
- Airports\*
- Nursing homes
- Senior Centers
- Dialysis Centers
- Data Centers
- Steam Plants / Steam Lines
- Grocery Stores
- Substance Abuse / Recovery Treatment

8

## HMAC Kickoff

- Follow up materials:
  - Presentation
  - Link to BoS DP3 website and direct link to the 2018 DP3 and Appendix 5-1 All Strategies and Actions
  - Reminder to complete Hazards of Concern Survey
  - Deploy first Stakeholder survey focused on stakeholder capabilities and facilities, preliminary identification of mitigation actions, and assistance provided to socially vulnerable and underserved populations
  - Flyers and social media messaging for Public Kickoff Workshop

11

## 2018 DP3 Implementation

What steps have you taken to implement the 2018 DP3 actions? What challenges did you experience? (Include organization)

Open text poll 3 responses 3 participants

- Anonymous  
MDEM was likely party of the review process before the plan went to FEMA
- Anonymous  
BCHD- very difficult to implement many actions from 2018 due to lack of funding and staff to implement actions
- Anonymous  
Some of the actions felt too generic to confirm completion status.

9

## Social Equity Subcommittee

- Tetra Tech and BoS will coordinate convening this subcommittee over the next month.
- Call for participants during May Public Kickoff Meeting.
- **What topics areas should we prioritize for the subcommittee?**

12

## Public Kickoff Meeting

May 2, 2023 from 6:00 – 7:30 pm  
Virtual

13

## Future Meetings

- *Do you have leads on meeting spaces?*

16

## Public Kickoff Meeting

- Conduct Virtually
  - Utilize Slido to encourage participation
  - Based on number of registered attendees may recommend breakout groups for open discussions
- Tetra Tech will set up registration
  - Collect demographic data
  - Collect contact information for future outreach
- Include survey link/QR code on outreach materials
- **What is needed for Departments, PIOs, etc. to boost messaging?**

14

## Upcoming CPT Meetings

17

## Tentative Agenda

- Welcome
- Purpose of Meeting
- What is the DP3?
- Planning Process
  - 4 Key Components (Organizing, Risk Assessment, Capabilities Assessment, and Mitigation Strategy)
  - Future Opportunities for Engagement
- **Discussion:** How have hazards impacted communities and individuals?
- **Discussion:** How do communities and individuals prepare for hazards?
- **Discussion:** What support (governmental and non-governmental) is needed to aid communities and individuals to prepare, respond, and recover from hazards?
- Final Questions Next Steps
- Closing

15

## Suggestions for topics

- Community Rating System Integration
- **What else?**

18

## Next Steps

- GIS Meeting and begin Risk Assessment
- Final Draft of Engagement Strategy – distribute toolkit to CPT and HMAC
- Plan for Public Kickoff
- Develop StoryMap
- Deploy surveys (stakeholder, neighboring jurisdiction, and public)

19

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

- Participants responded that extreme heat and flooding events occurred the most during the course of the performance period of the 2018 DP3.

- The project team reviewed a 2018 survey prepared by a BoS/OEM fellow to assess the publics perceptions of human-caused hazards.

Brandon M. Scott  
Mayor

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

- The HMAC identified additional critical facilities which should be considered; these included:
  - Water impoundments, stadiums, laboratories, manufacturing hubs, airports, nursing homes and senior centers, dialysis centers, grocery stores, and substance abuse/recovery treatment centers.
- The HMAC was asked about steps taken to implement the 2018 DP3.

What steps have you taken to implement the 2018 DP3 actions? What challenges did you experience? (Include organization)

Open text poll 3 responses 3 participants

- Anonymous  
MDEM was likely party of the review process before the plan went to FEMA
- Anonymous  
BCHD- very difficult to implement many actions from 2018 due to lack of funding and staff to implement actions
- Anonymous  
Some of the actions felt too generic to confirm completion status.

### 3 Public Kickoff Meeting

- Meeting to be held virtually
- Using interactive tools to encourage participation
- Reviewed tentative meeting agenda
  - Welcome
  - Purpose of Meeting
  - What is the DP3?
  - Planning Process
    - 4 Key Components
    - Future Opportunities for Engagement
  - Discussion: How have hazards impacted communities and individuals?
  - Discussion: How do communities and individuals prepare for hazards?
  - Discussion: What support (governmental and non-governmental) is needed to aid communities and

**WHAT ARE THE BENEFITS OF THE DP3?**

Hazard mitigation will help the city prepare for disasters, lessen the impact of disasters when they occur, and help the city recover more quickly after a disaster occurs. Benefits include:

- Identifying actions for risk reduction that are agreed upon by stakeholders and the public.
- Encouraging resources on the ground: state and federal, and building partnerships by involving citizens, organizations, and businesses.
- Increasing education and awareness of threats and hazards, as well as risk levels.
- Communicating priorities to state and federal officials, and engaging the community with other community organizations.

**BALTIMORE CITY DISASTER PREPAREDNESS AND PLANNING PROJECT (DP3)**

**WHAT IS THE DP3?**

The DP3 is a disaster preparedness plan that identifies what hazards may cause damage to the community, assesses the risk of damage, and provides the framework for disaster preparedness and response. The plan also identifies the hazards that cause damage and what actions can be taken to reduce the damage. The plan also identifies the hazards that cause damage and what actions can be taken to reduce the damage. The plan also identifies the hazards that cause damage and what actions can be taken to reduce the damage.

How have hazards impacted communities and individuals?

Open text poll 6 responses 4 participants

- Anonymous: By the way I grew up in Annapolis and we never had tornadoes and now they are happening in this area.
- Anonymous: My neighborhood is walking distance from Fells and clearly heavy precipitation and sea level rise are impacting such areas more
- Anonymous: Certain neighborhoods have really bad basement flooding
- Anonymous: Power outages during extreme weather
- Anonymous: Flooding - street and basements flooding Downed trees during storms
- Anonymous: Extreme heat in the summer can impact health and outdoor activities

6

What support (governmental and non-governmental) is needed to aid communities individuals to prepare, respond, and recover from hazards?

Open text poll 3 responses 2 participants

- Anonymous  
I think more resiliency hubs would be nice. Maybe at the intersection of districts 9,10, and 11
- Anonymous  
I think multiple of mechanisms for warning notifications to enhance preparedness is important. I hope the BMore Alert improvements mentioned are significant. For instance, just went to web page and it looks like they are phone call recording. Messaging and emails should be options.
- Anonymous  
I'm not sure. But I think educating local community organizations so they can share info with the community

7

## Structure

- Infrastructure:** Maintaining the quality and necessary capacity of the built public infrastructure that services our daily needs will ensure public safety and economic security. DP3 includes strategies to protect our energy, wastewater, drinking water, and transportation infrastructure, among others.
- Buildings:** Baltimore has a diverse and extensive collection of buildings in the city, many of which have historical significance. These structures are vulnerable to damage from hazards. Strategies within DP3 improve building design and code to protect against hazards and improve resource conservation.
- Natural Systems:** Natural systems have the potential to be utilized as a mitigation strategy against climate change. DP3 strategies outline utilization of green corridors, preservation of shoreline areas, as well as water supply management tactics
- Public Services:** Disaster preparedness and distribution of resources, information, and response plans is key to ensuring public safety and mitigating tragic consequences associated with hazards. DP3 creates coordinated planning and communication efforts, as well as education and outreach.

3

- Finalized vision and goals for the 2023 DP3.
- Reviewed outreach materials and discussed a variety of social media platforms and offices to reach a wider audience.
  - Everbridge, Facebook groups, Public City meetings, NextDoor, etc.
  - Hard copies distributed to office waiting rooms (ex. BCHD Clinic).
- Public and stakeholder survey was distributed.
- Email template language was provided to HMAAC members to send out surveys to their networks.

**2023 Finalized Vision and Goals**

**Vision:** Baltimore is a resilient city whose daily activities reflect a commitment shared by all people who work, live, and play in the City to reduce or eliminate impacts from current and future natural and human-caused hazards.

**Goal 1:** Ensure the equitable protection of the health, safety and welfare of all people who work, live, and play in the City.

**Goal 2:** Build the resilience of critical government and community functions, including facilities, services, and systems, to reduce or prevent impacts from hazard events.

**Goal 3:** Build resilience and disaster prevention and planning into all programs, policies, and infrastructure (public and private).

**Goal 4:** Enhance the City of Baltimore's adaptive capacity and build institutional structures that can cope with future conditions that are beyond past experience.

**Goal 5:** Promote hazard mitigation and climate adaptation awareness and education throughout the City of Baltimore.

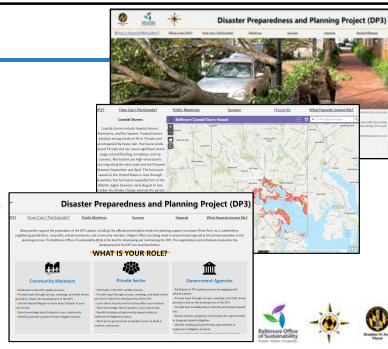

**Goal 6:** Provide support to increase efforts toward a better Community Rating System (CRS) classification.

6

## Story Map

- Interactive public facing plan website
- Explains hazard mitigation and the planning process
- Resource for upcoming public meeting dates and the public survey
- Provides definition and location of hazards of concern
- Community members can search their address to see what hazards they may be impacted by

Follow the link in the meeting chat to look!

7

## Preliminary Survey Results

10

## Outreach Materials

8

In the last five years, which of the following natural hazard events have you experienced in Baltimore City? Check all that apply.

11

## Outreach Materials

9

In the last five years, which of the following manmade hazard events have you experienced in Baltimore City? Check all that apply.

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

<b>Purpose of Meeting:</b>	Core Planning Team Status Meeting	
<b>Location of Meeting:</b>	Teleconference	
<b>Date of Meeting:</b>	June 02, 2023 @ 10:00AM	
<b>Attendees:</b>	<ul style="list-style-type: none"> <li>Kimberly Grove, Baltimore Department of Public Works (Chief, Office of Compliance &amp; Research)</li> <li>Ava Richardson, Baltimore Office of Sustainability (Director)</li> <li>Valerie Rupp, Baltimore Office of Sustainability (Community Grants Program Director)</li> <li>Joanna Birch, Baltimore Office of Sustainability (Floodplain Manager)</li> <li>Tiffany Gamble-Sanchez, Baltimore Office of Emergency Management (Senior Emergency Planner)</li> <li>Quentin Klein-Alfano, Baltimore Office of Sustainability (Intern)</li> <li>Nicholas O'Gara, Baltimore Office of Sustainability (GIS Analyst)</li> <li>JaLeesa Tate, Tetra Tech (Project Manager)</li> <li>Jessica Stokes, Tetra Tech (Planner)</li> <li>Grace Altenburg, Tetra Tech (Planner)</li> </ul>	
<b>Agenda Summary:</b>	The purpose of the meeting was to provide an update on the planning process, debrief the HMAC meeting, showcase the StoryMap and new outreach materials, provide preliminary survey results, and address preparations for the next Public Workshop at the Sustainability Open House.	
Item No.	Description	Action item(s):
1	Welcome	-
2	Status Updates <ul style="list-style-type: none"> <li>Accomplishments to-date:               <ul style="list-style-type: none"> <li>Continuing to conduct risk assessment; sea level rise scenarios have been agreed upon with stakeholder input.</li> <li>StoryMap is complete</li> </ul> </li> <li>Next Steps:               <ul style="list-style-type: none"> <li>Work with stakeholders to obtain geospatial data for hazardous materials facilities.</li> </ul> </li> <li>Surveys:               <ul style="list-style-type: none"> <li>Survey responses are increasing: 62 public responses, 15 stakeholder responses, and 3 neighboring community responses.</li> <li>BoS has deployed hard copy surveys at numerous community-centric locations and participated in tabling events at community events.</li> <li>Anne Arundel and Baltimore Counties have completed neighboring survey; Howard County input is still needed.</li> </ul> </li> </ul>	-

## FEMA Mitigation Categories

- **Local Plans and Regulations (LPR)**
  - These actions include government authorities, policies, or codes that influence the way land and buildings are being developed and built. These actions also include the development of strategic and operational plans which integrate mitigation.
- **Structure and Infrastructure Project (SIP)**
  - These actions involve modifying existing structures and infrastructure to protect them from a hazard or remove them from a hazard area. This could apply to public or private structures, as well as critical facilities and infrastructure. This type of action also involves projects to construct manmade structures to reduce the impact of hazards.
- **Natural Systems Protection (NSP)**
  - These are actions that minimize damage and losses and preserve or restore the functions of natural systems.
- **Education and Awareness Programs (EAP)**
  - These are actions to inform and educate citizens, elected officials, and property owners about hazards and potential ways to mitigate them. These actions may also include participation in national programs, such as StormReady and Firewise Communities.

7

## 2018 DP3 Strategies

### 50 Strategies

- Infrastructure: 22
- Buildings: 10
- Natural Systems: 8
- Public Services: 10

[Baltimore DP3 Strategies - Google Jamboard](#)

10

## 2023 Mitigation Category Recommendation

- **Infrastructure**
  - Actions that minimize damage and loss to critical infrastructure which protects/removes people from a hazard.
    - Includes water systems, transit systems, distribution systems, culverts, sewer systems, dams, and other core critical assets.
- **Buildings**
  - Actions that minimize damage and loss to existing structures that protect people from a hazard.
    - Includes homes, cultural and historical structures, academic institutions, offices, community establishments, religious institutions, and municipal structures.
    - Includes the policies and codes that influence land and building development.
- **Natural Systems**
  - Actions that minimize damage and losses and preserve or restore the functions of natural systems.
    - Includes utilization of green corridors, preservation of shoreline areas, and water supply management tactics.
- **Public Services**
  - Actions to inform and educate people on hazard information and mitigation practices.
    - Includes the development and implementation of strategic and operational plans.
    - Relates to public health and human services in terms of building resources and improving communication.

8

## Review Criteria

We ask that when you review the strategies consider the following questions:

- Provide corrections or recommended deletion of the action. The actions are copied directly from the 2018 DP3, so please let us know any changes to agencies, etc.
- Is the lead agency still the same? If not, can you identify which agency should serve as the lead?
- Is the action still relevant to the agency's work?
- Are there any known changes to the priority of this action? Why or why not?
- Has there been any change in the timeframe (Short, Medium, Long)?
- Has the status of the action changed? Provide reasons for why there was no movement in past five years or lessons learned from progress made (Still pending, Very early stages, Early stages, Mid stages, Advanced, Implemented/Ongoing)?
- Are there performance metrics that were developed and were implemented in the past 5 years?

11

9

12

## Next Steps

- Continue to **assist** with data collection and plan content creation
- Use social media graphics to **inform** the public of the plan update
- **Share** the link to the StoryMap via social media
- Sustainability Open House **June 21<sup>st</sup> at 4:30 p.m.**
- Topics for Next CPT Meeting:
  - Continue review of the 2018 Mitigation Strategies

13

<b>Agenda Summary:</b>		
<b>Item No.</b>	<b>Description</b>	<b>Actions:</b>
1	Welcome	
2	<p>Status Updates</p> <ul style="list-style-type: none"><li>○ Continuing to conduct Risk Assessment, we have our planners writing the basis for the hazard profiles and GIS analysts running hazard scenarios for inclusion in those profiles.</li><li>○ We will have a table at the Sustainability Open House on June 21<sup>st</sup> to showcase the DP3 process. We are developing materials based on comments from our last CPT Meeting, including a disaster jeopardy game, providing copies of surveys for individuals to complete, and utilizing a map so individuals can identify hazard areas they are familiar with. If people have pictures of past hazard events and disasters in the City, please send those to us.</li><li>○ Survey Responses ARE increasing, as of this morning there have been:<ul style="list-style-type: none"><li>• Public: 128</li><li>• Stakeholder: 27</li><li>• Neighboring Community: 4</li></ul></li></ul>	
3	<u>2018 Mitigation Categories</u>	

**Infrastructure**

- Water systems distribution and treatment, schools and municipal buildings, transit systems, and other core assets

**Buildings**

- Homes, cultural institutions, offices, schools and universities, historic landmarks, critical facilities, community establishments, and places of worship

**Natural Systems**

- Trees, streams, vegetation

**Public Services**

- Relating to public health and human services are concerned with distributing information, building resources, improving communication, and establishing response plans

FEMA Mitigation Categories

**Local Plans and Regulations (LPR)**

These actions include government authorities, policies, or codes that influence the way land and buildings are being developed and built. These actions also include the development of strategic and operational plans which integrate mitigation.

**Structure and Infrastructure Project (SIP)**

- These actions involve modifying existing structures and infrastructure to protect them from a hazard or remove them from a hazard area. This could apply to public or private structures, as well as critical facilities and infrastructure. This type of action also involves projects to construct manmade structures to reduce the impact of hazards.

**Natural Systems Protection (NSP)**

- These are actions that minimize damage and losses and preserve or restore the functions of natural systems.

**Education and Awareness Programs (EAP)**

- These are actions to inform and educate citizens, elected officials, and property owners about hazards and potential ways to mitigate them. These actions may also include participation in national programs, such as StormReady and Firewise Communities.

2023 Mitigation Category Recommendation

**Infrastructure**

Actions that minimize damage and loss to critical infrastructure which protects/removes people from a hazard.

- Includes water systems, transit systems, distribution systems, culverts, sewer systems, dams, and other core critical assets.

**Buildings**

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

7	Questions and Discussion	
8	<p>Next Steps</p> <ul style="list-style-type: none"> <li>Continue to <b>assist</b> with data collection and plan content creation</li> <li>Use social media graphics to <b>inform</b> the public of the plan update</li> <li><b>Share</b> the link to the StoryMap via social media</li> <li>Sustainability Open House <b>June 21<sup>st</sup> at 4:30 p.m.</b></li> <li>Topics for Next CPT Meeting:</li> <li>Continue review of the 2018 Mitigation Strategies</li> </ul>	

### Notes from Jamboard

Strategy NS-1: Utilize green corridors and parks to help protect surrounding communities from the impacts of hazard events. (Lead Agency: BCRP)

Strategy NS-2: Increase and enhance the resilience and health of Baltimore's urban forest. (Lead Agency: BCRP, Forestry)

**Aubrey:** this could also include a nod to land trusts like Baltimore greenspace that expand greenspace protection and encourage community stewardship

**Ava:** These strategies are both still relevant to include.

**Elise:** Both strategies are still relevant.

**Jo:** both good strategies. Increasing the amount and size of these spaces also important.

**Rachel:** For NS-2- urban forest and street trees?; emphasize NGO partnerships; emphasize equity components.

**Nick:** Not my area of experience/expertise, but I like Aubrey's comment about fostering community stewardship.

**Kim:** Please include language on managing/ improving the health of the existing forests. There is a lot of emphasis on increasing canopy (new trees), but decreasing loss.

**Valerie:** Both seem relevant. BNS-1 is short term if they remain focused on utilizing the existing system. It could be expanded to be more specific and call of closing the gaps. NS-2: Should expansion of forested areas be included and more buffer or riparian plantings?

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

Strategy NS-3: Create an interconnected network of green spaces to support biodiversity and watershed based water quality management. (Lead Agency: DOP)

Strategy NS-4: Expand, protect, and restore riparian areas in the City. (Lead Agency: DOP)

**Aubrey:** Mention the implementation of the Green Network Plan and other important related plans / regulations - focus NS 4 on maximizing value / effectiveness of existing riparian areas.

**Ava:** NS4 could be more specific. What approaches should we take, how should we prioritize areas? Based on needs, impacted populations?

**Rachel:** NS3 - MD DHCD funding options.

**Valerie:** NS-3 Prioritization would make this more actionable. How does the Green Network Plan feed into this goal? Prioritization of certain areas would make this more actionable. Does the Green Network Plan cover this?

**Kim:** NS-3 feels very similar to NS-1. NS-2 feels very similar to NS-4. Are the only reason for separation the lead agency?

Strategy NS-5: Preserve and create new coastal buffer efforts and support creating more wetlands and soft shoreline along coastal areas. (Lead Agency: DOP)

Strategy NS-6: Require the City's drought management plan to account for changes in climate. (Lead Agency: DPW)

**Aubrey:** NS 6 is more of an IN strategy. NS 5 makes sense but also include what plan / regulatory mechanisms could be implemented to help with this (like CAMP).

**Ava:** NS5 seems like it'd need to include a few other agencies. Not sure who would be most appropriate. Also including WEDG guidelines.

**Elise:** No change recommended.

**Jo:** What about resilience strategies for the already highly developed coast in Baltimore?

**Kim:** Fine to keep.

Strategy NS-7: Integrate climate change and natural hazards planning into small watershed action plans (SWAPs). (Lead Agency: DOP)

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

Strategy NS-8: Conduct detailed ongoing analysis of climate information, trends in storm events, and hydrology to support policy changes responding to climate change. (Lead Agency: DOP)

**Aubrey:** NS 7 and 8 lead agency should be DPW.

**Ava:** NS7 - can we expand to include climate change and natural hazards planning more broadly. Can we be more specific about the types of policies suggested in NS8.

**Kim:** NS-7 CRS needs us to think big, not SWAPS. And why is DOP the lead agency? NS-8, how is DOP doing this now?

**Rachel:** Parts of NS8 related to storm events/hydrology are reliant on state agency actions/updates. May need to hone in more on what Balt City has control over

Strategy PS-1: Strengthen emergency preparedness coordination between local government, NGOs, and private entities by updating the City Emergency Operations Plan (EOP) and related Emergency Support Functions (ESF). (Lead Agency: MOEM)

Strategy PS-2: Develop a Hazard Awareness Program. (Lead Agency: MOEM)

**Aubrey:** Can PS 1 be reversed such that it reads - Incorporate xyz in EOP and ESF updates; PS 2 can incorporate disaster literacy

**Rachel:** should PS2 also be integrated across scales (surrounding local govts, state govt, federal agencies)?

Strategy PS-3: Designate community leaders and organizations that can assist and provide support during hazard events. (Lead Agency: MOEM)

Strategy PS-4: Integrate climate change and natural hazards planning into all City and community plans. (Lead Agency: MOEM)

**Aubrey:** PS 3 and 4 lead agency can likely be DOP; PS 3 can be more geared toward finding and enhancing connections with orgs that are well positioned to provide.

## 2018 DP3 Strategies

### 50 Strategies

- **Infrastructure: 22**
- **Buildings: 10**
- ✓ Natural Systems: 8
- ✓ Public Services: 10

[Baltimore DP3 Strategies - Google Jamboard](#)

8

## Next Steps

- Continue to **assist** with data collection and plan content creation
- Use social media graphics to **inform** the public of the plan update
- **Share** the link to the StoryMap via social media
- Plan to **attend** the In-Person Mitigation Strategy meeting
  - Tentative Date and Time: Wednesday, July 19<sup>th</sup> from 4:30 PM - 6:30 PM
  - Tentative Location: 901 E Fayette St - Aquarium Animal Care Facility
- Topics for Next CPT Meeting:
  - Continue review of the 2018 Mitigation Strategies

11

## Review Criteria

We ask that when you review the strategies consider the following questions:

- Provide corrections or recommended deletions. The strategies are copied directly from the 2018 DP3, so please let us know any changes to agencies, etc.
- Is the lead agency still the same? If not, can you identify which agency should serve as the lead?
- Is the strategy still relevant to the City's work?
- Are there any known changes to the priority of this strategy? Why or why not?
- Are there performance metrics that were developed and were implemented in the past 5 years?

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

<p><b>6</b></p>	<p><b>Mitigation Strategies</b></p> <ul style="list-style-type: none"> <li>• 50 strategies</li> <li>• <b>Infrastructure: 22</b></li> <li>• <b>Buildings: 10</b></li> <li>• Natural Systems: 8</li> <li>• Public Services: 10</li> </ul> <p>○ Questions to consider when reviewing past actions and strategies:</p> <ul style="list-style-type: none"> <li>▪ Provide corrections or recommended deletion of the action. The actions are copied directly from the 2018 DP3, so please let us know any changes to agencies, etc.</li> <li>▪ Is the lead agency still the same? If not, can you identify which agency should serve as the lead?</li> <li>▪ Is the action still relevant to the agency's work?</li> <li>▪ Are there any known changes to the priority of this action? Why or why not?</li> <li>▪ Has there been any change in the timeframe (Short, Medium, Long)?</li> <li>▪ Has the status of the action changed? Provide reasons for why there was no movement in past five years or lessons learned from progress made (Still pending, Very early stages, Early stages, Mid stages, Advanced, Implemented/Ongoing)?</li> <li>▪ Are there performance metrics that were developed and were implemented in the past 5 years?</li> </ul>	<p><b>B-1 Kim Grove:</b> The fire stations and police stations make sense as they are city owned. Hazard protection for private properties, what does that entail?</p> <p>B-1 Ava Richardson: should the strategy be to better track and inform hazard mitigation for those facilities? (ex. Hospitals, etc.)</p> <p><b>B-1 Elise Whiteford:</b> we do not reach out to those facilities on whether they are in the floodplain, etc. We are not requiring them to have flood protection. Is there an initiative to start focusing on this? As of right now we do not have this.</p> <p><b>B-1 Kim Grove:</b> OEM may not be the best for lead agency of this strategy. We should look at those routes (evacuation routes) to get to these facilities (hospitals, etc.) and their prone to flooding. B-2 could be broader as it related to floodplain regulations.</p> <p><b>B-1 Elise Whiteford:</b> we have major flooding on some major roads which affect ambulance travel and traffic which can affect human life.</p> <p><b>Ava Richardson: B-1</b> Conduct educational outreach for city-owned, residential, commercial, and industrial buildings about proper storage and disposal of hazardous materials and heating oil</p> <ol style="list-style-type: none"> <li>2. Require hazardous materials stored in city-owned, residential, commercial, and industrial buildings within the floodplain to be elevated a minimum of 3 feet above the freeboard</li> <li>3. Require new critical facilities to be designed with redundant operating systems</li> <li>4. Require pre-wiring for generators at all facilities designated critical to agency operations and hazard response</li> <li>5. Develop stricter flood regulations for critical facilities</li> <li>6. Coordinate delivery of fuel and/or access to fuel for critical facility emergency generators.</li> </ol> <p><b>B-2</b> Inventory hazard protections for critical facilities including hospitals, fire stations, police stations, hazardous material storage sites, etc. to enhance hazardous materials management practices, flooding protections and energy resilience...</p> <p><b>B-3 Kim Groves: B-3 and B-2</b> can be combined. Only difference between in B-3 is that we are looking at it in terms of climate instead of what we have now. <b>B-4</b> A lot of focus on the floodplain, but we see a lot of inland flooding outside the regulated floodplain. Input from Housing, on the consideration of French drains and floodproofing for basements.</p> <p><b>B-5 Kim Groves:</b> Just like B-1, this is not just city owned properties? Recommend thinking about the projectiles from wind, not just failure of structure but the projectiles (trees, debris, etc.). More language to incorporate this hazard impact.</p>
-----------------	--	---

Brandon M. Scott  
Mayor

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

		<p><b>B-5 Ava Richardson:</b> Anything outside of buildings, other things, that could help to protect these structures? Is there a way to capture wind energy? Wind turbines. Does this help to mitigate the impact of high-speed winds? Is there a way we can leverage high winds?</p> <p><b>B-5 Elise Whiteford:</b> Urban design-wise I think the layout of buildings also has an impact on wind patterns.</p> <p><b>B-7 Aubrey Germ:</b> Is this intended to go above and beyond the regulatory floodplain code? Inconsistent language (flood area vs. floodplain). Do the city schools have a sustainability strategy that came out in the last couple years? <b>Action 2 under B-8</b> should be updated to be relevant to the name of the city school sustainability strategy today.</p> <p><b>B-7, B-8 Kim Grove:</b> inconsistent. Use language like: "including but not limited to..."</p> <p><b>B-7 Ava Richardson:</b> Could we list the funding programs that would apply to these actions? Do we want to prioritize certain properties in the next 5 years? Prioritize repetitive loss properties. Helps to make these actions more specific and actionable.</p> <p><b>B-10 Kim Groves:</b> For the HAZUS modeling, how does this compare to the results that have been recently released by FEMA in RAFT? Maybe recognize that there are more tools available to utilize.</p> <p><b>B-10 Aubrey Germ:</b> Not sure if there is resources and capabilities to do HAZUS in-house. Perhaps more emphasis on publicly available tools.</p> <p><b>B-10 Ava Richardson:</b> Perhaps centralizing some of these tools. Concerns with lack of coordination and could be duplicative.</p>
7	Questions and Discussion	
8	<p>Next Steps</p> <ul style="list-style-type: none"> <li>Continue to <b>assist</b> with data collection and plan content creation</li> <li>Use social media graphics to <b>inform</b> the public of the plan update</li> <li><b>Share</b> the link to the StoryMap via social media</li> </ul>

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

	<ul style="list-style-type: none"> <li>Meeting on Monday, July 17<sup>th</sup></li> <li>Review the Risk Assessment Result</li> <li>Identification of community-focused mitigation actions</li> </ul>	
7	<p>Mitigation Strategies</p> <ul style="list-style-type: none"> <li><b>Infrastructure: 22</b> <ul style="list-style-type: none"> <li>✓ Buildings: 10</li> <li>✓ Natural Systems: 8</li> <li>✓ Public Services: 10</li> </ul> </li> </ul> <p>Questions to consider when reviewing past actions and strategies:</p> <ul style="list-style-type: none"> <li>Provide corrections or recommended deletions. The strategies are copied directly from the 2018 DP3, so please let us know any changes to agencies, etc.</li> <li>Is the lead agency still the same? If not, can you identify which agency should serve as the lead?</li> <li>Is the strategy still relevant to the City's work?</li> <li>Are there any known changes to the priority of this strategy? Why or why not?</li> <li>Are there performance metrics that were developed and were implemented in the past 5 years?</li> </ul>	<ul style="list-style-type: none"> <li>Aubrey – Confused on IN-8. Does not feel like a tangible mitigation action. What level is this identifying more routes?</li> <li>Elise – IN-8 would be DOT as lead agency. OEM and police would support them.</li> <li>Aubrey- helpful things to have, how to be prepared in an evacuation. What are the components that could be tailored to the citizens.</li> <li>Ava – I could see how this could be a risk mitigation approach. Prioritizing evacuation routes for future. Could have serious resilience implications.</li> <li>Ava – was there plans to update one of the tunnels? Howard Street tunnel. How that development is being leveraged.</li> <li>Ava – maybe related to working with the planning commission. Not sure if planning department has powers to acquire, etc. Okay to keep these lead agencies as is, as most of these projects are federally funded and the actions are very specific.</li> <li>Aubrey – IN 11 – evaluate is not really an actionable word to use here, suggest promote, incorporate, implement. Etc.</li> <li>More specific with the strategies IN 11.</li> <li>Aubrey - #8 in actions, should be further reviewed.</li> <li>Jessica – the building codes could all be rolled into one action.</li> <li>Aubrey – broad strategy. Maybe add prioritizing nature-based solutions, rather than promoting additional hardening of the coast.</li> <li>Ava – for the actions under IN 12, could be good to mention other projects 'inner harbor development' etc. Give more specifics for these actions.</li> </ul>

Brandon M. Scott  
Mayor

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

		<ul style="list-style-type: none"> <li>• Aubrey – IN 14 actions don't mention energy. Is this something that should be included?</li> <li>• Ava – maybe it would be good to include energy in the strategy and not in the actions.</li> <li>• Ava – What are the trade offs that we are willing to accept? Consistency across the programs and initiatives (IN 17 – 19).</li> <li>• Ava – Is it helpful, when we are mentioning trees, to mention other vegetations. IN case there are limitations for trees. Our goals are biodiversity, not just trees, but other vegetation. We should acknowledge this.</li> <li>• Ava – 21 and 22 are critical. 22 we should talk with the capital budgets team, it is a huge opportunity to leverage that investment every year for mitigation. Maybe making this more specific. Too broad in terms of providing a list of preventions that can be incorporated into projects.</li> </ul>
8	Questions and Discussion

## Sections 4. – 11. Hazard Profiles

- Hazard Description
- Location
- Extent
- Previous Occurrences and Losses
- Probability of Future Events
- Potential Impacts of Climate Change
- Vulnerability Assessment
  - Impacts to Population
    - Socially Vulnerable Populations and Underserved Communities
  - Impacts to Structures
    - Critical Facilities, Infrastructure, and Community Lifelines
  - Impacts to the Economy
  - Impacts to Natural, Historic, and Cultural Resources
  - Future Changes that May Impact Vulnerability
    - Changes in Land Use and Development, Population, Climate Change
  - Change in Vulnerability Since 2018 DP3

13

13

## Section 14. Plan Implementation and Maintenance

- Adoption
- Plan Maintenance
- Monitoring, Evaluating, and Updating the DP3
- Integrating the DP3 into City Planning Mechanisms

16

16

## Section 12. Capability Assessment

- Overview of the existing tools, resources, programs, policies, etc. that the City currently has in place to implement hazard mitigation and build resilience.
- Includes the following for each identified capability:
  - Description
  - Responsible Agency
  - Funding to Support Hazard Mitigation
  - Hazards Addresses

14

14

## Section 15. Moving Forward

- Introduction
- Community Resilience Recommendations
- Food Resilience Recommendations
- Integration of Cultural and Historic Resources Recommendations
- Conclusion

17

17

## Section 13: Mitigation Strategy

- Vision and Goals
- Progress on Previous Plan
- Mitigation Action Identification
- Mitigation Action Plan
- Mitigation Strategy Evaluation and Prioritization

15

15

## FEMA Approval Process

18

18

## FEMA Approval + City Adoption Process

- Draft DP3 Public Comment Period
  - Planning Commission comments
  - Sustainability Commission comments
  - City agency and other stakeholder comments
  - Regional partner comments
  - Community comments
  - State (MDEM) Review comments
- Incorporation of feedback to create Draft #2
- FEMA Review of Draft #2: 45 Days
- Incorporation of FEMA feedback to create Final DP3
  - FEMA will grant the plan 'Approvable Pending Adoption' status, meaning FEMA will approve the plan once it has been locally adopted.
- Presentation of Final DP3 to Sustainability Commission
  - November meeting
  - Affirmative vote
- Presentation of Final DP3 to Planning Commission
  - November 30<sup>th</sup> meeting
  - Affirmative vote
  - PC Signs Adoption Resolution
- Resolution is submitted to FEMA and FEMA grants final approval.
- **Note: the 2018 DP3 expires December 20, 2023**

19

19

## Draft DP3 Public Comment Period

- Public Comment Period **August 11 - Sept 11<sup>th</sup>**
- Available on the Konveio Public Comment platform
  - <https://baltimoreplanning.konveio.com/>
- Need to create free user account
- Will be able to comment directly in the plan documents
- Each chapter posted separately for easier navigation

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

<b>Purpose of Meeting:</b>	Core Planning Team Review Meeting	
<b>Location of Meeting:</b>	Teleconference	
<b>Date of Meeting:</b>	August 11, 2023 @ 10:00AM	
<b>Attendees:</b>	<ul style="list-style-type: none"><li>• Kimberly Grove, Baltimore Department of Public Works (Chief, Office of Compliance &amp; Research)</li><li>• Ava Richardson, Baltimore Office of Sustainability (Director)</li><li>• Valerie Rupp, Baltimore Office of Sustainability (Community Grants Program Director)</li><li>• Joanna Birch, Baltimore Office of Sustainability (Floodplain Manager)</li><li>• Tiffany Gamble-Sanchez, Baltimore Office of Emergency Management (Senior Emergency Planner)</li><li>• Quentin Klein-Alfano, Baltimore Office of Sustainability (Intern)</li><li>• Nicholas O'Gara, Baltimore Office of Sustainability (GIS Analyst)</li><li>• Rachel Whiteheart, DOP.</li><li>• Sandra Moyer, DOP. (Planner)</li><li>• JaLeesa Tate, Tetra Tech (Project Manager)</li><li>• Jessica Stokes, Tetra Tech (Planner)</li><li>• Grace Altenburg, Tetra Tech (Planner)</li></ul>	
<b>Agenda Summary:</b>		
<b>Item No.</b>	<b>Description</b>	<b>Notes:</b>
1	Welcome and Status Updates	<ul style="list-style-type: none"><li>• Next steps are to review the plan and provide comment.</li></ul>
2	Mitigation Strategy Workshop	<ul style="list-style-type: none"><li>• <b>Kim Groves:</b> On EV charging: what was being discussed at the meeting was the transition to an EV fleet, to consider a backup source for EV charging stations. Ex.: Portable EV stations, with a propane fuel source, etc.<ul style="list-style-type: none"><li>◦ <b>JaLeesa Tate:</b> the plan captures this element and transition as well!</li></ul></li><li>• <b>JaLeesa Tate:</b> This workshop was also a great opportunity for partner building and networking.</li><li>• <b>Kim Grove:</b> Are these just capital projects, or can this portfolio also include operational program enhancements, governance structuring / re-structuring (like regional coordination groups), or policy development.</li></ul>

Brandon M. Scott  
Mayor

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

<p><b>3</b></p>	<p>Review the Draft DP3 Plan</p> <ul style="list-style-type: none"> <li>• Notable Changes</li> <li>• 2023 Framework</li> <li>• Section 1: Intro</li> <li>• Section 2: City Profile</li> <li>• Section 3: Risk Assessment</li> <li>• Section 4-11 Hazard Profiles</li> <li>• Section 12: Capability Assessment</li> <li>• Section 14: Implementation and Maintenance</li> <li>• Section 15: Moving Forward</li> <li>• FEMA Approval Process</li> <li>• Public Engagement</li> </ul>	<ul style="list-style-type: none"> <li>• <b>Kim Grove:</b> How is this changing with the update? How will the sub-cabinet be included? (Section 14). <ul style="list-style-type: none"> <li>○ <b>Ava Richardson:</b> Valeria Rupp and I are working on how to incorporate the working groups, and we need to figure out how to operationalize this moving forward. We will be hiring a middle position to manage the climate relevant projects and infrastructure and development in south Baltimore. We still need to figure this out in terms of capacity for each group.</li> <li>○ <b>Kim Grove:</b> For the portfolio of projects, I would recommend to not limiting it to just capital projects, but also government restructuring ex. Sub-cabinet. Policy development also should be considered, ex. Policies to be developed for when disasters strike, we have the mechanisms in place for emergencies.</li> <li>○ <b>Ava Richardson:</b> We do not have full details on the federal funding to be captured, but we talked about the resilience authority. We will have to do a study as a City, which will look more into this: resilience authority/government structure. This study will be completed to reflect and show these needs/capabilities for the City.</li> <li>○ <b>JaLeesa Tate:</b> Make sure to make these comments on the plan during review so we can fully capture and integrate this specific information into the DP3.</li> </ul> </li> <li>• <b>Kim Groves:</b> How is the public comment period being advertised? I have not seen any emails yet. <ul style="list-style-type: none"> <li>○ <b>JaLeesa Tate:</b> we will provide the social media graphics and also emails will go out. The actual public comment period is being run through the Konveio platform. We will be uploading it in individual chapters.</li> </ul> </li> </ul>

- 3. DP3 Draft Review and Comment Recap**
- 4. Questions and Discussion**
- 5. Next Steps**

1

4

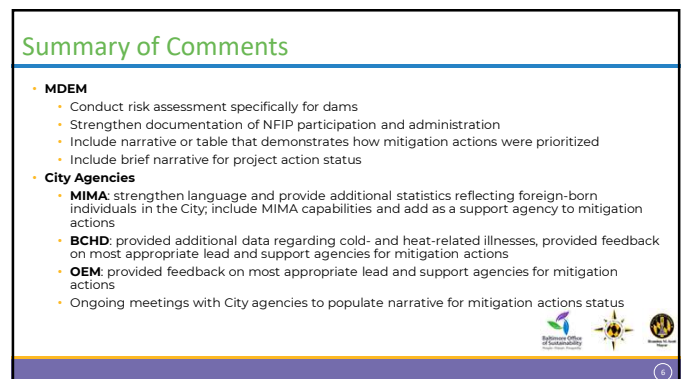

2

5

3

6

## Summary of Comments

- Introduction and City Profile
  - Expand language regarding the importance and prioritization of green infrastructure, nature-based solutions, and biodiversity.
  - Expand on the City's history to reflect how historic discriminatory practices have contributed to present day inequities and increased vulnerability
  - Add language that recognizes disparities surrounding food and shelter.
- Risk Assessment and Hazard Profiles
  - Include discussions regarding air quality
  - Expand on events detailed in hazard materials releases
- Mitigation Strategy
  - Recommendations for new actions
  - Provide status updates on actions deemed high priority but delayed or no progress.

7

7

## Questions and Discussion

**Disaster Preparedness and Planning Project (DP3)**

Hazard Mitigation Advisory Kickoff Meeting

Participate in activities via [slido.com](https://slido.com) with code #DP3

1

### HMAC Meeting Purpose

- **Kickoff the planning process** for Baltimore's Disaster Preparedness and Planning Project (DP3).
  - Traditionally a hazard mitigation plan detailing the City's risk to natural hazards
  - Adding human-caused hazards to this update
- **Introduce** the planning process and **obtain preliminary feedback** on plan content.
- The Hazard Mitigation Advisory Committee (HMAC) serves to **provide input and guidance** on the development of the DP3 and advises the planning team on community needs and concerns.
  - Comprised of City representatives, stakeholders, non-profits, and private sector.
  - FEMA requirement to have stakeholders involved.

2

### Intro to Tetra Tech

- Carryout the overall planning process
- Provide technical support and subject matter expertise
- Develop outreach and engagement materials
- Facilitate meetings
- Draft and finalize the DP3

**JaLeesa Tate, CFM**  
Senior Community Resilience Professional  
[jaleesa.tate@tetratech.com](mailto:jaleesa.tate@tetratech.com)

**Jessica Stokes, MSEM, NJCEM**

4

**Hazard Mitigation and Planning Overview**

Mitigation planning happens before a disaster strikes. It results in safer, more resilient communities – reducing risk for the residents, businesses, and critical services in Baltimore City.

5

### Hazard Mitigation

Mitigation is a sustained action taken to reduce or eliminate long-term risk to life and property from a hazard event.

“...provides the blueprint for reducing the potential losses identified in the risk assessment, based on existing authorities, policies, programs and resources, and local ability...” (CFR).

6

## Hazard Mitigation

Mitigation saves \$6 for every \$1 spent on average. Maryland can save up to \$100 million in benefits.

National Benefit-Cost Ratio Per Peril <small>*100 numbers in this study have been rounded</small>	
<b>Overall Hazard Benefit-Cost Ratio</b>	<b>6:1</b>
<b>Riverine Flood</b>	<b>7:1</b>
<b>Hurricane Surge</b>	<b>Too few events</b>
<b>Wind</b>	<b>5:1</b>
<b>Earthquake</b>	<b>3:1</b>
<b>Wildland-Urban Interface Fire</b>	<b>3:1</b>

Source: National Institute of Building Sciences

7

## Hazard Mitigation Planning

- Authorized by the Disaster Mitigation Act of 2000
- Provides an overview of the impacts of natural hazards on communities
- Provides a roadmap to reducing the impact of these hazards
- Requires a FEMA-approved natural hazard mitigation plan to be eligible for pre-disaster mitigation funding
- 5-year updates required to maintain eligibility

8

## FEMA Hazard Mitigation Assistance Funded Project

### Middle Branch Resiliency Initiative, Stage 1 – \$31.92 Million

- Green infrastructure to protect against flooding and SLR
- Increases the resilience of the Baltimore Gas and Electric Company's (BGE) Spring Gardens site and MedStar Harbor Hospital site.
- Benefits 410,000 nearby residents; customers of the BGE Spring Gardens facility and MedStar Harbor Hospital; and employees who work at both sites—representing 21% of the total population of Baltimore City and Baltimore and Anne Arundel counties.

9

## Hazard Mitigation Planning in Baltimore

2013 and 2018 DP3 Updates:

- Build off one another
- Geared toward natural hazards
- Identify not just mitigation but also adaptation solutions

DP3 Goals:

- Protect the health, safety, and welfare** of Baltimore City residents and visitors
- Prevent damage** to structures, infrastructure, and critical facilities
- Build resilience and disaster prevention** and planning into all programs, policies and infrastructure
- Enhance the city's adaptive capacity** to cope with future conditions
- Promote hazard mitigation and climate adaptation **awareness and education**
- Become an even **higher rated Community Rating System (CRS)** classified community

10

## 2018 DP3 Recommendations for Moving Forward

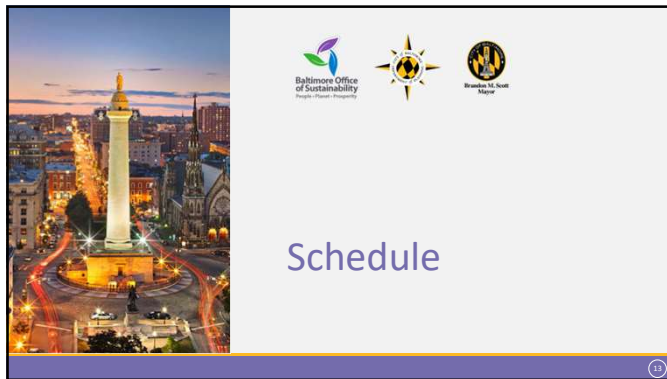

- Continue planning efforts centered on increasing community resilience, including ongoing formalization and expansion of Resiliency Hubs.
- Use community resilience initiatives to address varying regional concerns.
- Broaden public outreach and engagement efforts to include greater representation from all Baltimore neighborhoods and communities in planning efforts.
- Introduce solutions-oriented public engagement practices designed to solicit community-driven solutions.

11

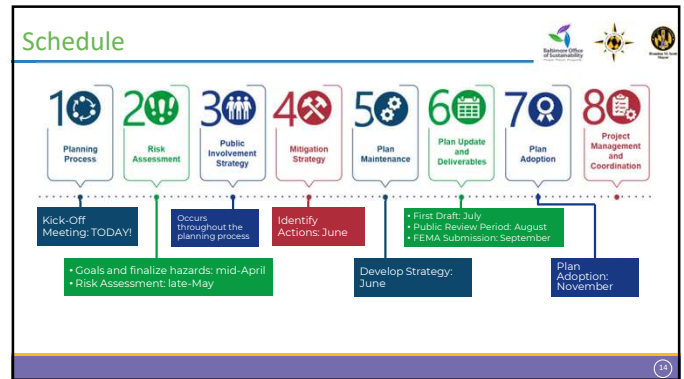

## 2018 DP3 Recommendations for Moving Forward

- Determine a strategy for incorporating information on vulnerable populations collected during the development of this plan.
- Use public feedback to identify vulnerable populations and specify vulnerable populations to the greatest extent possible.
- Develop criteria and a strategy for integrating man-made hazards into the next DP3 with input from the public at the outset.
- Integrate food resilience into mitigation and preparedness efforts.
- Integrate Historic and Cultural Resources Hazard Mitigation Strategy.

12

13

14

15

16

### Role of Stakeholder Groups

- Core Planning Team (CPT)** serves as the discipline leads to guide the development of the DP3. The CPT will meet to discuss project status, troubleshoot any issues, inform the development of HMAC and public meeting materials, and review drafts.
- Hazard Mitigation Advisory Committee (HMAC)** composed of stakeholders across disciplines and community leaders. Provides input and guidance on the development of the DP3 advises the CPT on community needs and concerns to ensure community representation and inclusion in the planning process.
  - Social Equity Subcommittee** prioritizes representation from socially vulnerable populations within the City as well as other key stakeholders identified through the planning process. This includes representatives from individual community members and Resilience Hub leaders.
- Community Stakeholders and General Public** may be businesses, private citizens, community organizations, etc. Provides a direct opportunity for engagement and inclusion in the planning process.

17

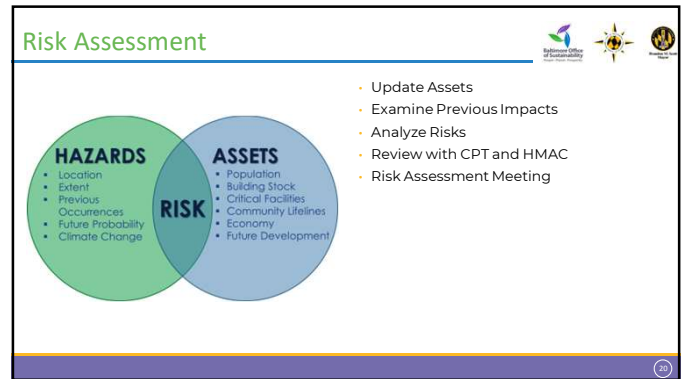

### HMAC Responsibilities

- Actively participate throughout the process –
  - Provide guidance and leadership throughout the planning process
  - Contribute, review, and provide feedback on plan sections
  - Advise the CPT on community needs and concerns
  - Attend meetings
  - Involve the public in the planning process
  - Identify mitigation actions for your communities
  - Help implement the plan and monitor its progress

January 2018 - December 2022	
Hazard	Occurrences
Derecho	0
Drought	0
Extreme Heat	4
Flood/Flash Flood	12
Land Subsidence	0
Nor'easter	0
Sea Level Change	0
Tornado	1
Tropical Storm/Hurricanes	0
Urban Karst/Sinkhole	0
<b>TOTAL</b>	<b>17</b>

24

## Updating the Hazards of Concern

- Looking at the hazards included in the 2018 plan...
  - Have additional hazards impacted the City since 2018?
  - Have hazards been mitigated and no longer cause damage?
  - Should additional hazards be included?
- How have hazards affected the City?
- Where are your problem areas?

25

## Critical Facilities and Community Lifelines (Assets)

- Critical Facilities** provide essential services to the community, especially before, during, and after a disaster.
- Community Lifelines** provide services that allow continuity of operations of critical business and government functions, and crucial to health and safety of residents.

26

## Critical Facilities and Community Lifelines (Assets)

|---|---|

30

**Engagement Strategy**

The slide features the Baltimore Office of Sustainability logo, the Baltimore City logo, and the Baltimore Mayor's Office logo. On the left, there are three small images of people holding signs that say "#sustainbme", "Baltimore sustainability", and "local equity".

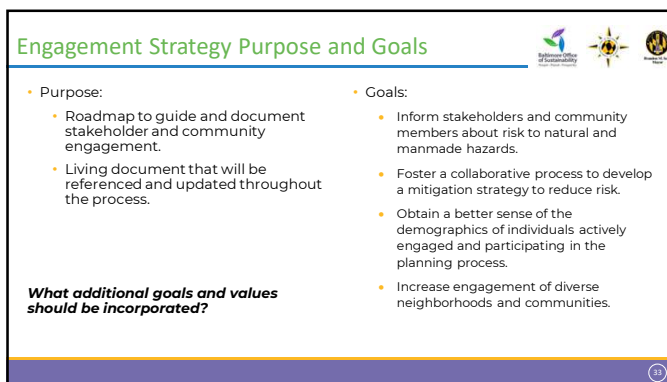

31

**Engagement Priorities**

- Two-way communication
  - A forum to provide updates on the status of the plan, but also receive information to guide the development and vision of the plan
  - Identify opportunities for 1-on-1 engagements and focus groups
- Schedule early and often
  - Identify times and days that will work for the targeted audience; maintain contact throughout the process
- Meaningful Participation
  - Communicate the role of each sector in the mitigation process; recommend who should be represented for each meeting
  - Provide information in multiple formats to accommodate varying learning styles
  - Leverage opportunities for integration

32

**Engagement Strategy Purpose and Goals**

- Purpose:
  - Roadmap to guide and document stakeholder and community engagement.
  - Living document that will be referenced and updated throughout the process.
- Goals:
  - Inform stakeholders and community members about risk to natural and manmade hazards.
  - Foster a collaborative process to develop a mitigation strategy to reduce risk.
  - Obtain a better sense of the demographics of individuals actively engaged and participating in the planning process.
  - Increase engagement of diverse neighborhoods and communities.

*What additional goals and values should be incorporated?*

33

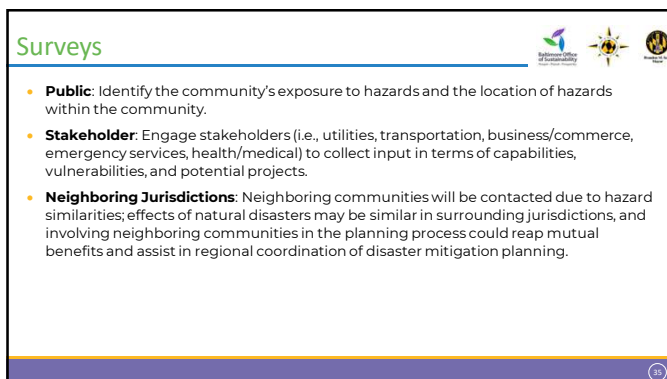

**Engagement Methods**

- Baltimore Office of Sustainability Website
- StoryMap (Interactive Website)
- Social Media
- Surveys
- Email
- Group Presentations

The slide includes two images: one of a "BALTIMORE CITY Disaster Preparedness and Planning Project (DP3) UPDATE" poster and another of a "BALTIMORE CITY Disaster Preparedness and Planning Project (DP3) UPDATE" poster with a QR code and the text "TAKE THE SURVEY".

34

**Surveys**

- **Public:** Identify the community's exposure to hazards and the location of hazards within the community.
- **Stakeholder:** Engage stakeholders (i.e., utilities, transportation, business/commerce, emergency services, health/medical) to collect input in terms of capabilities, vulnerabilities, and potential projects.
- **Neighboring Jurisdictions:** Neighboring communities will be contacted due to hazard similarities; effects of natural disasters may be similar in surrounding jurisdictions, and involving neighboring communities in the planning process could reap mutual benefits and assist in regional coordination of disaster mitigation planning.

35

**Developing Mitigation Strategy**

The slide features the Baltimore Office of Sustainability logo, the Baltimore City logo, and the Baltimore Mayor's Office logo. On the left, there is a large image of a city skyline at sunset.

36

## Capability Assessment and Mitigation Strategy

- Capabilities
  - What does your organization have to reduce risk to hazards?
- Goals
  - What outcomes do you want to achieve?
- Actions
  - What specific actions will be taken to reduce hazard risk?
- Action Plan
  - How will the actions be prioritized and implemented?

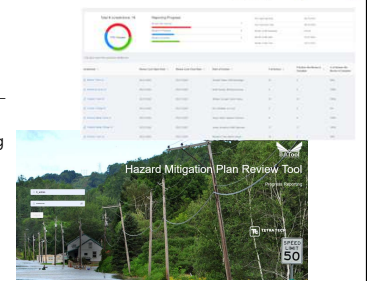

37

## Review of 2018 Mitigation Strategy

### Baseline Assessment Tool (BATool<sup>SM</sup>) Program

- Update the 2018 mitigation actions through the BATool<sup>SM</sup> – less paperwork!
- Refresher training for planning partners
- Populate 2023 mitigation actions

38

slido

What steps have you taken to implement the 2018 DP3 actions?  
What challenges did you experience? (Include organization)

Start presenting to display the poll results on this slide.

39

What steps have you taken to implement the 2018 DP3 actions? What challenges did you experience? (Include organization)

Open text poll 3 responses 3 participants

- Anonymous  
MDEM was likely party of the review process before the plan went to FEMA
- Anonymous  
BCHD- very difficult to implement many actions from 2018 due to lack of funding and staff to implement actions
- Anonymous  
Some of the actions felt too generic to confirm completion status.

40

## Next Steps

## Next Steps

- Participate in surveys
- Participate in Public Kickoff meeting **tentatively May 2, 2023 at 6:00 p.m.**
- Prepare to provide status update on 2018 DP3 Actions
- Assist with data collection and plan content creation
- Next HMAc meeting **May 2, 2023 at 3:00 p.m.**

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

<b>Purpose of Meeting:</b>	Hazard Mitigation Advisory Committee Kick-Off Meeting		
<b>Location of Meeting:</b>	Teleconference		
<b>Date of Meeting:</b>	April 04, 2023 @ 3:00 P.M.		
<b>Attendees:</b>		<b>Name</b>	<b>Title</b>
	x	Al Frenette	Protective Security Advisor
	x	Alice Huang	Acting Assistant Commissioner, Community Services
	x	Aliyah Russell	Project Officer
	x	Allison Blood	Healthy Harbor Program Manager
	x	Amy Gilder-Busatti	Environmental Planner and Landscape Architect
	x	Angela McCauley	Emergency Services Manager
	x	Anthony Scott	Associate Director of Project Management
	x	Antoine Smith	Office of Emergency Response and Preparedness
	x	Aubrey Germ	Climate and Resilience Planner, BoS
	x	Ava Richardson	Director, Baltimore Office of Sustainability (BoS)
	x	Benjamin Zaitchik	Earth and Planetary Sciences Professor
	x	Brad Rogers	Executive Director
	x	Brandi Welsh	Community Program Liaison
	x	Bridget Cantwell	Hazard Mitigation Planner
	x	Bruna Attila	Coastal Planner, BoS
	x	Candisse Bennett-Parker	Director
	x	Chaya Deitsch	Director of Emergency Management
	x	Christopher Hepler	Construction Project Supervisor II
	x	Cindy Hudson	Environmental Manager
	x	Dan Coy	Chief of Forestry
	x	Danielle Gooden	Governmental and External Affairs Manager
	x	Eileen Singleton	Principal Transportation Engineer
	x	Elise Whiteford	Planning Section Chief
	x	Eric Booker	Deputy Commissioner, Housing Code Enforcement and Emergency Operations
	x	Graham Young	Project Manager
	x	Herman Guadalupe	Engineer Supervisor
	x	JaLeesa Tate	Project Manager
	x	Jamie Williams	City Planner Supervisor
	x	Jess Henson	Senior Director Risk and Safety
	x	Jessica Stokes	Outreach Lead
	x	Joanna Birch	Floodplain Manager, BoS
	x	Joshua Norris	Hazard Mitigation Planner
	x	Joy Hatchette	Associate Commissioner for Consumer Education and Advocacy
	x	Julia Kalloz	Energy Division Chief
	x	Justin Elszasz	Chief Data Officer
	x	Kay Webster	Deputy Director, Office of Public Health Preparedness and Response (OPHPR)
	x	Kendra Moore	Recreation Manager South District
	x	Kevin Kearney	Chief Information Security Officer
	x	Kevin Ryan	HazMat Tech
	x	Kim Eshleman	Director, OPHPR
	x	Kimberly Grove	Chief, Office of Compliance and Research
	x	Kyle Leggs	City Planning Supervisor
	x	Larysa Salamacha	Managing Director

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

x	Lauren Schiszik	Historic Preservation Planner, Commission for Historical and Architectural Preservation (CHAP)	DOP
x	Lindsay Adams	Food Resilience Planner	DOP
x	Marwan Alkarajat	Chief, Capital Projects and Energy Division	DGS
x	Masuma Islam Lonczak	Mayor's Office of Immigrant Affairs	Mayor's Office
x	Matt Piechocki	Senior Emergency Preparedness Administrator	BGE
x	Michelle Smith	Preparedness Section Chief	OEM
x	Michelle Smith	Preparedness Section Chief	OEM
x	Natasha Neale	Community Program Liaison	ECB
x	Nicholas O'Gara	GIS Analyst	DOP
x	Ron Rego	Cybersecurity Engineer	InfoSec / BCIT
x	Scott Brillman	Acting Deputy Director	OEM
x	Shelly Smith	Preparedness Section Chief	OEM
x	Stacy Montgomery	Historic Preservation Planner Supervisor, CHAP	DOP
x	Tara Josberger	Climate Outreach Intern, BoS	DOP
x	Tavon Braxton	Deputy Director of Operations	Department of Transportation (DOT)
x	Theresa Wilson	Operations Officer III	DPW
x	Tom Jugan	Detective	Baltimore Police Department (BPD)
x	Toya Sykes-Coates	Chief of Solid Waste Administration	DPW
x	William Ethridge	City Planner II	DOT
x	Yolanda Cason	Operations Manager I, Solid Waste	DPW
x	Yosef Kebede	Bureau Head, Water and Wastewater	DPW
x	Yvonne Moore-Jackson	Bureau Head, Solid Waste	DPW

**Agenda Summary:** The purpose of the meeting was to introduce the concept of Hazard Mitigation Planning and the Planning Process, review the schedule, assist in the understanding of roles and responsibilities, provide an explanation of conducting the Risk Assessment, explain the DP3 Engagement Strategy, describe the development of the Mitigation Strategy, and give an Overview of next steps to the Hazard Mitigation Advisory Committee (HMAC).

### HMAC #2 Meeting Purpose

- **Discuss** the status of the planning process for Baltimore's Disaster Preparedness and Planning Project (DP3).
  - Where we currently are in the process.
- **Finalize** the hazards of concern and any hazard groupings.
- **Evaluate** five of the 2018 mitigation actions.
  - Provide input on action status, update wording, decide on whether to continue the actions provided.
  - This activity will serve as a guide to assist HMAC members with updating their 2018 mitigation actions.

12

## Evaluating Mitigation Actions

13

## Evaluating Mitigation Actions

IN-3: Ensure backup power generation for critical facilities and identified key infrastructure during power outages

- Implementation Actions:
  1. Investigate off-grid, on-site renewable energy systems, generators, and technologies for critical facilities to ensure redundancy of energy systems
  2. Seek funding to purchase and install generators for all city buildings designated as critical to agency functions
  3. Evaluate and ensure backup power generation is available to healthcare facilities (nursing homes, critical care facilities, hospitals, etc.)
- Lead Agency (Actions 1 & 2): DGS
- Lead Agency (Action 3): MDH
- Stakeholders: DGS, DOP, DOT, DPW, MOEM

14

## Evaluating Mitigation Actions

IN-6: Evaluate and improve resiliency of communication systems that are in place for sudden extreme weather events

- Implementation Actions:
  1. Utilize new technologies such as fiber optics, external hook-ups, and mobile generators to improve resiliency
  2. Evaluate, improve and build redundancy into all public and inter-agency warning and communication systems
  3. Identify best practices for the installation and management of floodproofing for all communication infrastructure at risk of water damage
  4. Implement additional nurse triage phone lines and community health centers to reduce medical surge on hospitals
  5. Ensure continued operation of City government's various computer mainframes for email, control systems, and internet service by having stand-by batteries for each with a capacity sufficient for backup generation to operate
- Lead Agency (Action 1): Mayor's Office of Digital Equity
- Lead Agency (Action 2 & 3): OEM
- Lead Agency (Action 4): MDH
- Lead Agency (Action 5): MOIT
- Stakeholders: BGE, DOT, Energy Office, FCC, BCIT, Private Entities, PSC, BCPD, BCFD, MOEM

15

## Evaluating Mitigation Actions

NS-2: Increase and enhance the resilience and health of Baltimore's urban forest. Baltimore's urban forests and trees offer countless environmental benefits but are vulnerable to climate change-related impacts and hazards, including storm surge, wind, and changes in average temperatures. Increasing Baltimore's tree canopy will improve stormwater management, increase air quality and reduce impacts from the urban heat island.

- Implementation Actions:
  1. Anticipate the impacts of future changes in temperature and weather on the urban forest by developing a comprehensive list of plant and tree species known to have a broad range of environmental tolerances
  2. Establish and routinely update a comprehensive tree inventory to anticipate insect and forest structural impacts of climate change
  3. Establish a comprehensive maintenance program that includes pruning for sound structure and the removal of hazardous limbs and trees. First focus on areas where vulnerable infrastructure is nearby such as energy supply and roads
  4. Continually adjust and modify planting details and specifications to assure the health and longevity of trees
  5. Increase the urban tree canopy and target areas with urban heat island impacts
- Lead Agency: Forestry
- Stakeholders: BCRP, BGE, Community Groups, DOP, DOT, DPW, MDNR, NGOs

16

## Evaluating Mitigation Actions

PS-6: Anticipate and address potential disease outbreaks caused by extreme weather events and changing climatic conditions.

- Implementation Actions:
  1. Support studies of heat- and flood-related vector-borne diseases in the Baltimore region based on changing temperature and moisture
  2. Evaluate existing programs that detect disease outbreaks to determine their flexibility to respond to new conditions
- Lead Agency: BCHD
- Stakeholders: BCHD, CDC, DHMH, MDE, State Agencies

17

## Evaluating Mitigation Actions

B-3: Strengthen City zoning, floodplain and construction codes to integrate anticipated changes in climate

- Implementation Actions:
  1. Review zoning code and strengthen language (where necessary) in order to better protect citizens and increase resiliency in buildings
  2. Review and amend existing building and floodplain regulations to require more flood-resistant new and existing structures when located in the floodplain
  3. Utilize open space category in zoning code to protect sensitive areas (stormwater sites, steep slopes, floodways, etc.)
  4. Review and increase Flood Protection Elevation (Base Flood Elevation + Freeboard) standards to the highest available State, Federal or local elevation level
  5. Evaluate and update stormwater management regulations to avoid increases in downstream flooding
  6. Adopt design requirements that include wet and dry floodproofing techniques
  7. Review and consider adoption of the International Green Construction code
- Lead Agency (Actions 1-6): DOP
- Lead Agency (Action 7): HCD
- Stakeholders: BDW, City Government, Community Groups, DHCD, DGS, DPW, NAHB, NGOs, MDE, Private developers, Private landowners

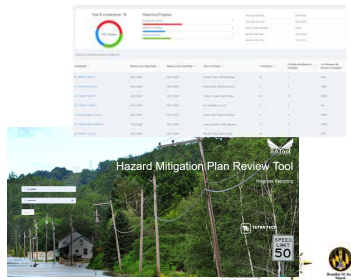

18

## Review of 2018 Mitigation Strategy

### Baseline Assessment Tool (BATool<sup>SM</sup>) Program

- Update the 2018 mitigation actions through the BATool<sup>SM</sup> – less paperwork!
- Training for HMAC
- Populate 2023 mitigation actions
- Lead agencies to evaluate actions

19

## Next Steps

20

## Next Steps

- Complete Hazards of Concern survey by **this Friday, May 5**
- **Review** BATool instructional video on Youtube
  - To be distributed via email
  - Can offer a virtual training – this would be open to all HMAC members
- **Evaluate** 2018 mitigation actions using the BATool
- Continue to **assist** with data collection and plan content creation
- Next HMAC meeting **to be announced via email**

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

<b>Purpose of Meeting:</b>	Hazard Mitigation Advisory Committee Meeting #2		
<b>Location of Meeting:</b>	Teleconference		
<b>Date of Meeting:</b>	May 02, 2023 @ 2:00 P.M.		
<b>Attendees:</b>		<b>Name</b>	<b>Title</b>
	X	Al Frenette	Protective Security Advisor
		Alice Huang	Acting Assistant Commissioner, Community Services
		Aliyah Russell	Project Officer
		Allison Blood	Healthy Harbor Program Manager
		Amy Gilder-Busatti	Environmental Planner and Landscape Architect
	X	Angela McCauley	Emergency Services Manager
		Anthony Scott	Associate Director of Project Management
	X	Antoine Smith	Office of Emergency Response and Preparedness
	X	Aubrey Germ	Climate and Resilience Planner, BoS
		Ava Richardson	Director, Baltimore Office of Sustainability (BoS)
	X	Benjamin Zaitchik	Earth and Planetary Sciences Professor
	X	Bonnie Sorak	
		Brad Rogers	Executive Director
	X	Brandi Welsh	Community Program Liaison
	X	Bridget Cantwell	Hazard Mitigation Planner
	X	Bruna Affila	Coastal Planner, BoS
		Candisse Bennett-Parker	Director
		Chaya Deitsch	Director of Emergency Management
		Christopher Hepler	Construction Project Supervisor II
		Cindy Hudson	Environmental Manager
		Dan Coy	Chief of Forestry
		Danielle Gooden	Governmental and External Affairs Manager
	X	Eileen Singleton	Principal Transportation Engineer
		Elise Whiteford	Planning Section Chief
		Eric Booker	Deputy Commissioner, Housing Code Enforcement and Emergency Operations
	X	Graham Young	Project Manager
		Herman Guadalupe	Engineer Supervisor
	X	JaLeesa Tate	Project Manager
		Jamie Williams	City Planner Supervisor
		Jess Henson	Senior Director Risk and Safety
	X	Jessica Stokes	Outreach Lead
		Joanna Birch	Floodplain Manager, BoS
		Joshua Norris	Hazard Mitigation Planner
	X	Joy Hatchette	Associate Commissioner for Consumer Education and Advocacy
	X	Julia Kalloz	Energy Division Chief
		Justin Elszasz	Chief Data Officer
	X	Kay Webster	Deputy Director, Office of Public Health Preparedness and Response (OPHPR)
		Kendra Moore	Recreation Manager South District
		Kevin Kearney	Chief Information Security Officer
		Kevin Ryan	HazMat Tech
		Kim Eshleman	Director, OPHPR
	X	Kimberly Grove	Chief, Office of Compliance and Research
	X	Kyle Leggs	City Planning Supervisor
		Larysa Salamacha	Managing Director

X		Yolanda Cason	Operations Manager I, Solid Waste	DPW
		Yosef Kebede	Bureau Head, Water and Wastewater	DPW
		Yvonne Moore-Jackson	Bureau Head, Solid Waste	DPW

**Agenda Summary:** The purpose of the meeting was to discuss the current status of the project, review the schedule, finalize the hazards of concern, and evaluate a selection of mitigation strategies and actions from the 2018 DP3.

Item No.	Description	Action item(s):
1	Welcome	-
2	HMAC #2 Meeting Purpose <ul style="list-style-type: none"> <li>Discuss the status of the planning process for Baltimore's Disaster Preparedness and Planning Project (DP3).</li> <li>Finalize the hazards of concern and hazard groupings.</li> <li>Evaluate five of the 2018 mitigation strategies and actions.               <ul style="list-style-type: none"> <li>Provide input on action status, update wording, decide on whether to continue the actions provided.</li> <li>This activity will serve as a guide to assist HMAC members with updating the status of their 2018 mitigation actions.</li> </ul> </li> </ul>	-
3	Status Update/Schedule <ul style="list-style-type: none"> <li>Multiple phases of the planning process are being implemented concurrently.               <ul style="list-style-type: none"> <li>Efforts are ongoing to gather data to conduct the Risk Assessment.</li> <li>Public outreach is continuously occurring throughout the planning process; we have identified how to get the public more involved.</li> </ul> </li> <li>Project is currently on track.</li> </ul>	-

Brandon M. Scott  
Mayor

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

	<ul style="list-style-type: none"> <li>Hazards need to be finalized by the end of next week in order to begin the Risk Assessment.</li> </ul>	
5	<p>Hazards of Concern</p> <ul style="list-style-type: none"> <li>The majority of natural hazards assessed in the 2018 DP3 will be carried forward to the 2023 update; the exception is the Tsunami hazards. Below is the proposed hazards and hazard groupings for the 2023 update. <ul style="list-style-type: none"> <li>Flooding <ul style="list-style-type: none"> <li>Riverine</li> <li>Stormwater/Nuisance</li> <li>Coastal</li> <li>Sea Level Rise</li> </ul> </li> <li>Coastal Storms <ul style="list-style-type: none"> <li>Tropical Storms</li> <li>Hurricanes</li> <li>Nor'easters</li> </ul> </li> <li>Severe Storms <ul style="list-style-type: none"> <li>Tornado</li> <li>Derecho</li> <li>Winter Storms</li> <li>Thunderstorms</li> </ul> </li> <li>Extreme Temperatures <ul style="list-style-type: none"> <li>Extreme Heat</li> <li>Extreme Cold</li> </ul> </li> <li>Drought</li> <li>Soil Movement <ul style="list-style-type: none"> <li>Land Subsidence</li> <li>Urban Karst/Sinkholes</li> </ul> </li> <li>Earthquake</li> <li>Human-caused <ul style="list-style-type: none"> <li>Pandemic</li> <li>Civil unrest</li> <li>Terrorism <ul style="list-style-type: none"> <li>Cyber attack</li> </ul> </li> </ul> </li> </ul> </li> <li>Participants asked what the difference between coastal flooding and sea level rise was. Coastal flooding is associated with storm events, such as a hurricane, and sea level rise occurs over a longer, gradual period of time. The group agreed to assess these hazards as separate hazards.</li> <li>Participants recommended considering including invasive species and hazardous materials (specifically transportation of hazardous materials) as human-caused hazards.</li> <li>Participants noted that hazard categorized as natural hazards can be exacerbated by human activity; the DP3 will include a discussion on how human activity can impact natural hazards.</li> </ul>	-
7	<p>Evaluating 2018 Mitigation Strategies and Actions</p> <ul style="list-style-type: none"> <li>IN-3: Ensure backup power generation for critical facilities and identified key infrastructure during power outages</li> </ul> <p>Implementation</p> <p><b>Actions:</b></p>	-

### HMAC Meeting Purpose

- Provide stakeholders an update on what has been accomplished to date in the process and where we are in the timeline.
- Review the draft 2023 DP3 vision and goals; the vision and goals set the stage for developing mitigation actions and solutions to reduce hazard risk in the City.
- Introduce public engagement tools to stakeholders and discuss how stakeholders can assist in boosting efforts.

6

**Public Kickoff Meeting Recap**

May 2, 2023 from 6:00 – 7:30 pm  
Virtual

Logos: Baltimore Office of Sustainability, Mayor's Office, Brandon M. Scott Mayor

7

**How have hazards impacted communities and individuals?**

Open text poll 6 responses 4 participants

- Anonymous: By the way I grew up in Annapolis and we never had tornados and now they are happening in this area.
- Anonymous: My neighborhood is walking distance from Falls and clearly heavy precipitation and sea level rise are impacting such areas more
- Anonymous: Certain neighborhoods have really bad basement flooding
- Anonymous: Power outages during extreme weather
- Anonymous: Flooding - street and basements flooding Downed trees during storms
- Anonymous: Extreme heat in the summer can impact health and outdoor activities

Logos: Baltimore Office of Sustainability, Mayor's Office, Brandon M. Scott Mayor

8

**What support (governmental and non-governmental) is needed to aid communities individuals to prepare, respond, and recover from hazards?**

Open text poll 3 responses 2 participants

- Anonymous: I think more resiliency hubs would be nice. Maybe at the intersection of districts 9,10, and 11
- Anonymous: I think multiple of mechanisms for warning notifications to enhance preparedness is important. I hope the BMore Alert improvements mentioned are significant. For instance, just went to web page and it looks like they are phone call recording. Messaging and emails should be options.
- Anonymous: I'm not sure. But I think educating local community organizations so they can share info with the community

10

2018 DP3	2023 Revisions
<b>Vision:</b> Baltimore will be a city whose daily activities reflect a commitment shared by government, business, and citizens to reduce or eliminate impacts from current and future natural hazards.	<b>Vision:</b> Baltimore is a resilient city whose daily activities reflect a commitment shared by all people who work, live, and play in the City to reduce or eliminate impacts from current and future hazards, especially those exacerbated by climate change.
<b>Goal 1:</b> Protect the health, safety and welfare of Baltimore City residents and visitors.	<b>Goal 1:</b> Ensure the equitable protection of the health, safety and welfare of all people who work, live, and play in the City, with specific consideration for the barriers and challenges that may result in disproportionate hazard impacts to socially vulnerable populations and underserved communities.
<b>Goal 2:</b> Prevent damage to structures, infrastructure, and critical facilities.	<b>Goal 2:</b> Strengthen the resilience of critical government and community facilities, services, and systems, to reduce or prevent impacts from natural and human-caused hazard events.
<b>Goal 3:</b> Build resilience and disaster prevention and planning into all programs, policies, and infrastructure (public and private).	<b>Goal 3:</b> Enhance the integration of resilience, disaster prevention, and planning into all City programs, policies, and operations.
<b>Goal 4:</b> Enhance the City of Baltimore's adaptive capacity and build institutional structures that can cope with future conditions that are beyond past experience.	<b>Goal 4:</b> Enhance the City of Baltimore's adaptive capacity and build institutional structures that can proactively cope with dynamic future conditions.
<b>Goal 5:</b> Promote hazard mitigation and climate adaptation awareness and education throughout the City of Baltimore.	<b>Goal 5:</b> No changes.
<b>Goal 6:</b> Provide support to increase efforts toward a better Community Rating System (CRS) community rating.	<b>Goal 6:</b> Provide support to increase efforts toward a better Community Rating System (CRS) classification.

12

## Story Map

- Interactive public facing plan website
- Explains hazard mitigation and the planning process
- Resource for upcoming public meeting dates and the public survey
- Provides definition and location of hazards of concern
- Community members can search their address to see what hazards they may be impacted by

Follow the link in the meeting chat to look!

13

## Outreach Materials

14

## Outreach Materials

15

## Surveys

- **Public:** Identify the community's exposure to hazards and the location of hazards within the community. <https://www.surveymonkey.com/r/DP3PublicSurvey>
- **Stakeholder:** Engage stakeholders (i.e., utilities, transportation, business/commerce, emergency services, health/medical) to collect input in terms of capabilities, vulnerabilities, and potential projects. <https://www.surveymonkey.com/r/DP3StakeholderSurvey>

16

## HMAC Social Equity Subcommittee

- Extended invitations to community members
- Positive responses and willingness to participate
- Will schedule kickoff meeting within the coming weeks

17

18

## Next Steps

- Continue to **assist** with data collection and plan content creation
- Use social media graphics to **inform** the public of the plan update
- **Share** the link to the StoryMap via social media
- Sustainability Open House **June 21<sup>st</sup> at 4:30 p.m.**
- Next HMAc meeting **June 27<sup>th</sup> at 2:00 p.m.**

		Yosef Kebede	Bureau Head, Water and Wastewater	DPW
		Yvonne Moore-Jackson	Bureau Head, Solid Waste	DPW

**Agenda Summary:** The purpose of the meeting was to discuss the current status of the project, review the schedule, finalize the 2023 vision and goals, and review the social media and outreach products.

Item No.	Description	Action item(s):
1	Welcome	-
2	<p>HMAC #3 Meeting Purpose</p> <ul style="list-style-type: none"> <li>Provide stakeholders an update on what has been accomplished to date in the process and where we are in the timeline.</li> <li>Review the draft 2023 DP3 vision and goals; the vision and goals set the stage for developing mitigation actions and solutions to reduce hazard risk in the City.</li> <li>Introduce public engagement tools to stakeholders and discuss how stakeholders can assist in boosting efforts.</li> </ul>	-
3	<p>Status Update/Schedule</p> <ul style="list-style-type: none"> <li>Multiple phases of the planning process are being implemented concurrently. <ul style="list-style-type: none"> <li>Efforts are ongoing to gather data to conduct the Risk Assessment.</li> <li>Public outreach is continuously occurring throughout the planning process; the project team has received 53 public responses, 10 stakeholder responses, and 2 neighboring jurisdiction response.</li> </ul> </li> </ul>	-

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

	<ul style="list-style-type: none"> <li>Office of Sustainability is expanding outreach efforts, targeting in-person engagements, and providing hard copies of the surveys.</li> <li>Held a meeting with Office of Emergency Management to discuss hazardous materials, specifically transportation through the Howard Street Tunnel. <ul style="list-style-type: none"> <li>Hazards need to be finalized by the end of next week in order to begin the Risk Assessment.</li> </ul> </li> <li>The Risk Assessment public workshop will be combined with the Annual Sustainability Open House on June 21, 2023.</li> </ul>	
4	<p>Public Kickoff Meeting Recap</p> <ul style="list-style-type: none"> <li>Meeting was held May 2, 2023, from 6:00-7:30PM</li> <li>Seven residents participated - provided feedback based on diverse backgrounds</li> <li>Conducted polling to prompt discussion. Responses to polling questions are provided below:</li> </ul> <p> <b>How have hazards impacted communities and individuals?</b> Open text poll 6 responses 4 participants</p> <p> Anonymous By the way I grew up in Annapolis and we never had tornados and now they are happening in this area.</p> <p> Anonymous My neighborhood is walking distance from Fells and clearly heavy precipitation and sea level rise are impacting such areas more</p> <p> Anonymous Certain neighborhoods have really bad basement flooding</p> <p> Anonymous Power outages during extreme weather</p> <p> Anonymous Flooding - street and basements flooding Downed trees during storms</p> <p> Anonymous Extreme heat in the summer can impact health and outdoor activities</p> <p> <b>What support (governmental and non-governmental) is needed to aid communities individuals to prepare, respond, and recover from hazards?</b> Open text poll 3 responses 2 participants</p> <p> Anonymous I think more resiliency hubs would be nice. Maybe at the intersection of districts 9,10, and 11</p> <p> Anonymous I think multiple of mechanisms for warning notifications to enhance preparedness is important. I hope the BMore Alert improvements mentioned are significant. For instance, just went to web page and it looks like they are phone call recording. Messaging and emails should be options.</p> <p> Anonymous I'm not sure. But I think educating local community organizations so they can share info with the community</p>

**Disaster Preparedness and Planning Project (DP3)**

Hazard Mitigation Advisory Committee (HMAC):  
Equity Subcommittee Meeting

1

### Meeting Purpose

- Describe the **purpose and goals** of the Disaster Preparedness and Planning Project (DP3).
- Provide an overview of the **process to develop the plan** and highlight **opportunities for integrating equity**.
- Discuss **social vulnerability** within the City as it relates to hazards.
- Discuss community **concerns and needs** regarding disasters.

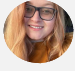

2

### Intro to Tetra Tech

- Carryout the overall planning process
- Provide technical support and subject matter expertise
- Develop outreach and engagement materials
- Facilitate meetings
- Draft and finalize the DP3

**JaLeesa Tate, CFM**  
Senior Community Resilience Professional  
[jaleesa.tate@tetratech.com](mailto:jaleesa.tate@tetratech.com)

**Jessica Stokes, MSEM, NJCEM**  
Emergency Management Specialist  
[jessica.stokes@tetratech.com](mailto:jessica.stokes@tetratech.com)

**Grace Altenburg**  
Planner  
[grace.altenburg@tetratech.com](mailto:grace.altenburg@tetratech.com)

3

### Today's Topics

INTRODUCTIONS

WHAT IS THE DP3?

SOCIAL VULNERABILITY AND HAZARD MITIGATION

GROUP DISCUSSION

QUESTIONS

NEXT STEPS

4

### Introductions

- Name
- Affiliation or Neighborhood
- Previous experience with hazard mitigation
- Areas of concern or interest

5

**What is the DP3?**

6

## What is the DP3?

The DP3 is Baltimore's Hazard Mitigation Plan.

Hazard Mitigation is a sustained action taken to reduce or eliminate long-term risk to life and property from a hazard event.

It can also be...

- Economic Development
- Revitalization and Beautification
- Natural Resource Conservation
- Cost Savings

7

## DP3 Vision

Baltimore is a **resilient city** whose daily activities reflect a **commitment shared** by all people who work, live, and play in the City to **reduce or eliminate impacts from current and future hazards**, especially those **exacerbated by climate change**.

8

## DP3 Goals

- Ensure the equitable protection of the health, safety and welfare of all people, with specific consideration for the barriers and challenges that may result in disproportionate hazard impacts.
- Strengthen the resilience of critical government and community facilities, services, and systems.
- Enhance the integration of resilience, disaster prevention, and planning into all City programs, policies, and operations.
- Enhance the City of Baltimore's adaptive capacity to proactively cope with dynamic future conditions.
- Promote hazard mitigation and climate adaptation awareness and education.
- Better Community Rating System (CRS) classification.

9

## Intended Outcomes

- Increased understanding of hazards and risk the community faces.
- Eligibility for federal funds for mitigation grant programs.
- Developing partnerships that support planning and mitigation efforts.
- Enhanced coordination of hazard mitigation with comprehensive planning and zoning.
- Development of more sustainable and disaster-resistant communities.
- Reduced long-term impacts and damages to human health and structures.

10

## Steering Committees

11

## Planning Process

12

13

### Defining Social Vulnerability

- Social vulnerability is the likelihood of an individual, community, or group to be negatively affected by external stressors which create barriers to adequately being able to prepare for, respond to, and recover from an emergency or disaster.
- The same disaster can impact different populations in different ways.
- The ability of an individual or community to withstand and recover from hazards is critical to overall community resilience.
- What barriers exist to Baltimore City residents being able to prepare for and recover from disasters?**

Health

Social Inclusion

Transportation

Education

Food Security and Access

Mobility

14

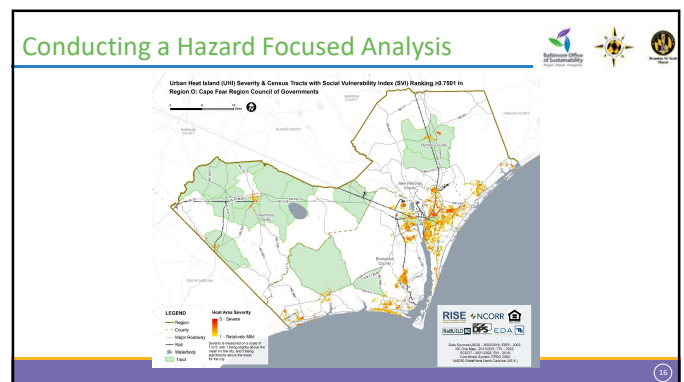

### Areas of Heightened Social Vulnerability

- Center for Disease Control and Prevention (CDC) Social Vulnerability Index

**Overall Vulnerability**

- Socioeconomic Status**
  - Below 150% Poverty
  - Unemployed
  - Housing Cost Burden
  - No High School Diploma
  - No Health Insurance
- Household Characteristics**
  - Aged 65 & Older
  - Aged 17 & Younger
  - Caregiver with a Disability
  - Single Parent Households
  - Single Language Proficiency
- Racial & Ethnic Minority Status**
  - Hispanic or Latino of any race
  - Black or African American, Not Hispanic or Latino
  - Asian, Not Hispanic or Latino
  - American Indian or Alaska Native, Not Hispanic or Latino
  - Native Hawaiian or Pacific Islander, Not Hispanic or Latino
  - Two or More Races, Not Hispanic or Latino
  - Other Race, Not Hispanic or Latino
- Housing Type & Transportation**
  - Mobile-Home Structures
  - Crowding
  - No Vehicle
  - Group Quarters

15

16

17

### Discussion Questions

- What hazards have impacted you or your community? Did you know that you were at risk of those impacts? Tell us about the recovery process.
- What can the City do to address barriers and strengthen support for community members?
- What best practices and success stories should the City know about to guide the development of projects and initiatives?
- Do you feel like you are part of the process or have a voice in determining what solutions should be put in place to reduce risk from hazards? If not, how do you feel your voice can be best heard?

18

## Open Discussion and Questions

19

## Next Steps

20

### Story Map

- Interactive public facing plan website
- Explains hazard mitigation and the planning process
- Resource for upcoming public meeting dates and the public survey
- Provides definition and location of hazards of concern
- Community members can search their address to see what hazards they may be impacted by

Follow the link in the meeting chat to look!

21

### Surveys

- **Public:** Identify the community's exposure to hazards and the location of hazards within the community. <https://www.surveymonkey.com/r/DP3PublicSurvey>
- **Stakeholder:** Engage stakeholders (i.e., utilities, transportation, business/commerce, emergency services, health/medical) to collect input in terms of capabilities, vulnerabilities, and potential projects. <https://www.surveymonkey.com/r/DP3StakeholderSurvey>

22

### Sustainability Open House

- June 21st from 4:30-7:30 pm
- Morgan State University in the Graves Business School Atrium (4200 Hillen Rd #4254, Baltimore, MD 21218).
- Learn about the efforts taking place across Baltimore to make the city more sustainable, more equitable and more resilient.

23

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

2	<p>What is the DP3?</p> <ul style="list-style-type: none"> <li>• Hazard mitigation was defined as any sustained action that reduces or eliminates long-term risk to people and property from future disasters. Hazard mitigation measures can also serve as a catalyst for economic development, revitalization and beautification, natural resources conservation, and cost savings.</li> <li>• The vision of the 2023 DP3 is as follows: Baltimore is a resilient city whose daily activities reflect a commitment shared by all people who work, live, and play in the City to reduce or eliminate impacts from current and future hazards, especially those exacerbated by climate change.</li> <li>• The goals for the 2023 DP3 have been updated and are as follows: <ul style="list-style-type: none"> <li>◦ Goal 1: Ensure the equitable protection of the health, safety, and welfare of all people who work, live, and play in the City, with specific consideration for the barriers and challenges that may result in disproportionate hazard impacts to socially vulnerable populations and underserved communities.</li> <li>◦ Goal 2: Strengthen the resilience of critical government and community facilities, services, and systems, to reduce or prevent impacts from natural and human-caused hazard events.</li> <li>◦ Goal 3: Enhance the integration of resilience, disaster prevention, and planning into all City programs, policies, and operations.</li> <li>◦ Goal 4: Enhance the City of Baltimore's adaptive capacity and build institutional structures that can proactively cope with dynamic future conditions.</li> <li>◦ Goal 5: Promote hazard mitigation and climate adaptation awareness and education throughout the City of Baltimore.</li> <li>◦ Goal 6: Provide support to increase efforts toward a better Community Rating System (CRS) classification.</li> </ul> </li> <li>• The intended outcomes of the planning process are to increase understanding of hazards and risk, maintain eligibility for grant funding, develop partnerships, integrate planning efforts, build community resilience, and reduce long-term impacts from hazards.</li> <li>• The plan consists of three steering committees including the Core Planning Team (CPT), Hazard Mitigation Advisory Committee (HMAC), and the Equity Subcommittee (to the HMAC). The Equity Subcommittee will raise community concerns and identify community needs for integration into the plan. <ul style="list-style-type: none"> <li>◦ The CPT serves as discipline leads and guides the development of the plan. This group will coordinate with the project team to discuss project status, troubleshoot any issues, inform the development of meeting materials, and review plan drafts.</li> <li>◦ The HMAC includes the CPT members and provides input and guidance on the development of the plan and focus on the plan's content.</li> </ul> </li> <li>• The planning process consist of the following nine steps: 1) organize resources, 2) conduct the assessment, 3) update the risk assessment, 4) development the mitigation strategy, 5) define the plan</li> </ul>	-
---	---	---

Brandon M. Scott  
Mayor

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

	<p>maintenance, 6) prepare the updated DP3 draft, 7) review and finalize the updated DP3 draft, 8) submit the updated DP3 draft for formal review, and 9) facilitate the adoption of the updated DP3.</p>	
3	<p><b>Social Vulnerability and Hazard Mitigation</b></p> <ul style="list-style-type: none"> <li>• Social vulnerability is the likelihood of an individual, community, or group to be negatively affected by external stressors which create barriers to adequately being able to prepare for, respond to, and recover from an emergency or disaster. <ul style="list-style-type: none"> <li>◦ External stressors may include health risk, access to transportation, food security and access, social inclusion, educational attainment, and mobility.</li> </ul> </li> <li>• Participants noted the following as barriers existing within Baltimore City: <ul style="list-style-type: none"> <li>◦ Isolation from society due to kids being sick and having to stay home; family members living far apart</li> <li>◦ Limited finances</li> <li>◦ The City's infrastructure and buildings are not ADA friendly</li> <li>◦ High population of renters and transient population that may not know where to get information regarding emergencies and disasters.</li> <li>◦ Limited or no access to broadband</li> <li>◦ Understanding warning and notification information</li> <li>◦ Identifying what organizations are ready to provide assist during response and recovery.</li> <li>◦ Hazards being caused or exacerbated by people</li> <li>◦ Concerns regarding police role in response and recovery and public distrust</li> <li>◦ Long-term recovery is lacking</li> </ul> </li> </ul>	-
4	<p><b>Group Discussion</b></p> <ul style="list-style-type: none"> <li>• Participants were asked the following questions: <ul style="list-style-type: none"> <li>◦ What hazards have impacted you or your community? Did you know that you were at risk of those impacts? Tell us about the recovery process.</li> <li>◦ What can the City do to address barriers and strengthen support for community members?</li> <li>◦ What best practices and success stories should the City know about to guide the development of projects and initiatives?</li> <li>◦ Do you feel like you are part of the process or have a voice in determining what solutions should be put in place to reduce risk from hazards? If not, how do you feel your voice can be best heard?</li> </ul> </li> <li>• Participants provided the following feedback: <ul style="list-style-type: none"> <li>◦ There is a lack of support post-disaster due to the volume of support that is required; developing plans for providing adequate support (through trained staff and/or volunteers) would be beneficial.</li> <li>◦ Disasters and hazard impacts can be caused and/or exacerbated by humans.</li> </ul> </li> </ul>	-

Brandon M. Scott  
Mayor

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

	<ul style="list-style-type: none"> <li>○ The City should consider the relationship between the community and law enforcement, when identifying staffing for disaster support activities. Pre-existing distrust can harm disaster assistance efforts.</li> <li>○ Support for undocumented individuals needs to be available.</li> <li>○ Warning and notification, such as sirens for flash floods, have been successful in neighboring communities; there needs to be additional educational outreach to educate people on the differences and meanings of the warnings and notifications.</li> <li>○ Meal distribution programs during COVID-19 can serve as success stories.</li> <li>○ Interconnected of systems (e.g., communications, power, transportation) needs to be evaluated.</li> <li>○ Provide additional information about federal, state, and regional resources that may be available following a disaster.</li> <li>○</li> </ul>	
5	<p>Question</p> <ul style="list-style-type: none"> <li>• Participants asked if the City conducts disaster drills. The City completes training and exercises, but BoS can follow-up with the Office of Emergency Management to provide additional information.</li> </ul>	BoS to provide information on the frequency of training and exercises completed by the Office of Emergency Management.
6	<p>Next Steps</p> <ul style="list-style-type: none"> <li>• The scheduled time for the meeting passed prior to covering next steps; next steps were provided to participants on the meeting agenda and via email. Next steps included: <ul style="list-style-type: none"> <li>○ Sharing the DP3 StoryMap</li> <li>○ Completing the public survey</li> <li>○ Register for the Annual Sustainability Open House</li> </ul> </li> </ul>	BoS to provide meeting materials.

1

4

### HMAC Meeting Purpose

- Provide stakeholders an update on what has been accomplished to date in the process and where we are in the timeline.
- Review the preliminary 2023 DP3 risk assessment results; the risk assessment identifies hazards, risks, impacts, and vulnerabilities.
- Brainstorm potential mitigation strategies and actions for inclusion in the 2023 DP3; these strategies and actions serve as the roadmap for reducing risk.

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

	<ul style="list-style-type: none"> <li>The Sustainability Open House on June 21<sup>st</sup> was well attended. <ul style="list-style-type: none"> <li>People were interested in learning more about how to participate in the planning process, and additional responses to the public and stakeholder surveys were received.</li> <li>We received a few more responses on problem areas – community members often noted downed trees being a concern.</li> </ul> </li> <li>The Equity Subcommittee Meeting on June 12<sup>th</sup> had 13 community members and stakeholders attend. Identified concerns include: <ul style="list-style-type: none"> <li>Hazards: flooding, water quality, sewage back-ups,</li> <li>Learning how community members can participate.</li> <li>Understanding how sustainability relates to hazard mitigation.</li> <li>Understanding how hazards may impact transportation systems.</li> <li>Learning how to decrease hazard risk, particularly from hazardous materials release.</li> <li>Understanding how disaster notifications and warnings work in the City.</li> </ul> </li> <li>The Equity Committee also discussed barriers which contribute to social vulnerability, including: <ul style="list-style-type: none"> <li>Isolation from society due to kids being sick and having to stay home; family members living far apart.</li> <li>Limited finances</li> <li>The City's infrastructure and buildings are not ADA friendly.</li> <li>High population of renters and transient population that may not know where to get information on emergencies and disasters.</li> <li>Limited or no access to broadband</li> <li>Understanding warning and notification information</li> <li>Identifying what organizations are ready to provide assist during response and recovery.</li> <li>Hazards being caused or exacerbated by people.</li> <li>Concerns regarding police role in response and recovery and public distrust</li> <li>Long-term recovery is lacking.</li> </ul> </li> </ul> <p>Comments:</p> <ul style="list-style-type: none"> <li>Interest in the Disaster Jeopardy game; Grace to share the link with the group.</li> <li>OEM and DPW to share with Equity Committee public facing information regarding the evacuation plans for the City.</li> </ul>	<ul style="list-style-type: none"> <li>Still looking to get data for critical communities and hazardous material facilities.</li> <li>End of this week to finalize analysis.</li> <li>On schedule to have the first draft available late July, early August.</li> </ul>
4	<p>Preliminary Risk Assessment Results</p> <ul style="list-style-type: none"> <li>Flood – <ul style="list-style-type: none"> <li>Comments: <ul style="list-style-type: none"> <li><b>Ron Rego:</b> Population exposed? Only looking at residents, correct? <ul style="list-style-type: none"> <li><b>Jaleesa Tate:</b> Yes, it's only based off residential data.</li> </ul> </li> <li><b>Ava Richardson:</b> for the replacement costs, is that looking at overall, or just buildings in particular? Does it factor human health or quantifiable data?</li> </ul> </li> </ul> </li> </ul>	<p><b>Baltimore City</b></p> <ul style="list-style-type: none"> <li>To get contact for Forestry GIS; Shannon Eagan and Daniel Coy.</li> </ul>

Brandon M. Scott  
Mayor

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

- **Jaleesa Tate:** Only on property damage.
  - **Kim Grove:** concept that this city doesn't operate in a bubble. Being able to move goods and services has an economic impact. The area where the 1% flooding can occur, Is there any thought of roadway/transportation systems that can be impacted by this type of flood?
    - **Jaleesa Tate:** That's included in the State assets. We're waiting on more critical facilities and assets, such as roads and rails.
  - **Joanna Birch:** if we use this language going forward, the city regulates the 1% and the 2% the same way. I refer to it as the same thing: regulatory floodplain.
    - **Jaleesa Tate:** That's helpful, as we have a brief discussion that there are natural areas not designated by FEMA that also flood. We emphasize that the SFHA has a higher risk, and areas outside of it also have risk, but it may have different impacts and/or results.
- Coastal Storm –
  - Comments:
    - No comments.
- Severe Storm –
  - Comments:
    - **Ava Richardson:** For climate change impacts, is it possible to clarify if it refers to global or local temperatures? Also, updating with most up-to-date census data as we get closer to the final date.
      - **Jaleesa Tate:** I believe it should be statewide. For the census, the 2020 number is one number, the ACS has a separate one, and additional data is available through the City Council website; we opted to go with the City Council data since it's more localized, but we can discuss and make sure we're using the most appropriate one.
- Drought –
  - Comments:
    - **Ava Richardson:** For the land exposed, is it possible to factor in trees or canopy cover into this data? Particularly older trees. We can talk with our GIS team to get this data.
      - **Jaleesa Tate:** We can, we'll just need the shapefile for that. Otherwise, we can try reaching out to someone at Forestry.
      - **Kim Grove:** The Chesapeake Bay program updated the high-resolution data in 2017 and I believe they were using data from US Forest Service. Forest / tree canopy GIS contact

Brandon M. Scott  
Mayor

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

*Shannon Eagan.* Include *Daniel Coy*, which is the city forester.

- Extreme Temperature –
  - Comments:
    - **Kim Eshleman:** Just note that Code Red Extreme Heat alerts in Baltimore city are based on heat index, not degrees F. And one more note along the same lines, the code blue extreme cold declarations are around wind chill, not degrees F.
    - **Ava Richardson:** For heat deaths by jurisdiction, I wonder if it's helpful to look at percentage increase due to other causes. The numbers are low, which is a good thing, but also wonder if they could be under reporting. Kim, could it be helpful to have other metrics?
      - **Kim Eshleman:** Is there a goal with the death data? I don't think it's due to under reporting, but if a death is associated at all with temperature, it is reported. In the State's heat report, and what we track in the city, are only during extreme heat and cold seasons. There are extreme cold deaths that occur outside of the season, but the death can still be hypothermia. There's some nuances we can discuss offline.
      - **Jaleesa Tate:** I'll reach out to you, Kim, because that can be helpful. For the hazards, we report damages in a narrative form, economic damages, and fatalities and impacts to population. It is harder to get that information for extreme temperatures, and because people don't report or realize it's tied together.
- Earthquake –
  - Comments:
    - No comments.
- Soil Movement –
  - Comments:
    - **Ava Richardson:** can you explain how soil movement is different from soil erosion? Do you think erosion is something we could assess further through the lens of HM based on the data DPW has?
      - **Jaleesa Tate:** I will work to get you a full scientific explanation to this.
    - **Kim Grove:** DPW tracks reports of erosion problems, not just related to construction.
    - **Ava Richardson:** Kim, do you think erosion is something we could assess further through the lens of HM based on the data DPW has?

Brandon M. Scott  
Mayor

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

	<ul style="list-style-type: none"> <li>• <b>Kim Grove:</b> Yes, as it relates to micro-bursts (high intensity rainfall).</li> <li>• Human-Caused – <ul style="list-style-type: none"> <li>◦ Comments: <ul style="list-style-type: none"> <li>▪ <b>Ron Rego:</b> Cyber-attack can be scary because they can attack water facilities, traffic lights, all sorts of things.</li> <li>• <b>Elise Whiteford:</b> tier II, Shelly was mentioning this and should be getting you some answers there.</li> </ul> </li> </ul> </li> </ul>	
5	<p>Mitigation Strategy Brainstorm</p> <ul style="list-style-type: none"> <li>• Infrastructure: Actions that minimize damage and loss to critical infrastructure. <ul style="list-style-type: none"> <li>◦ Includes water systems, transit systems, distribution systems, culverts, sewer systems, dams, and other core critical assets.</li> </ul> </li> <li>• Buildings: Actions that minimize damage and loss to existing structures. <ul style="list-style-type: none"> <li>◦ Includes homes, cultural and historical structures, academic institutions, offices, community establishments, religious institutions, and municipal structures.</li> <li>◦ Includes the policies and codes that influence land and building development.</li> </ul> </li> <li>• Natural Systems: Actions that minimize damage and losses and preserve or restore the functions of natural systems. <ul style="list-style-type: none"> <li>◦ Includes utilization of green corridors, preservation of shoreline areas, and water supply management tactics.</li> </ul> </li> <li>• Public Services: Actions to inform and educate people on hazard information and mitigation practices. <ul style="list-style-type: none"> <li>◦ Includes the development and implementation of strategic and operational plans.</li> <li>◦ Relates to public health and human services in terms of building resources and improving communication.</li> </ul> </li> </ul> <p>Comments:</p> <ul style="list-style-type: none"> <li>• <b>JaLeesa Tate:</b> What are tangible things you think the City can do to reduce its risks? Is there anything else that you're already doing? <ul style="list-style-type: none"> <li>◦ <b>Kim Grove:</b> DPW has been regulating, assessing, replacing, and lining 1% of the drinking water infrastructure (potential for failure, and consequence for failure) (15 mi. per year); addressing the greatest risk factor locations first.</li> <li>◦ <b>Theresa Wilson:</b> performing infrastructure audits to get clear picture of challenges. May involve funding but seems important. Utilize Community Relations Liaisons who have the "ear of the community" (and community associations/ leaders) to gain in- person feedback about the conditions they have experienced or have concerns about occurring.</li> <li>◦ <b>Joanna Birch:</b> We already do stuff under the public services category for Floodplain through the CRS. We send mailers to everyone in the regulatory floodplain and an additional mailer to those that live in repetitive loss areas. I also think informational inserts are included in water bills from time to time.</li> </ul> </li> </ul>	-

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

	<ul style="list-style-type: none"> <li>○ <b>Elise Whiteford:</b> not funded yet but, acquisition of Fredrick Manor (alternatives). In the works.</li> <li>○ <b>Joanna Birch:</b> Developing a data base of property within the city, vacant lots, and things like that, that have no structure on it. We can acquire and keep as green spaces or put a requirement in it. We can put buffers to waterways and underground systems. Preliminary database right now. Repetitive loss overlay, and waterways.</li> <li>○ <b>Ava Richardson:</b> Universal design standards to better accommodate people with disabilities during/after hazard events. Incorporating more living structures into buildings.</li> </ul>	
6	<p>Next Steps</p> <ul style="list-style-type: none"> <li>• Share the link to the StoryMap via social media.</li> <li>• Stay on the lookout for information on the in-person stakeholder Mitigation Strategy Workshop (tentative for week of July 17<sup>th</sup>).</li> <li>• Next HMAc meeting July 25<sup>th</sup> at 2:00 p.m.</li> </ul>	-
7	<p>Questions and Discussion</p> <ul style="list-style-type: none"> <li>• No questions or comments.</li> </ul>	-

1

4

### Meeting Purpose

- Review the preliminary results of the risk assessment to ground-truth the scientific findings with the lived experiences of the community.
- Identify community-focused mitigation actions that address community needs and concerns.

2

### Purpose of the Risk Assessment

- A risk assessment identifies the hazards that are the *most likely* or *most damaging* to the City. The assessment calculates the potential losses (e.g., human exposure or injury and economic damages) the City may if the hazard were to occur.
- Positions the City to utilize local knowledge and data to determine priorities for hazard mitigation and resilience efforts.
  - Analyze current data and historic impacts
  - Identify what is relevant to the City to recommend locally driven results
  - Assess the potential for emerging and future hazards
- Simply put we want to identify what current and future hazards impact the region and reduce impacts while preparing for the future.

5

### Today's Topics

OVERVIEW OF RISK ASSESSMENT RESULTS

OVERVIEW OF MITIGATION STRATEGIES AND ACTIONS

GROUP DISCUSSION

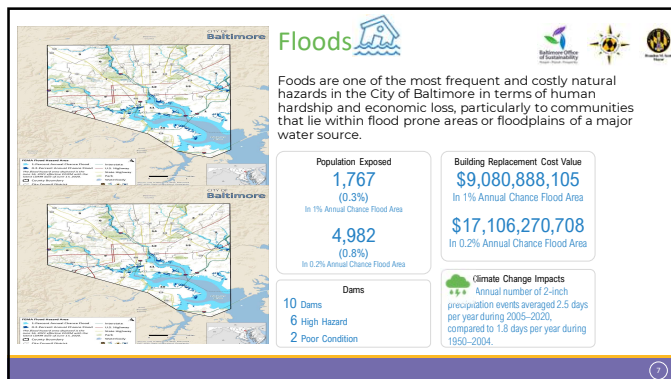

NEXT STEPS

3

### Process for Conducting the Risk Assessment

- Identify and describe current and future hazards
  - Location and extent
  - Past occurrences and impacts
  - Future probability
- Identify and assess potential impacts on assets
  - People
  - Public service facilities
  - Critical facilities
- Analyze risks
  - Intersection of vulnerability, hazards, and exposure
- Develop a roadmap to build resilience

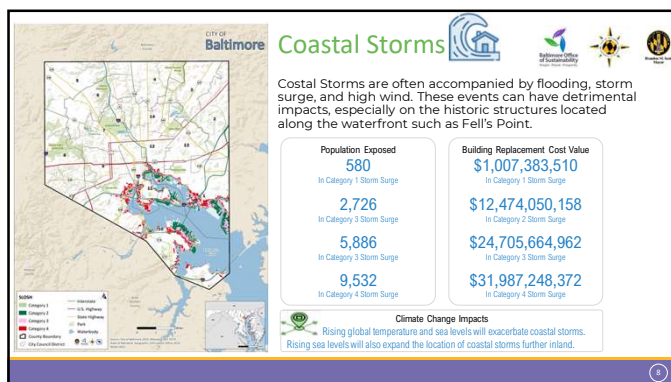

6

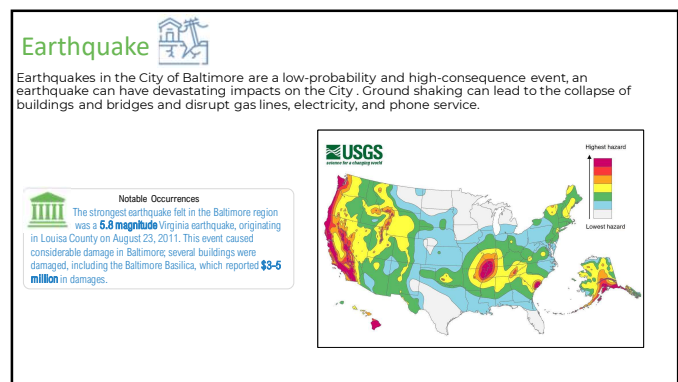

7

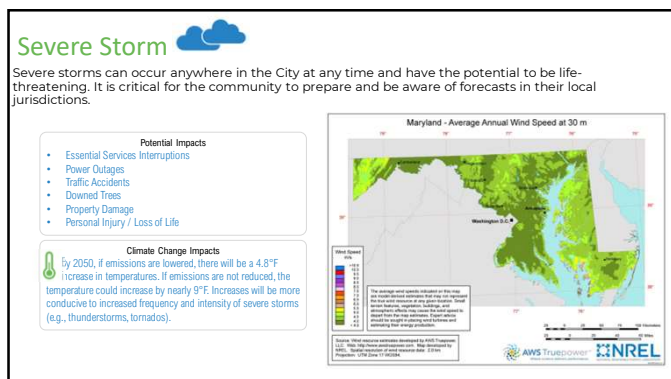

10

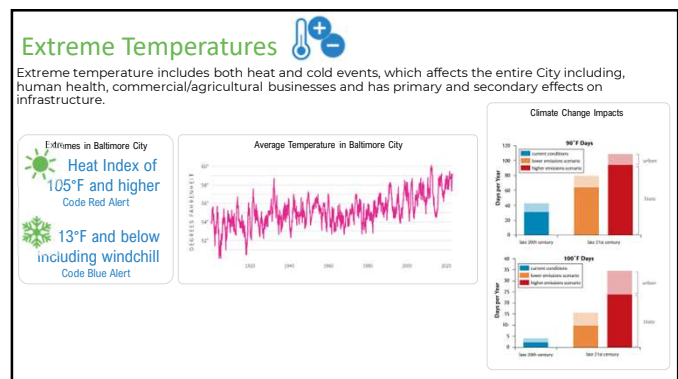

8

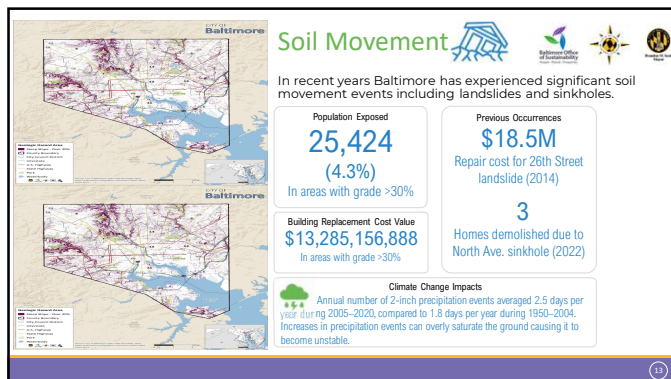

11

9

12

13

### Purpose of the Mitigation Strategy

- The **Mitigation Strategy** is the City's roadmap to reduce the risk of hazards identified in the DP3. The strategy is based on hazard impacts, asset vulnerability, and the City's capabilities.
- Mitigation Actions** are specific activities, such as policies, projects, and studies, that stakeholders identify to reduce risk.
  - Forward-looking and incorporate changing conditions for the life of the City's assets
  - Consider changing demographics and development patterns.
  - Examples of actions may include elevating electrical and HVAC equipment to reduce the likelihood of damage from floodwaters or planting trees to lower temperatures exacerbated by pavement.

16

### Human-caused

Though human-caused hazards are considered rare events, the impacts which the City would experience could be detrimental to the economy, transportation, and in some cases the environment.

Population Exposed (Cyber)	Population Exposed (Hazardous Materials)
<b>Individual scale:</b> Perpetrators may gather personal information and gain access to financial accounts; gain access to home security, disable or manipulate the system; expose medical records by accessing patients' data stored on the internet or in the cloud. <b>Governmental or corporate scale:</b> Impacts from a cyber-attack may not directly impact the general population, but the effects could be trickled down if government-based community programs are unavailable due to the attack.	Due to the varied location of different hazardous substances and waste sites in Baltimore City, the entire City is considered vulnerable to this hazard. Potential losses from hazardous substances incidences include human health and life and property resources. These types of incidents can lead to injury, illnesses, and/or death from both the involved persons and those living in the impacted areas.

14

### Developing the Mitigation Strategy

- Assess City Capabilities
  - What tools and resources does the City have to reduce risk to hazards?
- Establish Goals
  - What outcomes do we want to achieve?
- Identify Actions
  - What specific actions will be taken to reduce hazard risk?
- Action Plan
  - How will the actions be prioritized and implemented?

The diagram shows a cycle: Goals → Actions → Action Plan → back to Goals.

17

### Mitigation Strategy

Baltimore Office of Sustainability  
People • Planet • Progress

Brandon M. Scott  
Mayor

15

### 2023 Vision and Goals

**Vision:** Baltimore is a resilient city whose daily activities reflect a commitment shared by all people who work, live, and play in the City to reduce or eliminate impacts from current and future hazards, especially those exacerbated by climate change.

- Goal 1:** Ensure the equitable protection of the health, safety, and welfare of all people who work, live, and play in the City, with specific consideration for the barriers and challenges that may result in disproportionate hazard impacts to socially vulnerable populations and underserved communities.
- Goal 2:** Strengthen the resilience of critical government and community facilities, services, and systems, to reduce or prevent impacts from natural and human-caused hazard events.
- Goal 3:** Enhance the integration of resilience, disaster prevention, and planning into all City programs, policies, and operations.
- Goal 4:** Enhance the City of Baltimore's adaptive capacity and build institutional structures that can proactively cope with dynamic future conditions.
- Goal 5:** Promote hazard mitigation and climate adaptation awareness and education throughout the City of Baltimore.
- Goal 6:** Provide support to increase efforts toward a better Community Rating System (CRS) classification.

18

## Mitigation Action Categories

- **Infrastructure:** Actions that minimize damage and loss to critical infrastructure.
  - Includes water systems, transit systems, distribution systems, culverts, sewer systems, dams, and other core critical assets.
- **Buildings:** Actions that minimize damage and loss to existing structures.
  - Includes homes, cultural and historical structures, academic institutions, offices, community establishments, religious institutions, and municipal structures.
  - Includes the policies and codes that influence land and building development.
- **Natural Systems:** Actions that minimize damage and losses and preserve or restore the functions of natural systems.
  - Includes utilization of green corridors, preservation of shoreline areas, and water supply management tactics.
- **Public Services:** Actions to inform and educate people on hazard information and mitigation practices.
  - Includes the development and implementation of strategic and operational plans.
  - Relates to public health and human services in terms of building resources and improving communication.

19

## Discussion Questions: Risk Assessment

- *Do the hazard impacts and losses from the Risk Assessment align with where you perceive the vulnerabilities in the City to exist?*
- *Is there anything from the Risk Assessment that you were surprised to learn?*
- *How can the City effectively communicate risk to the community?*

22

## Examples of Mitigation Actions

- |  |   |
|--|---|
| <b>Preventative</b> <ul style="list-style-type: none"> <li>• Floodplain mapping and regulations</li> <li>• Open space preservation</li> <li>• Stormwater management</li> </ul>       | <b>Construction Projects</b> <ul style="list-style-type: none"> <li>• Floodwalls</li> <li>• Storm drain improvements</li> <li>• Channel modifications</li> </ul>                                |
| <b>Property Protection</b> <ul style="list-style-type: none"> <li>• Relocation, acquisition, or elevation</li> </ul>   | <b>Repetitively Damaged Infrastructure</b> <ul style="list-style-type: none"> <li>• Retrofit to higher standards</li> </ul>   |
| <b>Natural Resource Protection</b> <ul style="list-style-type: none"> <li>• Wetland protection</li> <li>• Erosion and sediment control</li> <li>• Environmental corridors</li> </ul> | <b>Public Information</b> <ul style="list-style-type: none"> <li>• Outreach projects</li> <li>• Real estate disclosure</li> <li>• Map information</li> <li>• Environmental education</li> </ul> |

20

## Discussion: Mitigation Strategy

*What actions can the City and stakeholders take to reduce risk?*

### Best Practices for Identifying Actions

- Focus on projects which build capacity
  - Knowledge exchange, skill building, and tool creation
- Set the stage for adaptation projects
  - Medium- and long-term initiatives which require planning and design
- Develop multi-disciplinary projects which provide co-benefits
  - Nature-based solutions
  - Construction
  - Hybrid (nature-based and construction)

### Prioritizing Equitable Outcomes

- How will the action/project contribute to more equitable access to resources and benefits in the wider community?
- Are the long-term needs of people from historically marginalized groups considered in our long-term planning?
- Are there good equity and inclusion practices in other organizations, departments, or community organizations that can inform the implementation?

23

## Group Discussion

21

## Next Steps

24

## Next Steps

- Explore the plan's **interactive website** and learn more about the hazards that may impact the City ([Story Map](#))
- Complete the Mitigation Action Development Worksheet by end of day Friday, July 21<sup>st</sup>. [Form](#)
- **Provide comments** on the draft plan when it becomes available for public review

25

Mayor

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

- Do you think residents in the City would benefit from more localized outreach regarding hazards more likely to happen in the various City Council Districts?
  - Responses:
    - No response to this question.
- How to socialize risk information:
  - Prompting on buses.
  - Spreading info through news outlets.
  - Partnership with community associations and nonprofits to disseminate information. Newsletters, community bulletins, and social media.
  - Libraries.
  - Gospel radio/general radio.
  - Text messaging.
  - Robo calls.
  - Academia.
  - Messages/information can be inserted with water bills.
- Solutions:
  - Improving infrastructure in coastal areas; lots of low-income communities on coast.
  - Develop policy to decrease the number of Haz. mat. facilities; support stormwater management; tree plantings, long term care and maintenance; horticulture.
  - Get in contact with leaders, community development corporations, to further communication. These are useful outlets for disseminating hazard information.
  - Education outlets (university, environmental groups) -- could be good to get a sense to add on to these outlets.
  - Piggy backing on libraries - create a bookmark with where people can get resources and information.
  - I agree with the library idea, there's heavy traffic during the summer in Enoch Pratt. I could also discuss it with the Baltimore Beat, I'm fine ion their editors.
  - I will always support the partnership with community associations and nonprofits to disseminate information. Newsletters, community bulletins, and social media
  - Does drought also have land impacts as well as water decreases in underground streams?
  - Are there designs on fire in this plan?
  - Drought - And effects new tree plantings
  - Engaging the press around ways to improve risk and resilience is a great idea - I feel like things are usually covered only after something happens.
  - Actions the city and stakeholders can take are including folks with lived experience at the table while making these decisions. Creating a collaborative and inclusive space to really work with the community, especially those nonprofits that are already doing this work that may just need more financial and moral support.
  - Baltimore Green Space is offering a stormwater management event on 8/8 that's free: <https://linktr.ee/baltimoregreenspace>

## Sections 4. – 11. Hazard Profiles

- Hazard Description
- Location
- Extent
- Previous Occurrences and Losses
- Probability of Future Events
- Potential Impacts of Climate Change
- Vulnerability Assessment
  - Impacts to Population
    - Socially Vulnerable Populations and Underserved Communities
  - Impacts to Structures
    - Critical Facilities, Infrastructure, and Community Lifelines
  - Impacts to the Economy
  - Impacts to Natural, Historic, and Cultural Resources
  - Future Changes that May Impact Vulnerability
    - Changes in Land Use and Development, Population, Climate Change
  - Change in Vulnerability Since 2018 DP3

13

13

## Section 14. Plan Implementation and Maintenance

- Adoption
- Plan Maintenance
- Monitoring, Evaluating, and Updating the DP3
- Integrating the DP3 into City Planning Mechanisms

16

16

## Section 12. Capability Assessment

- Overview of the existing tools, resources, programs, policies, etc. that the City currently has in place to implement hazard mitigation and build resilience.
- Includes the following for each identified capability:
  - Description
  - Responsible Agency
  - Funding to Support Hazard Mitigation
  - Hazards Addresses

14

14

## Section 15. Moving Forward

- Introduction
- Community Resilience Recommendations
- Food Resilience Recommendations
- Integration of Cultural and Historic Resources Recommendations
- Conclusion

17

17

## Section 13: Mitigation Strategy

- Vision and Goals
- Progress on Previous Plan
- Mitigation Action Identification
- Mitigation Action Plan
- Mitigation Strategy Evaluation and Prioritization

15

15

## FEMA Approval Process

18

18

## FEMA Approval + City Adoption Process

- Draft DP3 Public Comment Period
  - Planning Commission comments
  - Sustainability Commission comments
  - City agency and other stakeholder comments
  - Regional partner comments
  - Community comments
  - State (MDEM) Review comments
- Incorporation of feedback to create Draft #2
- FEMA Review of Draft #2: 45 Days
- Incorporation of FEMA feedback to create Final DP3
  - FEMA will grant the plan 'Approvable Pending Adoption' status, meaning FEMA will approve the plan once it has been locally adopted.
- Presentation of Final DP3 to Sustainability Commission
  - November meeting
  - Affirmative vote
- Presentation of Final DP3 to Planning Commission
  - November 30<sup>th</sup> meeting
  - Affirmative vote
  - PC Signs Adoption Resolution
- Resolution is submitted to FEMA and FEMA grants final approval.
- **Note: the 2018 DP3 expires December 20, 2023**

19

19

## Draft DP3 Public Comment Period

- Public Comment Period **August 11 - Sept 11<sup>th</sup>**
- Available on the Konveio Public Comment platform
  - <https://baltimoreplanning.konveio.com/>
- Need to create free user account
- Will be able to comment directly in the plan documents
- Each chapter posted separately for easier navigation

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

<b>Purpose of Meeting:</b>	Hazard Mitigation Advisory Committee Meeting #7		
<b>Location of Meeting:</b>	Teleconference		
<b>Date of Meeting:</b>	August 22, 2023 @ 2:00 P.M.		
<b>Attendees:</b>		<b>Name</b>	<b>Title</b> <b>Organization</b>
		Al Frenette	Protective Security Advisor Department of Homeland Security (DHS) Cybersecurity and Infrastructure Security Agency (CISA)
		Alice Huang	Acting Assistant Commissioner, Community Services Baltimore City Health Department (BCHD)
	X	Aliyah Russell	Project Officer Maryland Department of Emergency Management (MDEM)
		Allison Blood	Healthy Harbor Program Manager Waterfront Partnership of Baltimore
		Amy Gilder-Busatti	Environmental Planner and Landscape Architect Department of Planning (DOP)
		Andrew Shaw	Mayor's Office
		Angela McCauley	Emergency Services Manager Mayor's Office of Homeless Services (MOHS)
	X	Anthony Galloway	
		Anthony Scott	Associate Director of Project Management Mayor's Office
		Antoine Smith	Office of Emergency Response and Preparedness Department of Public Works (DPW)
	X	Aubrey Germ	Climate and Resilience Planner, BoS DOP
	X	Ava Richardson	Director, Baltimore Office of Sustainability (BoS) DOP
	X	Benjamin Zaitchik	Earth and Planetary Sciences Professor Johns Hopkins University
		Bonnie Sorak	
		Brad Rogers	Executive Director South Baltimore Gateway Partnership
		Brandi Welsh	Community Program Liaison Environmental Control Board (ECB)
		Bridget Cantwell	Hazard Mitigation Planner MDEM
		Bruna Attila	Coastal Planner, BoS DOP
		Candisse Bennett-Parker	Director Mayor's Office of Correspondence and Constituent Services
		Chanel McCoy	Mayor's Office
		Chaya Deitsch	Director of Emergency Management Baltimore City Sheriff's Office
		Christopher Hepler	Construction Project Supervisor II Department of General Services (DGS)
	X	Cindy Hudson	Environmental Manager Maryland Port Administration (MPA)
		Dan Coy	Chief of Forestry Baltimore City Recreation and Parks (BCRP)
		Danielle Gooden	Governmental and External Affairs Manager Baltimore Gas and Electric (BGE)
	X	Eileen Singleton	Principal Transportation Engineer Baltimore Metropolitan Council
		Elise Whiteford	Planning Section Chief Office of Emergency Management (OEM)
	X	Eric Booker	Deputy Commissioner, Housing Code Enforcement and Emergency Operations Baltimore City Department of Housing and Community Development (DHCD)
	X	Grace Altenburg	Resilience and Adaptation Planner Tetra Tech
		Graham Young	Project Manager Mayor's Office of Infrastructure Development (MOID)
	X	Herman Guadalupe	Engineer Supervisor DGS
	X	JaLeesa Tate	Project Manager Tetra Tech
		Jamie Williams	City Planner Supervisor DOP
		Jess Henson	Senior Director Risk and Safety Maryland Zoo
	X	Jessica Stokes	Outreach Lead Tetra Tech
		Joanna Birch	Floodplain Manager, BoS DOP
		Joshua Norris	Hazard Mitigation Planner FEMA Region 3
	X	Joy Hachette	Associate Commissioner for Consumer Education and Advocacy Maryland Insurance Administration
	X	Julia Kalloz	Energy Division Chief DGS
		Justin Elaszcz	Chief Data Officer Mayor's Office
	X	Kay Webster	Deputy Director, Office of Public Health Preparedness and Response (OPHPR) BCHD
		Kendra Moore	Recreation Manager South District Baltimore City Recreation and Parks (BCRP)
		Kevin Kearney	Chief Information Security Officer Baltimore City Information and Technology (BCIT)
		Kevin Ryan	HazMat Tech Baltimore City Fire Department (BCFD)
	X	Kim Eshleman	Director, OPHPR BCHD

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

	X	Kimberly Grove	Chief, Office of Compliance and Research	Baltimore Department of Public Works (DPW)
		Kyle Leggs	City Planning Supervisor	DOP
		Larysa Salamacha	Managing Director	Baltimore Development Corporation (BDC)
		Lauren Schiszik	Historic Preservation Planner, Commission for Historical and Architectural Preservation (CHAP)	DOP
	X	Luis Calderon		
		Lindsay Adams	Food Resilience Planner	DOP
		Marvin Jones		
		Marwan Alkarajat	Chief, Capital Projects and Energy Division	DGS
		Marcus William		
	X	Masuma Islam Lonczak	Mayor's Office of Immigrant Affairs	Mayor's Office
	X	Matt Piechocki	Senior Emergency Preparedness Administrator	BGE
	X	Michelle Smith	Preparedness Section Chief	OEM
		Natasha Neale	Community Program Liaison	ECB
	X	Nicholas O'Gara	GIS Analyst	DOP
		Rachel Whiteheart		
	X	Ron Rego	Cybersecurity Engineer	InfoSec / BCIT
		Sandra Moyer		BCFD
		Scott Brillman	Acting Deputy Director	OEM
		Shelly Smith	Preparedness Section Chief	OEM
		Stacy Montgomery	Historic Preservation Planner Supervisor, CHAP	DOP
		Tara Josberger	Climate Outreach Intern, BoS	DOP
		Tavon Braxton	Deputy Director of Operations	Department of Transportation (DOT)
	X	Theresa Wilson	Operations Officer III	DPW
		Tom Jugan	Detective	Baltimore Police Department (BPD)
		Toya Sykes-Coates	Chief of Solid Waste Administration	DPW
	X	Valorie Rupp	Climate and Resilience Program Manager	BoS
	X	William Ethridge	City Planner II	DOT
		Yolanda Cason	Operations Manager I, Solid Waste	DPW
		Yosef Kebede	Bureau Head, Water and Wastewater	DPW
		Yvonne Moore-Jackson	Bureau Head, Solid Waste	DPW

### Agenda Summary:

Item No.	Description	Action item(s):
1	Welcome Statements	- None
2	Mitigation Strategy Workshop Recap	- None
3	Review the DP3 Draft <ul style="list-style-type: none"> <li>- Notable Changes from the 2018 DP3</li> <li>- 2023 DP3 Framework</li> <li>- Introduction</li> <li>- City Profile</li> <li>- Risk Assessment</li> </ul>	<ul style="list-style-type: none"> <li>- <b>Masuma Lonczak:</b> Hello. I want bring light to including immigrant population as one of the groups of vulnerable populations.</li> <li>- <b>Ava Richardson:</b> A land use map for the city is being finalized. Not sure it will be completed in</li> </ul>

Mayor

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

	<ul style="list-style-type: none"><li>- Hazard Profiles</li><li>- Capability Assessment</li><li>- Mitigation Strategy</li><li>- Plan Implementation and Maintenance</li><li>- Moving Forward</li><li>- FEMA Approval process</li><li>- FEMA Approval + City Adoption Process</li></ul> Draft DP3 Public Comment Period	<p>time, but perhaps we can include it if the timing works out.</p> <p>-</p>
<b>7</b>	Questions and Discussion	<p>-</p>

1

4

### Meeting Purpose

- Walkthrough each section of the 2023 DP3 draft and develop an understanding of what content is located in the plan.
- Walkthrough the review and approval process for the 2023 DP3; identify opportunities for public comments and feedback.

2

### Notable Changes from 2018 DP3

- Reorganized hazards based on past events since the 2018 DP3, new data, and input from stakeholders and community members.
- Included human-caused hazards.
- Integrated socially vulnerable populations and underserved communities throughout the plan's development and risk assessment.
- Included qualitative assessment of the impacts on natural and cultural resources from hazard events.
- Aligned the plan with FEMA's updated guidance that prioritizes the following:
  - Climate Change
  - Future Changes (population and development)
  - Equity
  - Building Code Integration
  - High Hazard Potential Dam Integration

5

3

### 2023 DP3 Framework

- Section 1: Introduction
- Section 2: City Profile
- Section 3: Risk Assessment
- Sections 4 to 11: Hazard Profiles
- Section 12: Capability Assessment
- Section 13: Mitigation Strategy
- Section 14: Plan Implementation and Maintenance
- Section 15: Moving Forward
- Glossary
- Appendix A: Engagement Strategy
- Hazards of Concern:
  - Flooding
  - Coastal Hazards
  - Severe Storms
  - Drought
  - Extreme Temperature
  - Earthquake
  - Soil Movement
  - Human-Caused Hazards

6

## Section 1. Introduction

- Hazard Mitigation Planning Overview
  - Scope and Vision of Plan
  - Role of Climate Change and Climate Adaptation
  - Role of Social Vulnerability
  - Changes from last DP3
- Authorities and Responsibilities
  - FEMA Requirements
  - Planning Process
    - Organizing Resources
    - Schedule
    - Plan Integration and Existing Mitigation and Adaptation Efforts
  - Navigating the Plan

7

7

## Sections 4. – 11. Hazard Profiles

- Hazard Description
- Location
- Extent
- Previous Occurrences and Losses
- Probability of Future Events
- Potential Impacts of Climate Change
- Vulnerability Assessment
  - Impacts to Population
    - Socially Vulnerable Populations and Underserved Communities
  - Impacts to Structures
    - Critical Facilities, Infrastructure, and Community Lifelines
  - Impacts to the Economy
  - Impacts to Natural, Historic, and Cultural Resources
  - Future Changes that May Impact Vulnerability
    - Changes in Land Use and Development, Population, Climate Change
  - Change in Vulnerability Since 2018 DP3

10

10

## Section 2. City Profile

- History
- Government
- Physical Setting
  - Geography and Topography
  - Hydrography and Hydrology
  - Climate
- Community Composition
  - Population
  - Demographics
  - Vulnerable Populations and Underserved Communities
- Land Use Development
- Housing
- Physical Assets
  - General Building Stock
  - Cultural and Natural Resources
  - Critical Facilities/Infrastructure
  - Community Lifelines

8

8

## Section 12. Capability Assessment

- Overview of the existing tools, resources, programs, policies, etc. that the City currently has in place to implement hazard mitigation and build resilience.
- Includes the following for each identified capability:
  - Description
  - Responsible Agency
  - Funding to Support Hazard Mitigation
  - Hazards Addresses

11

11

## Section 3. Risk Assessment

- Identification of Hazards of Concern
  - 2023 Hazards of Concern
  - Hazard Groupings
- Methodology and Tools
- Hazard Ranking

9

9

## Section 13: Mitigation Strategy

- Vision and Goals
- Progress on Previous Plan
- Mitigation Action Identification
- Mitigation Action Plan
- Mitigation Strategy Evaluation and Prioritization

12

12

## Section 14. Plan Implementation and Maintenance

- Adoption
- Plan Maintenance
- Monitoring, Evaluating, and Updating the DP3
- Integrating the DP3 into City Planning Mechanisms

13

13

## Review and Approval

14

16

## Section 15. Moving Forward

- Introduction
- Community Resilience Recommendations
- Food Resilience Recommendations
- Integration of Cultural and Historic Resources Recommendations
- Conclusion

15

14

## Draft DP3 Public Comment Period

- Public Comment Period **August 11 - Sept 11<sup>th</sup>**
- Available on the Konveio Public Comment platform
  - <https://baltimoreplanning.konveio.com/>
- Need to create free user account
- Will be able to comment directly in the plan documents
- Each chapter posted separately for easier navigation

16

17

## Reminder of Intended Outcomes

- Increased understanding of hazards and risk the community faces.
- Eligibility for federal funds for mitigation grant programs.
- Developing partnerships that support planning and mitigation efforts.
- Enhanced coordination of hazard mitigation with comprehensive planning and zoning.
- Development of more sustainable and disaster-resistant communities.
- Reduced long-term impacts and damages to human health and structures.

17

15

## 2023 City of Baltimore Disaster Preparedness and Planning Project (DP3)

	<ul style="list-style-type: none"> <li>○ Mitigation Strategies</li> <li>○ Plan Implementation and Maintenance</li> <li>○ Moving Forward</li> </ul> <p>- Reminder of Intended Outcomes</p>	<p><b>Lynnette Hodge:</b> Maybe there is opportunity for prescriptive work that can be done to support the plan.</p>
4	<p>Review and Approval</p> <ul style="list-style-type: none"> <li>○ Draft DP3 Public Comment Period</li> <li>○ Advisory and Review Teams</li> <li>○ FEMA Approval Process</li> </ul>	<p><b>Naadiya Hutchinson:</b> Note – the comment link is not on the Office of Sustainability landing page.</p> <p><b>Aubrey Germ:</b> Will be updated shortly.</p>
5	<p>Questions and Discussion</p>	<p><b>Naadiya Hutchinson:</b> Will there be time to go through the content of the plan? Interested in going through the 2018 changes for the 2024 plan.</p> <p><b>Alexandra Grayson:</b> Can we check out section 13 as a group?</p> <p><b>Lynnette Hodge:</b> Are there requirements for the lead agencies that participated in this to report back on the feasibility of the actions as time goes on?</p> <p><b>JaLeesa Tate:</b> Yes, on two parts. For the Federal FEMA requirement annual plan update 1.) to track the action status. 2.) and to make sure this plan is actionable.</p>

# Appendix C: Socially Vulnerable Population

## Exposure by Hazards

This appendix includes exposure data for socially vulnerable populations for spatially mapped hazards. For the purposes of the exposure analyses socially vulnerable populations included the following individuals and communities:

- Older adults (over 65 years of age)
- Children (under 5 years of age)
- Non-English speaking
- Persons with disabilities
- Limited access to transportation
- Black, Indigenous, and People of Color (BIPOC)
- Individuals living in group quarters
- Lesbian, Gay, Bisexual, Transgender, Queer or Questioning, Intersec, Asexual, and Additional Identities (LGBTQIA+)

# Flood

## Appendix D: Checking in on the NFIP

Appendix D includes responses to questions related to administration and enforcement of the National Flood Insurance Program (NFIP) and Baltimore City's Floodplain Management Code. Topics discussed in the questionnaire include:

- Floodplain Identification and Mapping
- Floodplain Management
- Flood Insurance

## Floodplain Identification and Mapping

1. Who is your FPA or floodplain manager? Please provide office/agency name, position title, and contact information. **Joanna Birch, Department of Planning - Floodplain Manager, [Joanna.birch@baltimorecity.gov](mailto:Joanna.birch@baltimorecity.gov) 410-396-1224**
2. Where do you keep your FIRM and FIS report? **All current and historic FIRMs and FIS reports are stored on a shared network drive which is regularly backed up in cloud storage.**
3. Has your community adopted the most recent FIRM? When was the adoption? Where is that information stored? Has your community updated the floodplain ordinance language to include the current FIRM and FIS? **Baltimore City has adopted the most recent FIRMs. They were adopted on June 16<sup>th</sup>, 2021. The City's floodplain code § 2-3(a)(1) states: The official floodplain map is the most current Flood Insurance Rate Map, as prepared by the Federal Emergency Management Agency.**
4. Does your municipality support requests for map updates? **Yes.**
5. Is there a specific agency/department responsible for compiling these updates and tracking LOMCs? **Department of Planning, Office of Sustainability. The floodplain manager compiles and tracks these changes along with the current and historic FIRMs and FIS reports.**
6. Do you collect updated technical or scientific data and modeling? How do you share this with FEMA? **The city collects technical data and modeling in two different ways. Currently, the city is undertaking a huge effort to determine the capacity of our stormwater sewer. This data will be used to develop watershed master plans as well as guide development and improvements to our storm drain network. The first way in which the city collects these data are by gathering the data ourselves internally through interagency collaboration. The second way in which the city requires and collects information is when permit applicants are required to complete H&H modeling. Requiring this is rare but does occur. Sometimes an applicant will complete this type of study on their own without being required, for example, on small unmapped streams that feed into the larger, mapped rivers in the city.**
7. Does your municipality provide assistance with local floodplain determinations? If yes, specify how. **Yes. The floodplain manager participates in pre-development meetings as a resource for developers before the submission of permits in the building process. In these meetings specific questions can be asked along with the presentation of plans for comment. The floodplain manager also assists any other requests that come in through the Department of Planning by citizens, realtors, or other interested parties. This assistance can be provided via email, phone, or in person if necessary.**
8. Do the people/agencies responsible for using these tools in your community have the access they need? Which tools does your community rely on? **Yes. The city relies heavily on a resource maintained by the Department of Housing called CoDeMap. This map service includes a variety of map data useful to internal city staff, residents, developers, and anyone interested in information on the location of the floodplain as well as the Flood Protection Elevation. Data is taken directly from FEMA and shows all the data present on the FIRMs alongside other city information. Anyone with internet access can utilize this tool and determine their**

location in reference to the floodplain and what the Flood Protection Elevation would be.

## Floodplain Management

1. Does your municipality issue permits for all proposed development in the SFHA? What office/ position is responsible? **Yes. The Department of Planning Floodplain Manager and Coastal Planner positions are responsible.**
2. Does your municipality require BFE data for subdivision proposals and other development proposals larger than 50 lots or 5 acres? If so, what department or office is responsible? **Yes, BFE data is required if the proposal involves more than 5 lots or 5 acres. The Department of Planning (floodplain manager) is responsible for reviewing these submissions.**
3. How does your community identify substantially improved structures? When do they intervene? **Substantially improved structures are " any combination of repairs, reconstruction, rehabilitation, additions, or other improvements to a structure made during the 6-year period immediately preceding a permit application, the aggregate cost of which, together with the cost of the work proposed by the latest permit application, equals or exceeds 50% of the fair market value of the structure before the improvement is started." These projects are identified during the permitting process. Permits will be held until all requirements are met that bring the substantially improved structure into full compliance with current floodplain regs.**
4. Does your community have a coordinated process to determine substantial damage and to permit repair and improvement? Does the municipality conduct substantial damage assessments in the SFHA? Does your community have a plan for who will conduct substantial damage assessments and a procedure for assessment? **When a permit comes in to rebuild a substantially damaged property, the applicant must submit an alternative analysis to determine if the structure can be relocated to a less hazardous site. Substantial damage assessments are conducted in the floodway. Department of Planning staff conduct site visits after suspected substantial damage has been done after intense weather events. Staff then rely on pictures, information gathered by 311 and other city agencies, along with permit applications to repair to identify substantially damaged properties. Currently there is no written procedure for DoP staff to utilize when doing these assessments. We utilized FEMA published guidance to complete these assessments, including *Substantial Improvement/ Substantial Damage Desk Reference* FEMA P-758.**
5. Does your municipality require Elevation Certificates for new or substantially improved structures? If yes, how is it documented and which office/agency/department is responsible? **The Floodplain Manager within the Department of Planning is responsible for reviewing elevation certificates. All new construction and substantially improved structures in the Floodplain District must have an elevation certificate. For commercial structures, Floodproofing elevations for all new construction and all substantial improvements to an are required by the Department of Planning. For residential structures: the elevation of the lowest floor and lowest elevation of machinery serving the structure must be certified on an elevation certificate based on finished construction.**

6. How does the municipality enforce the floodplain ordinance sections? How does the municipality address SI/SD violations? **The Floodplain Manager may issue a stop work order if any development or person has failed to comply with or otherwise has violated any provision of a rule or regulation adopted under the Floodplain Ordinance. The stop work order may be issued to the person responsible for the violation or that person's authorized agent; the developer or owner of the development or that person's authorized agent; and on-site personnel. The violation notice must be served in person; by certified or registered mail; or if the identity or whereabouts of the person responsible, developer, or owner is unknown, by posting a copy of notice in a conspicuous place in or on the property. The contents of the violation must describe the nature of the violation; describe the remedial action needed to correct the violation; specify a responsible period of time within which to complete the remedial action. The Floodplain Manager may institute or cause to be instituted any appropriate legal proceeding.**
7. Has your municipality had a Community Assistance Visit? If so, were any corrective actions required? **Baltimore City has previously had a CAV. The City completed the CRS recertification process in July 2022. While this process is not exactly like that of a CAV, the CRS process requires a very close look at all of the activities and regulations Baltimore has in place. This information is submitted to a contractor responsible for communicating our success in these activities and our class rating at the end of the process.**
8. Does your municipality have or is considering higher ordinance standards than the NFIP? Please describe the higher standards and where they are documented. **Baltimore has several areas within floodplain code where higher standards have been adopted. Two ways in which this is most evident can be seen in the fact that Baltimore City considers both the 100-year and 500-year to be one in the same. The city has also adopted 2-feet of freeboard which is applied to any Flood Protection Elevation determined within the City's floodplain district.**
9. Are any local officials/departments in your community interested in a training? What topics relate most to your community? **One sources of training that would be beneficial to the City would be covering Risk Rating 2.0 and the NFIP changes that have come about as a result.**

## Flood Insurance

1. How does the municipality educate community members about the availability and value of flood insurance? **The Baltimore Office of Sustainability has a website dedicated to flood-insurance and includes a variety of topics. The City also notifies residents located in the Special Flood Hazard Area annually about their status as a resident in the SFHA and flood insurance information.**
2. Does the municipality inform community property owners about changes to the FIRM that would impact their insurance rates? **Map changes are announced to the residents and a public comment period is utilized. After changes are made official, residents newly mapped in the Special Flood Hazard Area will receive communication via mail from the city. Communication about specific changes to rates is not possible at this time. With the introduction of Risk Rating 2.0, all of the factors contributing to the rates of a flood insurance policy cannot be easily communicated. Instead, resources for determining how changes could affect those rates are shared with City residents in the SFHA.**

3. How does the municipality provide general assistance to community members regarding insurance issues? **The City's floodplain member is available as a resource to provide assistance via phone, email, or through the Office of Sustainability's general email. Events are also regularly attended where the floodplain manager is available for questions or support. Some flood prone communities have standing quarterly meetings during which multiple agencies interface with the community members and give support for these kinds of issues.**
4. Does the municipality keep track of the number of residential and non-residential structures in the SFHA? How many structures are in the SFHA in your community? **Yes.**
5. Does the municipality have any levees or levee systems in its jurisdiction? **No.**
6. Is the levee or levee system certified and accredited? **N/A**
7. Is the levee or levee system a Provisionally Accredited Levee (PAL)? **N/A**
8. Is the levee or levee system part of the USACE Rehabilitation and Inspection Program? **N/A**
9. Does your community have any Major Dams or High Hazard Dams, and if so, have you applied for FEMA's High Hazard Potential Dam grant? **No. N/A**
